## Nova Scotia Water Power

✠ ✠

Investigations now under way by the Nova Scotia Water Power Commission have already revealed a natural resource in water power close to existing industrial centres and excellent ocean shipping ports, which, as yet, has hardly been touched.

✠ ✠

✠ ✠

A partial development of the site here shown has made possible the profitable operation of gold-bearing ores, great bodies of which merely await the development of adjacent water powers for successful and profitable operation.

✠ ✠
