## The Bilhorn Telescope Organ

FOR Primary and class-room work we specially recommend the Bilhorn Telescope Organ. It is the most compact and handy portable organ made. It can be folded up in less than a minute and carried like a valise. It weighs only from 25 to 33 pounds, according to the style you choose. The case is made of three-ply oak veneering, thus combining lightness with strength. It contains two full sets of reeds of exceeding purity and volume of tone. The styles we recommend are as follows:

**Style 2**—Compass,  $3\frac{1}{2}$  octaves, weight 28 lbs.

|                               |                           |
|-------------------------------|---------------------------|
| When open                     | When closed               |
| Width, 15 inches              | Width, 11 inches          |
| Length, $23\frac{1}{2}$ "     | Length, $23\frac{1}{2}$ " |
| Height, 36 " to top of cover. | Height, 16 "              |

Our special price, \$35

**Style 3**—Compass, 4 octaves, weight 33 lbs.

|                               |                  |
|-------------------------------|------------------|
| When open                     | When closed      |
| Width, 15 inches              | Width, 15 inches |
| Length, 29 "                  | Length, 29 "     |
| Height, 36 " to top of cover. | Height, 16 "     |

Our special price, \$40

A discount of 10 per cent. for cash settlement, until stock-taking, October 31st, 1903.
