Mr. Wilkie argued that nothing had been proved against Mr. Reid.

Mr. Curry, for Mulloy and O'Gorman, confined himself to arguing that if there was a committal it should be made to a court in the County of Middlesex.

J. M. Godfrey, for Wylie, contended that no evidence had been submitted connecting his client with the specific charge investigated.

Paris, Nov. 27.—Pierre Merlou, who was Minister of Finance in the Rouvier Cabinet and who was appointed French Minister to Peru last September, was shot on Boulevard des Italiens last night by a woman named Allemagne. The woman fired four shots from her revolver at M. Merlou. Two of the bullets struck him in the fleshy part of one of his legs, but the wounds are not dangerous.

The woman was arrested and declared her act was one of vengeance. The police believe Allemagne is the same woman who attempted M. Merlou's life several vears ago and who created a scandal in the Chamber of Deputies while he was serving as Finance Minister.

Household Hints For Women

cloth spoiled by a professional laundress who assured me that she herself would remove the chocolate spot from my cloth before consigning it to the laundry. I resolved to do a little experimenting in that line myself. The stain which she is supposed to have removed is still in the cloth and will be probably until the end of its existence. It grows a little fainter by repeated washings, but by the time the spot disappears entirely, the tablecloth will most likely go with it.

I had removed ugly vaseline stains from sheets and quilloe cases with gasolene or naptha, much as is used for cleaning kid gloves and wearing apparel, so when a fresh chocolate spot appeared upon another tablecloth I applied the gasolene and it worked like a charm. I saturated the spot in gasolene and rubbed it well with another cloth, this, of course, before sending it to the home laundry where no chemicals are used. It came out spotless and I find that gasolene is especially efficacious in removing any greasy substance, spot or stain upon (able and bed linen and it is very quickly and easily applied. The more quickly it is applied to the fresh stain the more easily the stain will be removed. — Mrs. Earl B. Millar, California.

Silk dresses should mever be brushed, but should be carefully rubbed with an old place of velvet kept specially for that purpose.

Toronto, Nov. 27.—Col. Denison didn't make much fuss yesterday in sending for trial Messrs. Reid, O'Gorman, Mulloy and Wylie. He said:

The result of all the evidence I have heard leads me to this conclusion, that there was a regular organized conspiracy, which had its centre in Toronto. It began here, and was for the purpose of affecting elections all over the country. It was not for one election alone, but for all elections. It was not necessary that all the parties to this conspiracy sould know each other, it was not likely that they would; but the fact that they were connected with the organization makes them all conspirators. I think such a case should be tried in one municipality, and as it was begun in Toronto it should continue here. There is no reason for it being sent to any other municipality." He thought Reid had been connected, it having been shown that some of the money from Ottawa found its way into his hands.

Mr. Reid gave \$500 personal bail and the others were allowed to go on \$2,000 each.

Mr. Wilkie argued that nothing had When grease is spilled on the kitchen floor, pour cold water upon it at once. This will harden it and prevent its soaking into the boards. The tender leaves and small ends of the stalks of celery should never be thrown away. If dried they are found excellent for flavoring soups.

To powder parsley, the bunch is dipped quickly into boiling water to make it a brilliant green, then put it into a hot oven for a few minutes to dry thoroughly. After this it may be broken into tiny flakes.

TO EARN MONEY.

Flour thrown upon burning oil will instantly extinguish it, while water only spareads the flame.

A dying fire may often be coaxed into life by iscattering over the embers a tablespoconful of granulated sugar.

If soot should fall on the carpet, cover with salt before attempting to sweep it up. It will then be removed easily and cleanly.

USIES OF SODA.

Sola is one of the least expensive and most indispensable articles in kitch a use. Acid fruit, such as geosebevries, rhubarb, and plums, require least sugar at a little sodalation of the least expensive is needed to be taken. I know in one case where, in a very short time, a woman was able to raise her price to twenty-five cents uper hour, with much of her work, in the case of dying and mending, done in her work of the least of dying and mending, done in her work of the case of dying and mending, done in her work of the least expensive and the sugar. For a merely "handy" person, or consecutives, rhubarb, and plums, reuire less sugar of a little soda—

Along with dyspepsia comes nervoussess and general ill-heaith. Why? Because a disordered stomach does not permit the food to be properly digested, and its products assumilated by the system. The blood as assigned with poisons which come from the disordered digestion, and in turn the nerves are not fed on good, red blood, and we see symptoms of nervousness, sleeplessness and general breakdown. It is not head work, nor over physical exertion that does it, but poor stomach work. With poor, thin blood the body is not protected against the attact of germs of grip, bronchitis and consumption. Fortify the body at once with Dr. Pierce's Golden Medical Discovery—a rare combination of native medicinal roots without a particle of alcohol or dangerous habit-forming drugs,

A little book of extracts, from prominent medical authorities extolling every ingredient contained in Dr. Pierce's Golden Medical Discovery will be mailed free to any address on request by postal card or letter. Address Dr. R. V. Pierce, Buffalo, N. V.

Many years of active practice convinced Dr. Pierce of the value of many native roots as medicinal agents and he went to great expense, both in time and in money, to perfect his own peculiar processes for rendering them both efficient and safe for tonic, alterative and rebuilding agents.

The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of its ingredients. The publication of the names of the ingredients on the wrapper of every bottle sold, gives full assurance of its non-alcoholic character and removes all objection to the use of an unknown or searet remedy. It is not a patent medicine nor a secret one either, This fact puts it in a class att by itself, bearing as it does upon every bottle wrapper The Badge of Honesty, in the full list of its ingredients.
