" This Company added about £90,000 to its permanent capital, for the increased protection of its Insurers. This step disinctly shows that the Compasy has always acted upon the principle enunciated by one Half Credit Policies granted on terms unusu- of the directors at the last Annual Meeting ally favourable to the assured, the amount of of the proprietors-that the interests of the assured have a paramcunt claim on the directors-a claim superior even to that of the shareholders themselves.

"From that moment, as might be expected, the Company attained the bighest consideration throughout the country, and has retained it ever since. The result i shown in the unexampled fact that its Firs Revenue alone rose in about five years from little more than £30,000 to about £130,000!

"A further cause of this rapid growth lies somewhat more below the surface, but is yet of importance. From inquiry we learn that no fire office possessing half the above revenue annually deposits its accounts with the Registrar-general,

"The resources and balance-sheet of this great Company are, on the contrary, annually registered, and unmistakeable evidence is thus given periodically of its capacity to meet its engagements."-Morning Herald, December 26, 1855.

" indeed, the bonus of the ' Royal' may be pronounced to be larger than any ye declared by the mass of the English office Here is an office which yields a fairly sara est and wholesome reversionary bonus of Et per centum in its Life Branch, and it regard to fire operations, can make this very enviable boast, that it has exceeded the Fire business of all but two of the London Fire offices - viz. ; the receipt of uearly £130.000 per year in Fire premiums alone-some of which ancient office; have been in existence for a century! Equally successful and singular in both departments. Indeed, the Life Depart ment may be said to present results equally as worthy of mention."- Morning Chroniel November 28, 1855.
