BOOKBINDING

Orders for Bookbinding should be sent to this office. It is surprising how nice volume can be made of these magazines, even though they are somewhat soiled from much handling. Books, Magazines or Periodicals bound or rebound in any style at very reasonable prices. Blank books, such as Journals, ledgers, etc., books, with any kind of ruling, made to order. PLANKY OFFICE, CHATHAM

Nothing reveals a man's character more fully than the spirit in which he bears his limitations.

HOW TO SMILE.

Don't Smile at All Unless You Can Smile a Pretty, Open Smile. Unless you can smile a beautiful smile there isn't much use of trying to push your way onward in this world of misery. If things come your way, all well and good. If they don't, you can't make them. A smile is necessary in most cases to right things. If you don't know how to smile or can't smile, you are badly off.

Here is the recipe for a smile: One pair of red lips that turn upward at the corners, the redder the better, and the sharper the upward curve the prettier the lips will be. The lips should also be full and what is called ripe. If your lips are not "ripe" you must learn how to ripen them.

For your smile, which is to be a permanent one, always ready when wanted, you will need a set of dimples. One will answer if you have no more. But it should be located in the chin. A chin dimple makes all the difference in the world when one is counting up one's good looks; in a smile it is half the battle. In your smile you really ought to have cheek dimples. But these are difficult unless your face is fat. Still they are not impossible even to the thin cheeked girl. Dimples are so delightful when you are smiling. They are cheerful and persuasive.

Dentistry at home seems impossible, yet there are certain preventives which may come under the head of dentistry. The teeth play a very important part in the smile—in fact, there can be said to be no smile at all unless the teeth are nice; otherwise the smile is a mere grimace. It should not be attempted.

The habit of holding the hand up in front of the lips when one smiles to hide a defect in the teeth is to be deplored. It makes the one who smiles look awkward, and it defeats itself in that it merely calls attention to the fact that the teeth are poor. Don't smile at all unless you can smile a pretty, open smile.

CORSET ADVICE.

Wear One Pair One Day and Another the Next.

If you change your dress in the evening, change the corsets with the dress. If not, wear one pair one day and another the next. They will last as long again and keep their shape. Then carefully roll them up, first straightening gently, but firmly, steels or bones that have become bent by the figure's swelling. Do not accustom yourself to leaving off your corsets when tired or hot in the evenings. Wear them looser if you like, and when you are really ill keep an old but well fitting pair, but resist the old, age insistent to flop and uncorset yourself. It accounts for more shapeless, sack figures than one realizes. When putting on your corset pull it well down before beginning to lace it. Make sure that the waist is in its proper place and not riding up at least an inch, as is generally the case with a careless woman. The whole effect of a corset, no matter how good, is spoiled by this. A pretty, trim figure is by no means difficult to obtain. Nor are expensive corsets an absolute necessity. Inexpensive ones can do wonders, and if a woman's income is such that she can afford to have her stays made to order she is to be congratulated. But she need not despair over ready made, and those costing less than \$5 at that. It is a great mistake to think it is ever necessary to lace. It is always undesirable and always inartistic. More ruined digestions, more red noses, more weak hearts and other more agonies of pain around the heart have been caused by this than by anything else.

NEEDLEWORK NOTES.

If a narrow tape is run in the bottom of your kimono sews in the tapes they may be tied in a bow and kept out of the way when one is working about the house.

In making bands on children's underwear it is a good idea to allow an inch at each end to turn back before making the buttonhole, as this makes the band much stronger and there will be less tearing of garments.

A useful thing for mothers who have plenty of mending to do for small boys and girls is gum tissue. It can be placed under thin spots in elbows and knees, used to patch a rent in a hurry and gives a stiff background to revers or collars made of soft materials that have little stiffness of their own.

When blankets have become thin and unsightly from long use have them washed, put two or three together and cover them with pretty sateen to make quilts. Button down quilts here and there mattress fashion to keep them in proper shape and finish off with a nice sateen frill if desired. They are very nice.

Mess and Pie Crust. A good way to prevent the juice from running out of fruit pie is to insert a tunnel shaped piece of paper in the top crust. This will allow the steam to escape while the pie is baking. Many people sprinkle the top of a juicy pie with some before putting on the top crust. Another good suggestion is to use minute tapioca instead of flour for the purpose.

