

Are you going to waste time and profits another Fall and Winter with slow-running molasses ?

The Enterprise Pumps and Measuring faucets will show you a quick, profitable and cleanly way of handling syrups and molasses this coming winter. These faucets dispense entirely with the use of measures or funnels. The syrup is correctly measured and forced from the barrel into the jar or jug in lightning time.

The Enterprise Improved Patent Suction and Force Measuring Faucets

will draw a gallon of molasses in one minute in cold weather. They are absolutely accurate in measuring the amounts required and will stand the wear and tear of daily service.

The Enterprise Self-Priming and Measuring Pump

draws molasses at the rate of four revolutions to the pint. It is equipped with our new total register device which shows exactly how much has been taken out. Just put the pump in the barrel and it is ready for use.

Send for the Enterprise Catalog on Measuring Pumps, Meat and Food Choppers, Coffee Mills, Cherry Stoners, Fruit Presses, Sad Irons, Etc.
