Set a pitcher of water in a room and in a few hours it would have absorbed all the gases in the room, the air will be pure and the water utterly filthy. The colder the water is the greater the capacity to hold these gases. Impure water is more injurious than impure air. This demonstrates the fact that any water for drinking purposes carried into the sleeping room should be bottled or well covered and placed in the open window when possible.

The majority of the members of the Ontario Legislature have presented to the House petitions from churches of all denominations, temperance societies and kindred organizations in all parts of the province calling upon the government to alter the three-fifths clause in the local option section of the liquor license act while others go further and ask for the total abolition of the public drinking.

The custom of ladies having the privilege of offering marriage in leapear is taken from an old Act of the Scottish Parliament, passed in the 13th century whereby it was "Ordonit that during the rein of her maist blessid Majestie Margaret, ilka maiden laidee of baith high and low estait, schale hae libertie to speak the man she likes. The Toronto Globe tells of a romantic though rather melancholy aspect given to a funeral near Allandale on Sunday by reason of the snow blocking of the roads. Rev. A. J. Paul, who was in the city told of how after he had conducted a burial service the procession started for the Union cemetery at Barrie, but when at the Roman Catholic cemetery, about a mile and a half from their destination, the roads became impassible. The pallbearers then lifted the casket out of the hearse and, placing it on a toboggan, strapped on snowshoes and drew it the rest of the way to the grave, where the interment took place, the mourners standing about on their snowshoes and muffled up in their great coats while the coffin was lowered into the ground.

With a sharp-pointed steel drill in his stomach, Mr. Andrew Bowlby, one of Windsor's best-known citizens, is moving about gingerly and wondering what will happen next. While in a dentist's chair the other day a small drill used for boring into a diseased tooth became detached, and before it could be caught, had slipped down Mr. Bowlby's throat and presumably into his stomach, where it now resides. The doctors may use the X-rays to locate the drill.

Last week the Review told of a telegraph lineman who started on Monday to dig down to reach a telegraph line which he was sent out to repair and as he shovelled down he came across another lineman who had been sent out a week before and who was industriously digging up to reach the wire. This story is eclipsed by a Huron man who says he was walking over the snow banks when he fell into a hole and landed in the motive.

Macdonald, formerly patron member for the Riding.

Paralyzed by Lumbago—Manual labor or even light exercise is impossible with lumbago. The muscles stiffen out like steel—to move means agony. Only a powerful remedy can penetrate deep enough to help. The surest relief comes from rubbing in Nerviline. It sinks into the very root of the trouble—penetrates where an oily liniment cannot go. To prevent lumbago returning put on a Nerviline Porous Plaster which removes inflammation and strain from the muscles, and acts as a guard from drafts and exposure. Nothing will so quickly cure as these remedies. All dealers sell Polson's Nervilnd and Nerviline Porous Plasters. Refuse all substitutes.

The notorious wild cat or lynx that has been out in Redpath's swamp for several winters and has been seen by many people time and again (in their minds) is an exploded myth. The cat that created the yelps and yowls was a simple device invented by some mischievous school boy, by attaching a piece of smooth and thinly shaved elm to a whip he could make the most unearthly noises in the swamp at night. He did it first to frighten the schoolmaster, against whom he had a grudge, and the teacher got so scared he would not avoing go, but went at the end of the term. The device was such a success that a curfew bell was not a candle to it. Nobody went out after dark and men it is stated used to go after the cows at milking time on horseback.

Wingham, Ont., Feb. 23.—A costly wreck occurred in the Canadian Pacific station yards here yesterday, almost demolishing the station buildings and badly damaging and derailing engine, tender and freight cars. When the afternoon express was arriving, a freight train which had been shunting in front of the station got foul of the main line, and the express crashed into it immediately in front of the baggage room, breaking up the platform and only stopping a few feet from the ticket office. No person was injured, there were many narrow escapes. The line will probably be cleared by to-morrow. The engine of the freight train was utilized to take the express to Teeswater.

A German of thrifty habits was in ill health. His family physician could do nothing for him and advised him to see a specialist. In the waiting room of the specialist he found a large number of patients each anxious for his turn with the famous doctor. The sick man was very much impressed with the lucrative practice which this physician have, and was growing a little nervous at the possible size of his fees. Turning to a gentleman sitting beside him he said:

"I suppose sir, that this doctor charges very high fees."

"Yes," said the gentlemen, "he charges \$50 for the first consultation and \$10 for each additional visit."

Nothing further was said, but when it came the thirty one's turn to be ushered in he met the doctor and grabbing his hand said:

"How do you do doctor. You see, here I am again."

The recount of the local option ballots in the Township of Howick came off in the Township Hall, Gorrie, on Tuesday and there was practically no change in the former figures. The Judge disallowed one ballot on each side. G. F. Blair of Goderich for the Local Optionists and R. Vanstone of Wingham for the appellants. The By-law received its third reading on Wednesday and will come into force on May 1st, 1908. It is said there were some of the returning officers guilty of some slight irregularities, but it is thought these will not upset the by-law, even though it is tested in the courts.

A deputation from Warton and the Peninsula went to Toronto last week to urge the Ontario Government to assist in building a good centre road from Warton to Tobermory. The distance is about 50 miles. The people of the North have been waiting for better communication a long time and there is no doubt the right thing to do is the completion of a good central road between the points mentioned.
