Sir,  
I may inform you that I am under instructions from the Surveyor General at Victoria to make surveys of the lands suitable for settlement between Soda Creek and Quesnelle and to prepare a comprehensive map of the District.

As there are several Indian Reserves on both sides of the Fraser River between these points, I shall esteem it a great favour if you will kindly send me tracings of all Indian Reserves on both sides of the Fraser River between Soda Creek and Quesnelle.

Thanking you in anticipation,

Your obedient Servant

J. H. Brownlee
