NOTICE

NOTICE is hereby given that the forty-second annual meeting of the shareholders of the Lincoln Paper Mills Company, Limited, will be held at the office of the Company, Merriton, on

Wednesday, Feb. 4, 1920

at two o'clock p.m. for the following purposes: The election of Directors, submitting the Annual Report, and for any other business expedient or necessary touching the affairs of the company.

P. MITCHELL, Secretary. J21-31

Pyorrhea is one of the most dreaded diseases of the teeth, and unless it is given careful treatment in the early stages it causes very serious disorders of the entire body.

We may safely assume that nine out of ten people who have defective teeth have Pyorrhea in various degrees of development.

Do not wait until this disease infects the gums, loosens the teeth and spreads its poison throughout the system.

We are successfully treating many stubborn cases and are accomplishing really wonderful results.

We urge you to accept our offer of free consultation and thus assure yourself that if this serious ailment is present that you will give it prompt treatment.

Fillings 50c up. Crowns and Bridgework, \$5 per tooth. Very good Plates, \$8.

Council Asks Firemen to Disband Union

(Continued from Page 7)

the city's financial shape is rather strained just now.

Ald. Avery felt that St. Catharines should pay as much as other places of its size.

Ald. McLean couldn't see the purpose of the firemen organizing if it is only for social reasons.

Ald. Avery replied that there was nothing more in the firemen joining a union than there is in a man joining a lodge.

Ald. McLean pointed out that this is a labor union. That is not sufficiently explained.

Ald. Veale Criticizes

Ald. Veale criticized the chairman of the Fire and Light Committee. They have a peculiar state of affairs, which the chairman of the committee spoken of as the father of this union and the instigator of this movement for increased wages.

Ald. Avery warmly protested against Ald. Veale's assertions, and intimated that whoever said so was a prevaricator. He knew nothing of it till the union was formed and the request made for more wages.

Mayor Lovelace said he was afraid they were a little too fearsome as regards forming unions. If there was any danger of the firemen being called out on a sympathetic strike, then he might feel apprehensive. But there was no danger of that. The firemen cannot strike, but they can easily resign if they wish.

Ald. McLean still couldn't see why the firemen came here backed up by the firemen's unions, asking for increased wages. He read a despatch from Montreal saying "The firemen will not go out on strike." The same thing might apply here.

Ald. Avery wanted to ask Ald. McLean if this was any different than the Manufacturers' Association.

Ald. McLean said it was a different matter. Mayor Lovelace said it was really a case of the enterprising reporters in connection with the Montreal despatch. In order to get an item the reporter had gone and asked the firemen if they intended to exist. The Mayor feared they were afraid of something which does not exist.

Ald. Graves, too, couldn't understand the object of the firemen's local union if it was merely social, if it was organized by men connected with other unions and is affiliated with other unions.

Ald. Dakers advised care being taken. If this union is to be recognized by the City Council it may mean only union men can form the brigade. It creates jealousy. He didn't know if all the firemen had joined this union.

A fireman present said every man on the brigade was in the union except the Chief and Assistant Chief. Were They Coerced?

Ald. Veale said he believed some of the firemen were coerced into joining.

Ald. Dakers said that was one of the points he too wished to make. He knew of five men who had not joined.

Ald. Beattie wanted the firemen to read their constitution, which was done.

Ald. Riffer said the official seal of the Fire Fighters' Union was on the communication read to last year's council. It was signed by Walter T. Andrews, secretary-treasurer, Local No. 236 Fire Fighters' Association.

The clerk got the resolution and the seal was on it as Ald. Riffer stated.

Organizations are required such application if already formed to be at once withdrawn.

Ald. Dakers asked the deputation to say whether the Firemen's Union is affiliated with the Trades and Labor Council.

One of the firemen's delegates replied that their union was affiliated with the Trades and Labor Council. Ald. Dakers pointed out that a fireman cannot be classed with a regular union man because there is no trade to learn. He feared if the Council recognizes this union the city will no

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with coated tongue, foul breath or a dull headache; or if your meals sour and ferment, you have a real surprise awaiting you.