Lady Curzon's Discovery. The late Lady Curzon is said to have told some American friends that very early in her married life she discovered that Lord Curzon liked to be "dressed for." So she resolved that she should never come to dinner without finding her in a garb a little different from what other people had seen her in. "It is not much trouble," she said, "and it pleases him."

Fate of the Bavarian.

Montreal, Oct. 22.—The North American Wheeling Co., Limited, have finally decided to sell the steamship Bavarian as she now lies at Point Levis. It is understood that American engineers who have recently examined the ship, believe that she can be cut in two, somewhat similarly to the C. P. R. boat, the Keewatin, which was recently in the drydock at Quebec for that purpose. The ship will be sold by auction before the close of navigation, even in she to be scrapped, and it is believed that she would realize for this purpose over \$125,000.

GREATEST FEMALE STRENGTH-ENER ON EARTH.

Thousands of people are wan, pallid, run down and dejected. What they need is that nourishing tonic Ferrozone. Soon they regain their laughing eyes, bright spirits and rosy cheeks. Ferrozone does this and more, as Mrs. L. F. Anderson, Whitney Pier, C. B., testifies. "My daughter was very much run down and had considerable trouble at times. Often I was at a loss to know what to do. I was advised to give her Ferrozone, and I did so. Ferrozone cleared up all the trouble, made my daughter healthy and well. I consider it a medicine every woman should use regularly if she wants to feel her best." Rebuilt with Ferrozone. It is the King of all cures. Price 50c per box at all dealers.

Engine Broke Through Bridge.

Amprion, Oct. 22.—James Hudson of Glasgow station, was driving a traction engine on the farm of William McComb in McNab Township, when the engine crashed through a bridge into a gully about 70 feet deep. The unfortunate man was pinned beneath the engine and killed instantly.

JUST WHERE THE DANG IS LIES.

In many catarrh snuff, cocaine is the largely used ingredient. In consequence, the drug habit may be formed. To be really cured of catarrh, to do so quickly, safely and pleasantly, doctors say Catarrhzone is superior to any other remedy. It heals sore places, stops discharge, prevents hawking, spitting and bad breath—does this by first destroying the cause of the disease. Catarrhzone is no experiment, it is a tried and proven cure that is guaranteed for bronchial, throat, nose and lung catarrh. Two sizes, 25c, and \$1.00, at all dealers.

Killed Greek Laborers.

Versailles, O., Oct. 22.—A Big Four train struck a handcar, in which were 19 Greek laborers, killing three and injuring five others. The train was immediately stopped to care for the injured, whereupon the injured Greeks attacked the train crew, but were overpowered.

Banning Soreas, the outcome of neglect, or bad blood, have a never-failing balm in Dr. Agnew's Ointment—Mrs. Z. A. Van Loven is the wife of the governor of the county jail, Napanee, Ont., and was a great sufferer from rheumatism. Dr. Agnew's Ointment cured her.

Former Legislator Dead. Winnipeg, Oct. 22.—F. W. Colelough, ex-M. P. for Selkirk, died in the General Hospital yesterday, from an attack of apoplexy. He was mayor of Selkirk for a number of years and sat for two sessions in the House.

Nature has just one pigment on her palette with which she produces all the marvelous tints of beauty, and that is the pigment in the blood. The shell-like pink beneath the finger nails, the delicate rose of the cheek, the iridescent brilliance of the eyes are produced by the blood. Just as the permanence of a beautiful painting will depend upon the purity of the colors with which it is painted, so the permanence of beauty depends upon the purity of the blood. Paint, powder and cosmetics won't avail to preserve beauty. Beauty begins in the blood. Dr. Pierce's Golden Medical Discovery is a true beautifier, because it provides for nature that pure blood with which alone she can paint. The use of this medicine will cleanse the skin, brighten the complexion, brighten the eyes, and give the face that radiance of health which is the greatest charm of beauty.

This is not a "patent medicine," because every bottle bears upon its wrapper a full list of the ingredients. Send for free booklet to Dr. R. V. Pierce, Buffalo, N. Y.

ATTRACTIVE TRIFLES.

