"THE HOME OF THE WILLIS PIANO"

DOES YOUR POULTRY PAY, OR DOES IT COST YOU MONEY?

New Booklet Issued by Bank of Montreal, Tells How Loss May be Converted into Profit.

"Take the poultry money out of a farm community and the country town merchants would wonder what had happened to their business."

This is one of the many striking statements in a booklet, "Poultry for the Farm and Home," just issued by the Bank of Montreal for free distribution from its various branches.

The facts put forward in this booklet, illustrated by scores of actual photographs, indicate that in many cases the same amount of effort on the part of those who keep poultry, could be made to produce much more money than is now being produced. Also by actual demonstration, the booklet shows that a flock of poultry may be producing little beyond the cost of upkeep or be an actual loss.

The booklet brings to mind the many welcome dollars which farmers' wives earn for household expenses and little family luxuries by means of their poultry. It gives information as to the enormous amount of investigation into successful poultry methods by poultry experts and Experimental Farms all over this continent—information which has shown beyond all doubt that poultry keeping can be made an important and profitable branch of farm business, even when carried out on a modest scale.

For the guidance of farmers and their wives, the finding of these experts has been put into plain language in this book, together with photographs of every phase of the subject, showing what is right and what is wrong.

It is Profit and Profit only that Counts

A farm census in the United States recently showed that in a single year chickens and eggs sold by the farmers there brought \$1,048,000,000, or 39 per cent of the total value of all livestock products. This illustrates what is being done by the constantly improving methods of poultry-keeping. An experiment at the Experimental Farm at Guelph, Ont., so the booklet states, showed that one method of feeding poultry produced a handsome profit, while another method produced a loss. It will be seen, therefore, how important it is for poultry keepers to know exactly what they are doing, and why.

After all, it is profit and profit only that counts. This booklet tells just what to do to produce profit from poultry—the breeds to keep, the way to house them, the method of culling, the feed to give, the manner of preventing diseases and destroying parasites, how to test eggs and market them—in fact everything essential that a poultrykeeper should know, put in language and pictures that anybody can understand.

The booklet is of the same practical character as the one issued by the Bank last year on "The Cow, the Mother of Prosperity," many thousands of which were distributed in all parts of Canada. The Bank's interest in the general welfare of the farming community is now further shown by the arrangement it has made for the printing of a special Canadian edition of this poultry booklet, which was originally prepared by the Agricultural Extension Department of the International Harvester Company. Copies may be obtained free of charge from the local branch of the Bank of Montreal.

THE LIQUOR SELLERS.

(Edmundston Observer)

We continue to receive from our readers and those interested in Edmundston reports of the unlawful selling of beer and strong drink. Since the vendors have been closed the situation has been worse than before. We wonder what our inspectors are doing, for they surely are not onto their job. If Messrs. Pickard, Diagle, and Michaud are not blind or impotent, then they can secure evidence.

If the above named gentlemen want to get proof that the law is being broken, we would suggest that they visit a certain pool room in town, and some places on Victoria street.

We cannot believe that the Government looks with favor on the selling of intoxicants in these places.

We would also draw the inspectors' attention to the reports coming to this office that beer is being brought in from Quebec direct. The Government claims to be able to tell when beer is purchased from the New Brunswick Liquor Commission, they now have a chance to prove their claim, we believe. Get busy, gentlemen and get some of the stuff brought in here direct.

We are astounded at some of the names of people who are supposed to be in this business. We shall not hesitate to expose these names when we get full and complete particulars. The Observer will give the news to the people of Edmundston without fear or favour, "let the chips fall where they will."