To-morrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleaning, sweetening and purifying the entire alimentary canal.

Those subject to headaches, back-aches, bilious attacks, constipation or stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside bath.

Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.

longer choose the firemen and they will choose themselves.

The charter of the Fire Fighters' Union was procured and read by Ald. Avery. A clause said it was inadvisable to strike. It was affiliated with the American Federation of Labor.

Ald. Beattie asked if a man were replaced what action would his fellow union firemen take?

Ald. Dakers hoped the firemen would meet the committee fairly.

To Ald. Graves several of the delegation said the Independents' Labor party had nothing to do with forming the union. They said not a man was dragged into the union. They all came in of their own free will.

Ald. Beattie was told the fire chief can take in a man who is not a union man, and he can discharge a man if he is not efficient.

The committee rose and Ald. Riffer and Dakers moved that the Veale resolution be laid on the table for future consideration.

Ald. McLean pleaded for disposal of the question that night.

Ald. Dakers didn't like the thing forced on the Council.

The Riffer-Dakers resolution was withdrawn. Ald. Dakers said he wished the question fought out between the firemen and the committee. If forced to vote he would favor the Veale resolution.

Ald. Graves said the same. He thought the firemen were open to reason. He wanted to see the thing over.

Asked about it, one of the delegates said the firemen intended to stick to the union. Another fireman assured the council that there was no danger of a strike. Others have organized. Why not the firemen?

When the yeas and nays were called for Ald. Avery and Murphy alone voted nay.

Industrial Assoc. Hon. Ald. Riffer and Veale were named as the city's representatives on the Association of the Canal Power Zone.

City Engineer, Near was named as a delegate to the convention of the American Roadbuilders' Association, at Louisville, Ky., in February. The expenses will be \$75 to \$80.

THE

ESTABLISHED 1859

On to Ottawa Slogan of Big Meeting

Halbert, M. P., Meeting at Family Lovelace Makes Meeting Was Sym

that flushed with their triumph at St. Catharines, Ontario, the United Farmers' Association will press on with their advance with eye on control of the Federal Government at Ottawa, was intimated here last night by Halbert, M. P. for North Ontario in an address before a large meeting in Griffin's Family Theatre, the auspices of the United Farmers' Association.

Halbert also took pains to point out that what he sells is not, what cannot be said for boot and cloth manufacturers. You don't find any shoddy in button eggs, or anything else the farmer sells you, do you, now?" he asked. "Take my shoes, for instance—are they all leather? And my clothes. I have a suit of clothes at home my tailor tells me that he made for ten times what he made a few years ago. No, what the farmer sells is all wool and a yard wide, and I can tell you no farmer is getting rich in spite of the tariff.

Halbert said the Farmers' Government was criticized, but it only asked for a chance, for it is doing its best. He asked if the old time parties ever did everything.

The farmer has come into his own in Ontario and his aim is to take over the Government at Ottawa. The aim of the United Farmers is to serve the interests of the common people, bringing living prices down to what they should be.

Lowering of tariffs and cutting off protection to the big manufacturers do not need it, and co-operation in bringing this about. He spoke of the cooperative stores, packing houses, which the United Farmers are establishing, which will do much to prevent the middlemen's profit and to bring commodities on a level where they should be as regards price.

Halbert said the United Farmers are working for a united Canada free of sectionalism. It had been said that the farmers would never stick together, that they could be depended on to be the tool of the politicians, but the farmers of this province have shown that they are not in the case. They have shown in the most unmistakable manner, that Ottawa will find it out soon. Those fellows down there now are not. They don't know what to do. They have four members now in the House. Halbert referred to the program, but when the program came on you'll find how many members we will have.

Speaking of some of the acts of the Union Government, which he said should not be blamed by the common people because they had put it there, Halbert referred to the program to give General Currie a grant of \$200,000.

"I wouldn't give him a dollar," Halbert said. "If I had that money to give I would give it to some poor fellow who had lost a leg in the war, not to a man who was well-to-do."

Apparently Mr. Halbert did not have much stock in the patriotic game, as he remarked that Dr. J. J. Halbert said the last refuge of a scoundrel is patriotism.