Plaited Skirts Still in Vogue—Jumper Frocks de Mode—A Unique Setting. Early as it is in the season the new goods are arriving for fall use, and in all the made up materials plaited skirts are the only model that smart shops are carrying. These models differ only from the spring skirts in the fact that they are not quite so much trimmed and that little garniture is applied in straight lines—no medallions, no wall of Troy or circular effects around the bottoms of the skirts. Everything is straight and stiff. It seems to matter very little what the material may be, the models all resemble each other in lines and general cuts.

Juniper frocks will not be so popular in the autumn, and I would only advise the making over of dresses in this style.

A WHITE LINEN GOWN—\$751, \$750. style. Blouses are to be found in such varieties that there need be no regret for the loss of the jumper.

Here is a novel way of setting a miniature which delights the heart of the woman who wears it. The miniature has an antique Florentine frame inclosing it set with jewels. The old tone of the gold, its quaint design and the old fashioned jewels set therein make it a very interesting neck ornament swung from its old fashioned chain.

A skirt gauge with which to measure the depth of the hem from the floor is a convenient device. It consists of an upright holding a piece of French chalk and marked with a scale of inches. The chalk marker can be raised or lowered. White linen is used to make this smart costume. On both the skirt and the blouse are bands of the material with disks embroidered in a heavy linen thread. JUDIC CHOLLET.

SARTORIAL NEWS.

Purple a Modish Color—A Bracelet That Holds Car Fares—Chamois Belts. Purple is the modish color this summer in Paris; especially is the purple hat in evidence. A confection of this color is, however, neither pretty nor becoming in warm weather.

A new bracelet made to hold one's car fare has been found as useful as advertisers claim. There is a small compartment in which two nickels may be slipped.

Popular fall shades already listed are orchids, browns, brandy, lilac, cherry and electric blue. The last is a revival of a color mentioned in the fashion notes of a decade ago.

Chamois belts that can be washed are new and serviceable articles.

Notable Medical Discovery

Of Special Value to Many Here in Chatham.

One of the most notable discoveries of our age, and one which undoubtedly appeals more than anything else to many people here in Chatham is the combination of stomach remedies in the Mi-o-na treatment. This prescription has worked wonders, and there is now no excuse for anyone suffering with indigestion or weak stomach. It acts specifically upon the muscles of the stomach and bowels, strengthening and stimulating them so that they readily take care of the food that is eaten. It also increases the flow of gastric juices, thus getting from the food the nourishment that is necessary for health and energy. The symptoms of indigestion are numerous, such as distress after eating, flatulence, heart-burn, sick headaches, dizziness and irritability. These are all dispelled by a few doses of Mi-o-na when the trouble is recent, but just as surely in long standing and chronic cases if the treatment is carried out for a reasonable length of time.

So positive are the good effects following the use of Mi-o-na that the remedy is sold by C. H. Gunn & Co. under an absolute guarantee to refund the money if it should fail to cure.

Fatal Accident in Camp. Peterboro, Oct. 22.—Word reached here yesterday that George Heffernan, aged 19, son of Patrick Heffernan, of the lumber camp, north of Turner's Lake Superior, and expired shortly after being taken to the hospital at Blind River. Heffernan left here last June.

This Walker Makes Good. Cincinnati, Oct. 22.—Dan O'Leary, a long distance walker, finished a 1,000 mile walk at Norwood Inn at 7 o'clock yesterday morning. He walked one mile each hour for 1,000 consecutive hours. He is nearly 65 years old, but has shown no signs of faltering.

Better Than Spanking

Spanking does not cure children of bad-wetting. There is a constitutional cause for this trouble. Mrs. M. Sumner, Box W, 4, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her to-day if your children trouble you in this way. Don't blame the child. The chances are it can't help it. The treatment also cures adults and aged people troubled with urine difficulties by day or night.

Hotelman Arrested. Hamilton, Oct. 22.—P. M. Barker, proprietor of the Plamboro Hotel, was arrested last evening, charged with aggravated assault. J. J. Agard was the complainant. His story is that the offence was committed in the hotel bar-room Saturday night, and he was held by the hotelman with a knife. He was cut on the head and on the arm, which was put up to protect his head.

ENGLISH SPAVIN LINIMENT removes all hard, soft or calloused lumps and blemishes from horses, blood spavin, curbs, splints, pigblone, swellings, thrifts, sprains, sore and swollen throats, coughs, etc. Save \$50 by use of one bottle. Warranted the most wonderful Blemish Cure ever known. Sold by C. H. Gunn & Co., and W. W. Turner.

