RESIDENCE ELECTRIC LIGHTING PLANT**  
50 Lights—5 cents an hour.

WE HAVE standardized the electric lighting plant shown above, and are prepared to furnish it with a complete outfit of fixtures, shades and lamps, suitable for a high-class country residence or farm, ready to put up. Everything is included except the wire, which we can furnish in quantity and size required at market price.

The dynamo will run 50 lights all the time; the storage battery will run 9 lights eight hours, 13 lights five hours, 18 lights three hours or 30 lights one hour.

The dynamo can be run during the hours when the most light is wanted, and the battery will carry such lights as are needed during the night and daytime. This allows the engine (a Fairbanks-Morse Gasoline) to be used for general farm power.
