BOSTON SHOE STORE.

Ask your doctor about Ayer's Cherry Pectoral for colds, coughs, croup, asthma, bronchitis, consumption. He knows. J. C. Ayer & Co., Lowell, Mass.

THOUSANDS OUT OF WORK.

Chicago Steel Works Dismiss Many Men—Curtailling the Output.

Chicago, Nov. 10.—Two thousand men have been laid off by the Illinois Steel Works at South Chicago. In addition to this reduction, 1,200 men who were discharged two weeks ago and who expected to return to work to-day have been informed that there is no work for them.

The officials of the company refuse to talk about the retrenchment going on, but it is said by the men that they are being laid off because of curtailment in the output.

SIR CHARLES DILKE'S VIEW.

Canada Should Have the Power of Making Treaties.

London, Nov. 10.—Sir Charles Dilke, in an interview with a representative of the Canadian Associated Press, as to his views on treaty-making powers for Canada, replied: "I have always been in favor of such power for the colonies. It will not lead to separation, but will prevent it. When Australia took strong ground regarding the High Court, I defended her action, and Canada has a good case also. You may say I sympathize with Canada's movement, but would rather not go into details just now."

ANOTHER EXTORTIONER.

Walking Delegate of New York Stonemasons' Union is Charged.

New York, Nov. 10.—James Hickey, a walking delegate for the Stonemasons' Union, was arraigned in the Harlem Court, charged with extortion, and held in \$1,000 bail for examination to-morrow. It is charged that Hickey obtained \$20 for calling off a strike on a work in charge of Henry E. Fox, a bridge contractor.

ISLANDS OF NO VALUE.

PREMIER BALFOUR'S VIEWS ON ALASKA DECISION.

Lord Alverstone Still Declines to Enter Upon Any Defence—Standard Says His Word Should Suffice—Times Thinks Our Soreness Will be Assuaged.

London, Nov. 10.—Premier Balfour, Lord Alverstone and others referred to the decision of the majority of the Alaska Tribunal at the banquet given in the historic Guild Hall by the new Lord Mayor, Sir James Ritchie, last night. About 1,200 guests were present. In his opening remarks Premier Balfour, referring to the far eastern situation, said there was every reason to feel sanguine that it would not have a serious outcome. He based this assurance on the passionate desire of the year to promote general peace, and the fact that Japan, as the ally of Great Britain, would be certain to display moderation, discretion and judgment in its demands, as well as firmness in enforcing them.

Premier Balfour said: I read only a few hours ago a telegraphic summary of Mr. Aylesworth's speech. I cannot pretend to judge a speech from a telegraphic summary, but I can guess that it was expressed in terms as eloquent as the sentiments dealt with seemed to me to be just. Ambassador Choate said he admired the spirit in which Mr. Balfour referred to the Alaska decision. That ample justice had been done by the tribunal was due to the sense of justice and the manly courage and devotion to duty of Lord Alverstone. I read, too, he said, Mr. Aylesworth's very magnanimous and handsome speech in Toronto, and if I rightly understand the generous-minded people of Canada the termination of this long-standing controversy has made both Canada and the United States better friends.

Lord Alverstone, replying for the Bench, said he was not there to justify his judicial conduct in any public speech. If the judges of Britain thought it necessary to justify their decisions, it would be a death blow to public confidence. "Discussions will arise between nations, but if you do not want a judicial decision don't ask British judges to be members of the court."

The Standard this morning, referring to the Guildhall speech, says it is absurd to sulk about the Alaska award. There is no doubt whatever that the failure of the Canadian contention was due to the inability of their advocates to prove their case before the eminent jurist presiding over the tribunal. Lord Alverstone's speech was the only vindication of his judgment that was needed. Mr. Balfour is assured by the military advisers of the Government that the two small islands given to the United States have lost their real strategic value. Canadians for the moment seem to think they would fare better in negotiations without the softening influence, experience and authority which the Imperial Government can refer to in support of its position. Ambassador Choate's conciliatory words may do something to assuage the mortification of the Dominion, and when they look at the peak named Mount Herbert they will not think unkindly of the statesmanship that closed the dispute.

The Times says that Premier Balfour referred with excellent tact to the Alaska award, and was able to give Canadian soreness a comforting assurance regarding the two small islands in the Portland Channel. Mr. Aylesworth's speech shows that Canadians can accept an adverse decision with the temper displayed by the British at home. If any assurance will assist them it will be found in the bold, manly speech of Lord Alverstone.

LORD ROWTON DEAD.

Lord Beaconsfield's Secretary Passes Away.

London, Nov. 10.—Montagu William Lowry-Corry, first Baron Rowton, is dead. He was born in 1838.

Baron Rowton left no heir. He was educated at Harrow and Cambridge, and was called to the Bar in 1862. From 1864 to 1868, and again from 1874 to 1880, he was private secretary to the Earl of Beaconsfield, and he had a fund of anecdotes and stories to tell of him and the men with whom Beaconsfield surrounded himself or associated with during his terms as Premier. As Chairman of the Rowton Houses, a plan to establish for the workingman public houses, which should be more than mere drinking places, in fact club houses with intoxicating liquors the least prominent feature, he did a great deal of useful work. He was also always to be found giving aid and interesting himself in any other object of a practical nature, having for its aim the assistance of the workingman, physically or morally.