Snow in Adirondacks. Malone, N. Y., Oct. 21.—A heavy snowstorm prevailed through the Adirondacks Saturday night, and the ground is still covered with two inches of snow in the woods.

Federal Member Injured. Montreal, Oct. 21.—Mr. Robert Bickerdike, M. P. for St. Lawrence, was thrown out of a street car on Saturday and severely injured, having his collar bone fractured.

A weak Stomach, causing dyspepsia, a weak Heart with palpitation, weak Stomach, nerves or weak Heart nerves. Strengthen those inside or controlling nerves with Dr. Shoop's Restorative and see how quickly these ailments disappear. Dr. Shoop, of Racine, Wis., will mail samples free. Write for them. A test will tell: Your health is certainly worth this simple trial.

Will Not Oust Cables. London, Oct. 21.—(C. A. P.)—Fred Ward, manager of the Commercial Cable Co., speaking to the Canadian Associated Press, said he had as yet not seriously considered the Marconi wireless as even a probable competitor with the Commercial and other cable line companies.

King and the Veteran. King Edward, as in previous years, has greatly pleased the people of Manitoba by his varying courtesies and little acts of kindness momentaneously performed. While motoring in the neighborhood of Marichead, it seems, His Majesty noticed an old man playing a barrel organ. His right arm was partly paralyzed and he wore a number of war medals. His Majesty stopped the car, and after speaking a few words to the mendicant, gave him some money and rode away. Later in the day, the King learned that the old man was the possessor of a number of war medals. He was in the field. His Majesty displayed much interest in him that the police made a search for the old warrior, and eventually brought him to the King's presence. His Majesty elicited from the organ-grinder that his name was Krantz and that he served in the war of 1866, and was severely wounded at the battle of Nachod. After conversing with him for some time, the King dismissed the old man with a handsome present.

TARS SAVE BATTLESHIP.

Danced on Quarter-Deck Until Vessel Slid Off Rock.

The battleship Commonwealth met with the second serious mishap of its short career recently by running aground in the Clyde. It was reported by the crew jumping in unison on the afterdeck.

The vessel, which has arrived at Devonport for repairs, was returning to Lamlash after carrying out target practice when it went ashore, owing, it is stated, to an exceptionally heavy spring tide leaving insufficient water for it to enter the harbor.

It is stated that the particular rock which the great battleship struck is not charted, but in any case the Lamlash channel is known to be a dangerous bit of navigation at low tide. Immediately the ship struck its engines were stopped and reversed with wonderful promptitude, but the quivering sensation of the hull prior to coming to a dead halt rendered it manifest that the ponderous vessel must have sustained considerable damage to its bilge.

When the engines had been running full speed astern for several minutes and it was found that the battleship did not stir, although the tide was flowing, the whole of its available complement was "fallen in" right aft on the quarter-deck and set jumping in unison.

The effect of twenty-five tons of humanity bouncing upon the extremity of the ship set it swaying, and about a quarter of an hour after the impact it glided off into deep water. It was soon found that it was leaking considerably amidships and collision masts were promptly applied.

Upon coming to an anchor divers were sent down and they found that the bottom plates on both sides of the ship, extending some distance towards the stern from amidships, were much indented.

The examination showed that the collision masts and pumps were sufficient to keep the leakage under for a considerable time, but that an extensive docking job was necessary to render the vessel seaworthy again.

ROMANCE OF A DIAMOND.

Gem of Great Price Brought Evil to Successive Owners. The romance of a diamond valued at from \$100,000 to \$150,000 is occupying the attention of the Indian courts. It was stolen in 1842 from Shah Suja, the amir of Afghanistan, and is said to have brought misfortune upon each of its successive owners.

It was stated that the present amir, hearing of its reappearance, claimed it, and that the Indian Government refused to consider the claim. The Government, however, is in no wise concerned with the disposal of the diamond, which, whatever its previous history, is known to have been for nearly a quarter of a century the property of an old Afghan chief, Amir Uddowah, who showed it wrapped in ancient cloth to various Europeans in India.

