WINNIPEG MARKET LETTER

ni

(Office of the Grain Growers' Grain Company Limited, October 4, 1913)

(Office of the Grain Growers' Grain Company Limited, October 4, 1918) Wheat.—This week sees the market close again at a lower figure, October being just about 2 cents ander last Monday. The feature of the week has been the excellent export demand, which has taken care of the enormous receipts that continue to, come to hand. Considering the receipts, the market is holding very well, and if, during the next few weeks, bad weather or car shortage should materially cut down receipts from the country, there would hkelp be some reaction. The Argentine crop is just beginning to attract attention in importing countries and, reports from there are not any too favorable. Any con-tinuance of unfavorable conditions in the Argentine should have a strengthening influence on cables. Taking everything into consideration, it seems to us that there is no need for anyone to be afraid of there being any big slump in prices from these levels. A continuance for the next month of present enormous receipts and the most favorable conditions elsewhere would be necessary to have such an effect. Out -Oast closed about 1 cent lower and throughout the week the demand for this grain has been money than their own and with the new tariff coming into effect there may be some re-adjustment of values. The next couple of weeks should bring out whatever changes there are likely to be in this direction. Barley.—Barley is still in very poor demand, there being no signs of interest on the part of exporters, had to force their grain on the market. That and y during the week. The next day exporters were re-sellers and since then sellers have had to force their grain on the market. Flax.—There is not yet any heavy movement of flax and consequently there is little interest in the market. Prices are lower than a week ago...

Wheat steady on American cables and ex-pectations of lighter world's shipments to the United Kingdom were offset here by improved weather conditions in Argentine and continued liberal Russian offers. The market opened un-changed and remained inactive during the entire trading session.

Note — Quotations are f.o.b. Winnipeg, except those for cream, which are f.o.b. point of shipment. Butter Fancy dairy and No. 1 dairy are firm at last week's prices, 24 to 25 cents, and 22 cents re-spectively. Good round lots are firmer, but our last quotation, 20 cents, holds good. Supplies are, of course, declining, on account of the colder weather, but they are nevertheless keeping abead of the last two years. Eggs Candled eggs are bringing 25 cents, with plenty of demand and only moderate receipts. Fresh of demand and only moderate receipts. Site stored and guaranteed eggs are quoted 50 to 50 cents, with an unlimited outlet for all that can be found. Pointoes

be found. Potatoes Heavy shipments of potatoes are coming in, but the price stands level with the past few weeks, 35-37 cents per bushel, in sacks. A decline is not looked for. Milk and Cream The new fall scale of prices, 32 cents for sweet cream and 27 cents for sour, holds without change so far. A slight advance may be made before the month is over, depending on circumstances. Supplies are coming in as freely as could be looked for.

Supplies are coming in as freely as could be looked for. Dressed Meats Winnipeg butchers are paying up to 104 cents per lb. for dressed beef, 14 cents for fresh veal, 13 cents for hogs and 124 cents for mutton. Fresh spring lamb is down one cent to 15 cents. There is a scarcity of choice dressed meats in most lines. Hay Wild hay is even with last week, \$11-\$12 for No. 1 Red Top and \$10-\$11 for No. 1 Upland. Timithy is down a dollar, to \$15-\$10. Shipments are coming in moderately well.