FREE TRADE JUSTIFIED.

Mr. Asquith Deals With Some of Mr. Chamberlain's Arguments.

London, Nov. 10.—Mr. Asquith, speaking at Worcester yesterday, said that free trade was justified in 1846, it was more so now. "I deny," he said, "that we are living on the crumbs that are falling from the foreigners' table. As soon as we shut our ports to free imports from abroad we shall never stand the hazards of an insufficient harvest at home. If the foreigner paid a moderate duty on food, why not on raw materials? Mr. Chamberlain could not give an equal preference to our different colonial fellow-subjects unless he taxed the foreigners' food and raw material. A 10 per cent. duty on imported manufactures would be applied just as much to colonial as to foreign goods, and would destroy the illusions which prevailed in some parts of the empire."

AN UNPLEASANT EXPERIENCE.

Has it ever been your unhappy lot to be told by your physician that you must go to a hospital and submit to an operation? If so, you remember with what dread and shrinking you await the day when you must endure the knife.

The present day surgeon appears to be possessed by a mania for operating, especially in cases of hemorrhoids or piles, and while the greater number of the profession do not recommend this "last resort" unless they honestly believe it necessary, the fact remains that much needless operating is done, and the patient put to much expense and suffering for what?

To obtain a possible temporary relief, these words are used advisedly, because in nine cases out of ten the affliction returns and the patient is just where he started from. Oftentimes he could be cured much more simply and easily by the use of such a remedy as the Pyramid File Cure; this has come to be recognized as the best remedy to date on the market for the painful disease named, and the druggists now sell more of it than all other pile remedies combined.

The writer personally knows people who were afflicted with the worst form of bleeding and protruding piles and who were permanently cured by the use of Pyramid File Cure. In every one of these cases the attending physician had assured the sufferer that only by an operation could he rid himself of the disease; so much for the infallibility of the doctors.

This remedy, which is sold by all druggists at the low price of fifty cents, is in suppository form, is applied directly to the parts affected, and performs its work quietly and painlessly. The Pyramid Drug Co., Marshall, Mich., will mail free to any address a book telling all about piles or hemorrhoids, their cause and cure.

A suggestion is offered that if the reader is afflicted or knows anyone who is, this book be sent for, as it will be found invaluable.

REACHING YOUNG MEN.

Methodist Minister Says the Church is Wrong.

London, Ont., Nov. 10.—Rev. Geo. J. Bishop of the first Methodist Church Sunday morning spoke emphatically against the efforts being made by a part of the Methodist Church in Canada to reach young men by other than Gospel means. He characterized the young man problem as the most perplexing with which the Church had to deal, and said that all the efforts so far of church societies in this respect had been signal failures. The Epworth League and the Young Men's Christian Association, so far as the reaching of young men and converting them was concerned, he stated, had proved a failure. Furthermore, he objected to the movement for Methodist young men's clubs on the ground that they were dishonorable to God. Mr. Bishop took as his text the reference in the 19th chapter of St. Matthew to the query of the young man, "What good thing shall I do that I may have eternal life?" Mr. Bishop referred to the resolution passed at the last Conference, that steps should be taken to beget a large interest, advocating as a remedy the formation of young men's brotherhoods. Following out this, seventeen associations had been formed in Toronto, and he referred to what the President of those associations stated in The Guardian, namely, that these societies do not hold religious meetings, but develop the men physically, morally and intellectually, expecting that they will find their way into the church organizations. Upon this plan, Mr. Bishop said that at the Conference he had ventured to raise his voice against the tendency of the times to depart from the Gospel methods. He did not find in the Gospel any such plan. "I only find one way to salvation," he said, "and I only find one way of reaching all."

A Monster Moose.

Toronto, Nov. 10.—Major J. B. Miller, Captain A. G. Peuchen and Mr. S. H. Jones returned yesterday from a hunting trip about fifty miles north of Parry Sound, bringing one of the finest specimens of bull moose ever seen in Toronto. The animal, which weighed about 1,700 pounds when shot a week ago on Monday, tipped the scales yesterday at 1,475 pounds. It was shot by Major Miller, and created great excitement in the district where moose have not been seen for several years. The party also saw a cow and calf moose. The idea of presenting the carcass to the museum of the university is under consideration.

Men's Trousers

We make men's trousers properly. That is we make them of correct materials and to fit; following the styles closely from season to season; not dragging along two or three seasons behind, as is usual with most manufacturers of clothing, who are not retailers. If a style changes we are in a position with our own factory, to adopt it at once.

At present we are showing a very large range of patterns in properly tailored trousers at from \$1.50 to \$4.00. Take a pair home and try them on. If they are not satisfactory come back and get your money.

Boys' Knickers.

Never do we leave the boy out of our calculations. Boys, like men, wear out more pants than coats, and we take care to provide for this, by always carrying a full stock of boys' odd knickers, our own make, strong, serviceable, well lined; in tweed, serge and corduroy.

There are all sizes for boys from 4 to 16 years of age, and the prices run from 50c. to \$1.00 per pair.
