Apples Trees and the British Preference

We have bought the total output for the Annapolis Valley of

Brson Brothers' Nurseries

of Ontario, which we are selling at moderate prices. This stock has been giving great satisfaction the past few years.

The British Preference was defeated by six votes in the British House of Commons, 272 votes for, 278 votes against. Best opinions are that this preference will be granted within a few years, and growers having trees then coming in bearing will be in a position to take advantage of same.

We strongly recommend growers planting the Winesap for a well colored, long-keeping, dessert apple, highly appreciated on the British markets.

WORLD WIDE DISARMAMENT CONFERENCE

GENEVA, Sept. 28.—The Disarmament Commission of the League of Nations Assembly last night adopted the Benes Report on the draft protocol of arbitration and security.

The Commission decided that the world wide disarmament conference held June 15, 1925, if by May 1, a majority of the States represented in the League Council and ten others shall have ratified the protocol.

No matter how wonderful you are, it is better to keep it to yourself, and let other people have the joy of making the discovery.
