

Good Farm Supplies that will Make You Money-Order Early

Judson Self-Balancing Bowl Cream Separator

A Real Separator, Mechanically Perfect. Takes Every Drop of Cream from the Milk

The "Judson" Self-Balancing Bowl Separator is the Separator you want to get the greatest results from your dairy in the easiest way. Note the many good features in this wonderful machine that are not found in any other Separator selling for considerably more:—

1.—The Bowl need never be re-balanced; assuring you the use of machine at all times; and there is no other Separator on the market to-day having this feature.

2.—Discs are interchangeable; do not have to be placed on core in rotation. This saves time.

3.—Housing for bowl is part of tinware, making the Separator more sanitary, as this piece will naturally be washed after each skimming.

4.—Gears are all bronze, worked in oil, and are easily accessible. No complicated parts to this machine.

5.—Unusually easy to turn, and with our short crank you can operate the Separator with this from a sitting position.

Repairs.—There are hardly any parts of this Separator that can possibly wear out or give you trouble; but we assure you that we have these repairs stocked on hand at all times to take care of any parts you may require.

Easy Accessibility to Working Parts. All Gears Run in Oil. No Oiling Necessary.

PRICE.—Our Separators cost just as much to build as other first class machines. By avoiding all the expenses and profit of branch stores, salesmen and agents we can make a big saving for every buyer.

OUR POLICY.—We aim to have the best Separator, regardless of cost, and to supply our customers at prices which are the lowest safe margin over the actual shop cost. We take a personal interest in every machine and every buyer; are always glad to supply any needed information or advice, and are prepared to do repair and overhauling, if ever necessary, promptly and in a workmanlike manner, at the lowest possible prices.

No matter what Separator you may favor of may be induced to try, we ask you to test the "JUDSON" alongside of it. If this Separator does not clearly prove that it is the better in every way, and thereby win a place in your dairy, you can do us no greater favor than to return it and let us send your money back.

WE GUARANTEE THE "JUDSON" TO BE NOT ONLY THE BEST AT THE PRICE, BUT THE BEST AT ANY PRICE
