Weymouth, N.S., May 29, 1918. Editor of the Courier: Dear Sir—Whereas it has been reported among the people of this and other Counties, that the Ministers have been paid by the Dominion Government for the work of recruiting men for Military and other branches of the defence of our Empire, and to myself in particular among them, I wish to state in your newspaper for the information and guidance of all the people that I never received the slightest fee or reward from the Government at any time, nor did I enter into any agreement for the giving of such recompense with the said Government as the attached letter from the office shows very clearly. I trust this note will show the disinterestedness of such work and workers.

Yours truly, HARRY BURGESS, Recruiting Officer.

Halifax, N.S., May 17th, 1918. Rev. Henry Burgess, Weymouth, N.S. Dear Mr. Burgess—Reports have been going abroad that some Voluntary Recruiting Officers have received large sums of money for recruiting, and I thought it only just that I should write to you stating the facts of the case in a letter, which you may make public if you wish.

Since the beginning of the war, persons in different localities, especially ministers, have contributed their time and efforts in the work of recruiting, and have never received a cent for their services. You are one of these persons who have done much to help in this particular, and your time has always been contributed freely, and without asking or receiving any money or your services.

Most sincerely yours, GEORGE B. CUTTEN, Formerly Chief Recruiting Officer District No. 6. —Digby Courier.

ARRIVAL OF CHRISTMAS BOXES.

The Christmas boxes sent to the boys of the No. 2. Battalion by the Victoria Club, Truro; have just arrived in France.

Below is one of the many letters received by the Club showing the appreciation of the boys on receiving the boxes.

Letter from Cpl. W. H. Elms. France, May 6, 1918. The President and Members, Victoria Club, Truro, N. S.

It gives me great pleasure to acknowledge, with hearty thanks, the receipt of your most welcomed parcel, which arrived about a week or more ago.

The thoughtful act was highly appreciated; it is hard to express the deep gratitude I feel toward you. Over here in France every token from Canada helps to cheer one up, and fills a place in our life which only the Maple Leaf can occupy.

That your Club may continue it

good work and ever extend its influence for our comfort is the heart felt wish of one of your most grateful boys. My best regards to all the members of the Club.

MORE ENEMIES AGAINST TURKS.

London, June 7—A bitter struggle is being waged in the Caucasus between the New Caucasian government and the Turks. The Turks are reported to have massacred more than ten thousand Armenians within a fortnight. The Caucasian government has ordered the mobilization of all men between the ages of 19 and 42 and newly formed Casucasian detachments are concentrating in the Tiflis district.

CREW OF S. S. HARPATIAN AND SUBMARINE.

An Atlantic Port, June 7.

Members of the crew of the steamer Harpatian, which was torpedoed by a German submarine off Virginia Capes, in statements made after landing, here, said they did not see the submarine until after they had taken to their boats and their ship had gone down. The U-boat then came to the surface in their midst they said, and gave them water and American tobacco. The submarine was described as of unusual size being considerably more than two hundred feet in length, and heavily armed. Two of the members of the Harpathians crew were injured, one severely and the other slightly. Others are suffering from exposure.

SHARP PAINS SHOT THROUGH HEART.

Thousands of people go about their daily work on the verge of death and yet don't know it. Every once in a while a pain will shoot through the heart, but little attention is paid to it at the time, and it is only when a violent shock comes that the weakness of the heart is apparent.

There is only one cure for the weak heart and that is Milburn's Heart and Nerve Pills. Mr. H. A. Young, 83 Bayter St., Toronto, Ont., writes:—"I used to have sharp pains shoot through my heart, suffered from shortness of breath, and was so nervous I could not sleep at night. A friend advised me to try Milburn's Heart and Nerve Pills, and after one box I found great relief. Three boxes completely cured me."

Milburn's Heart and Nerve Pills are 50c. per box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

GREAT WORK BY AMERICAN MARINES.

With the American Forces on the Marne, June 7—American marines last night reached the outskirts of Boursches, north west of Chateau Thierry, and poured Volleys of machine gunfire into the enemy inflicting heavy casualties. Bayonets were used freely against many of the Germans, who attempted to make a stand in the streets. At daybreak today the marines were slowly driving the Germans back in the face of heavy artillery fire, including gas shells. The American artillery was performing magnificently in this operation.

The second attack made yesterday by American marines on German positions north west of Chateau Thierry, early gave promise of being a successful as yesterday morning's assault. The marines reach all their objectives in the first hour, within that time limit and pushed beyond them. The early reports indicated the Germans on the run for the time being, and surrendering right to left.

WHEAT CONSERVATION MUST CONTINUE

Ottawa, June 7—The conservation of wheat and substitution of other cereals on this continent so as to supply great amounts to the countries overseas, who are dependent upon us, must be continued at least until the 1919 crop situation is known. Such is the effect of an announcement made yesterday by Mr. Henry B. Thompson, chairman of the Canadian Food Board.

BUSINESS CHANGE.

A. E. Farquhar, formerly manager of the Truro Market, has joined the firm of "Spencer's Machine Shop and Garage", Esplanade, Truro. Mr. Farquhar will look after the office and financial end of the business. This is a going concern and is as busy as the orthodox "busy bee" and Mr. Farquhar will find exceptional well.

MORE PASSENGERS FROM VESSELS SUNK BY U-BOATS.

An Atlantic Port, June 7. An American steamship, which arrived here last night from Central America ports with 204 passengers, was only thirty miles distant from the S. S. Eidsvold, when that vessel was sunk Tuesday by a German submarine off the Virginia Capes. The liner had been warned by wireless of the presence of the U-boats in American waters, the passengers said and ran far out in her course. Another American steamship reached here tonight with 78 passengers from South America and the West Indies. The ships company remained on deck all of Monday night, wearing lifebelts. The boats, the passengers declared, were stocked with food and water.

HUNS QUIET AT CHATEAU-THIERRY.

London, June 7—The Germans do not intend to attempt any further or immediate progress around Chateau Thierry, says Reuters correspondent with the American army in France, who spend Thursday north west of that town. The enemy, he adds, shows lassitude which might well seem an intentional effort at deception. The French still hold that part of Chateau Thierry on the left bank of the Marne.

SUCCESSFUL BOMBING RAIDS BY BRITISH SEAPLANE FIGHT OVER NORTH SEA—HUN BEATEN.

London, June 7—A review, covering naval aerial operations during the period from June 3, to June 5, was published last night by the Admiralty. It says—"Eight bombing raids have been made on the following military objectives, Zeebrugge, Ostend, Bruges, and the Thourout railway Junction. Large quantities of heavy bombs were dropped. In the course of aerial fighting two enemy machines were destroyed and three driven down out of control. One of our machines is missing.

In home waters during the same period escort duties and anti-submarine patrols were carried out. Submarines were sighted and attacked and enemy mines located on several occasions.

A squadron of large sea planes carried out a long reconnaissance over the north Sea. A large formation of enemy machines was met and engaged, resulting in two enemy machines being shot down. On the return journey two of our machines were forced to alight close to the Dutch coast owing to engine trouble. They have been interned.