Amir Uddowah died, leaving, like most Afghan sirdars, a large family. Some of his relations are now in Kabul, others in Turkestan, others in India, and the settlement of the competing claims to the estate, including this intrinsically valuable and valuable diamond, which is one of the principal assets, has devolved upon the civil court of Rawal Pindi, which is unable to surrender the stone until the usual legal formalities are fulfilled—the consent of all the heirs, for example, being necessary before it could be given over to the amir's permanent agent in India, who, it is understood, has made some offer for it.

The 13 Superstition. It is usually stated that the superstition objection to sitting 13 at a table in Christian countries was based on the fact of the Last Supper, when Christ and his 12 disciples sat down to eat together, immediately before the Saviour was seized by his enemies. But, says The Housekeeper, in the Norse mythology, which is supposed to antedate the production of Christianity among the Northmen, we find the superstition referred to the fact that at a banquet of the gods, Loki, the spirit of mischief, intruded himself, making 13 at the table, wherefore there was a fight and a young hero, especially loved by all the gods, was killed.

Among the Turks the number is so disliked and feared that it is never even named; with the Aztecs, the aborigines of Mexico, it was believed to have magic power, and a like fancy has been found in other Indian tribes.

Among the ignorant blacks of the south the fear of this number in any connection is actually absurd, but whether they have borrowed this idea from their imperfect knowledge of Christianity or whether it is a survival of the Voodoo worship of their ancestors, it is impossible to say, for the superstition has a strong hold everywhere.

In Italy it is never used in making up the numbers of the favorite lotteries, and in Paris it is omitted in numbering the houses on the streets.

MAN ABANDONS FAMILY.

Tragic Tales From Brockville—Number of Fatal Accidents.

Brockville, Oct. 22.—A more cruel case of desertion was never brought to light than the one under investigation by the agent of the Children's Aid Society here, Abraham Mosher, a former resident of Athens and Gananoque, but who has been living in Brockville for three years, left his wife and two small children two weeks ago and went to the other side. His wife he left penniless with a baby two weeks old, and another child but eighteen months old. The home was without food or fuel, and, to save the excited husband from the poor woman, she is now seriously ill. The children were taken to the Shelter and the woman cared for.

The funeral of Otto Fasoldt, aged 23, of Rensselaer, occurred yesterday. While walking in the woods with a companion, the trigger of the latter's gun caught in a twig and the gun was discharged. The shot entered Fasoldt's left leg, above the knee, and death resulted in a few hours.

A little girl named Warren was drowned yesterday morning in the village Westport, while crossing a dam, into which she accidentally fell. The Spears' sawmill, in the northern part of Canton, was burned to the ground, together with the lumber yard adjoining. The loss on the mill is from \$40,000 to \$50,000, with \$15,000 insurance. The amount of lumber destroyed has not yet been estimated, and, until it is, the additional loss cannot be stated. About 25 men are thrown out of employment.

John Earl received fatal injuries, while working at Burnham's camp, on the Northern Adirondack Railway. He had begun the day's work and was engaged in felling the first tree, which split, striking the unfortunate man in the stomach and pinning him to the ground. During the half-hour it required his fellow workmen to chop down the tree and release him, he implored them to put an end to his misery. The instant the tree was removed he expired.

"THE CALL OF THE WILD." There is not another place on the continent of America to compare with the "Highlands of Ontario" for deer and moose hunting. This part of Canada still forms a portion of that small remnant of the world's pristine wilderness—not yet the abode of man and his mighty civilization. Northern Ontario with its richest sources is regarded as the richest deer and moose country in the world. Moose season in the Moose country opens October 16th for 31 days. Deer season in the Deer country opens November 1st for 15 days. These sections of Ontario are the places to hunt, and valuable information as to how and when to get there and all particulars can be had free by addressing J. D. McDonald, D. P. A., Grand Trunk Railway System, Union Station, Toronto, or W. E. Rispin, C. P. & T. A., or J. C. Pritchard, S. A., Chatham.

General Booth's Illness. Chicago, Oct. 22.—The condition of General William Booth of the Salvation Army remained unchanged yesterday. A consultation of several physicians was held, and Dr. Oscar Cleff announced that unless unexpected complications arose General Booth would be able to continue his trip in about a week. On account of his advanced age, precautions were taken to prevent the cold, from which he had been suffering, from turning into pneumonia. The general remained in bed all day at the home of Commissioner G. A. Kilbey, who is in command of the western territory of the Army.
