

LOCAL NEWS.

ILL.—Dr. Atkinson, ex-M. P., is lying ill at his home in Bristol, Carleton county.

SHORT FIRE.—On Wednesday the firemen had a short practice spin. They were called out on account of a slight fire in Alex. Thompson's paint shop, Brunswick street.

THANKSGIVING SUPPER.—The ladies of the Methodist church held a very successful supper at the church on Thursday evening. There was a large attendance considering the weather.

BELIEF TOWN.—Hale & Murchie's mill will continue sawing till the new year. Mr. Morrison will run all winter; thus the people of this locality will have a good winter's work.

GENERALLY OBSERVED.—Thanksgiving day was very generally observed here. There were services at some of the churches, and sociables at several places during the evening. Most of the stores were closed.

INCREASING THE FUND.—Several of the Williamsburg youths were up before a local magistrate and had to increase the county fund by from eight to twelve dollars each, for their doings of Halloween.

INAUGURAL ADDRESS.—Prof. Davidson will deliver an inaugural address at the college on Thursday evening next, subject: "The relations of politics to political economy." All are cordially invited to attend.

THE C. E. R.—John May has been over the route of the C. E. R., and reports all the bridges in first-class shape. The cars, being newly painted, and the road and its equipment is in excellent condition.

THE DRAINAGE.—It is rumored that the dredges now working at the terminus above will be brought here to work at the wharves about the first of December. There will be more ice cutting than mud digging at that time.

IN KENT.—Hon. O. J. LeBlanc was chosen as the liberal candidate for Kent at the approaching federal election. The convention which met on Monday was well organized and felt very hopeful as to Mr. LeBlanc's success.

AMICABLY ADJUSTED.—The trouble between the publisher of Progress and the printers will, it is thought, come to an amicable adjustment and that enterprising journal continue to find its way to its thousands of readers.

AT CHATHAM.—Rev. Bishop Kingston went to Chatham on Tuesday to attend a meeting of the diocese at that place. There was the annual choral union service in St. Mary's chapel on Thursday. A sermon was preached by Rev. Canon Roberts.

HE OVERTAKES.—Private Anderson, a deserter from Ontario, who joined the school here, has been sentenced to forty-five days jail but objects to go. He is still at the guard house and it appears the school is in a quandary as to what to do with him.

FOOTBALL.—The U. N. B. football team had more than they had expected at Sackville, where the ball was kept all the time in the rear neighborhood of their goal, and the result was seventeen points for Mount Allison and a goose egg for our boys.

OVER PRODUCTION.—The pulp mill and extract works at Miramichi are closed down on account of an overstocked market. However, there will be plenty of work for the men engaged at these works, as a greater amount of spruce logs will be cut this winter than for several years' past.

FOR QUEBEC.—J. DeVeber Neales has allowed himself to be selected as a sacrifice in Quebec county. He will oppose the Hon. A. G. Blair. It is not as yet announced what he has demanded but he has always been a supporter of the government and a close holder. He is to be slain on the 23d.

THE BRIDGES.—Beside the Woodstock bridge, work is going on rapidly at the completion, the bridge there over the Pettaquamscutt being completed. Work is also being done at Killam's mills and Elgin corner, Albert county. The Blackville bridge, Northumberland county, is making good progress.

AT BLACKVILLE.—Mr. Gibson's Blackville mill has ceased sawing for the season and large crews are being sent to the Blackville new river lumber woods. It is expected that next season will be a brisk one. The grist mill there in charge of Harry Steele of Gibson, a good miller and very obliging.

SPASMIC.—It is wonderful to witness the spasmodic efforts made by some of our local newspapers to declare themselves liberal though run by conservative money, printing and influence and trucking to the demands of that party. They were liberal once but it would take a very fine microscope to find anything liberal about them at present.

CONSERVATIVE NUMBER.—The result of Monday night's conservative convention at St. John was the appointment of George Robertson as standard bearer. George McLeod was first chosen, but as this did not appear to suit the party wisely, George Robertson was then put up. The meeting showed that the party in St. John is not in a very cohesive state.

THREE YEARS MORE.—The bass fishing has, as all are aware, been prohibited during the past three years, but to add to the agony three years more are set apart as a time when no bass may be caught. Along the Miramichi this is felt to be an injustice and people are loud in their complaints. The minister of marine and fisheries comes in for many choice epithets.

INSPECTION.—On Monday afternoon General Herbert, commander-in-chief of the Canadian forces, inspected the Infantry school and men here. He pronounced himself very much pleased with the condition of the barracks and with the military precision and skill of the men. One of the rooms was severely condemned and there will likely be a change made.

FOUND GUILTY.—The result of the trial of Sir Sidney Weldon, C. B. Weldon and Dr. Randall, in St. John, was a disagreement of the jury in the case of the former, while C. B. Weldon and the doctor were found guilty. The jury stood eight to four in favor of convicting the reverend gentleman and he has been held awaiting another charge. It is a sad blow to the friends of the convicted men as their acquittal was expected.

A WORD TO THE WISE.—A certain sergeant of the Infantry force in this city has made himself rather conspicuous during the late election and at several subsequent opposition gatherings. It would appear that he is going outside his place, having no vote should not interfere with affairs which should concern him. It is his duty to prevent strife not to take a part in what he knows may create disorder. It is not necessary to name him, but his conduct will have to change or there will be a report that will not be very pleasing to him. A word to the wise is sufficient.

MORE BOMBS.—Circulars were in character that those used in York are now being sent to Queen's county in the interests of the opposition. Is it not a creditable state of affairs that men should try to get into power by defaming their neighbors and by incurring themselves in villainous character. A man who stirs up religious strife will steal or burn a building should he think it necessary, and the people of the province should frown down such scoundrels. We see the beginning but cannot say what the end may be. One thing is plain: Freedom is not to please a place to live in, but to present and religious strife to the increase.

A POLITICAL ATTACK.

The Health of the City Never in a Better Condition.

It would appear that some of our contemporaries are making a great mistake in spreading abroad to the world the fact, as they express it, of the great prevalence of typhoid fever and other contagious diseases in this city at the present time. In the first place the city has been almost free from disease the past summer—a majority of the deaths occurring being that of aged people. Again, the city for the hottest months, ranked the lowest in Canada respecting deaths—some months only six deaths occurring in a population of about seven thousand, or one in an thousand.

Among the reasons of these journal know just the reason why there is such an outcry respecting fever; they know that it is only the foundation for harassing one whom they strike in no other way. In there a member of the council board who does not know that there is a greater menace to health in the river than there is in the impurity of the water? Why not attack the greater evil? If logs do lie in the neighborhood of the waterworks, are they not as clean as they can be? Have they not floated in the river for nearly a year? Can it be shown that they could contaminate the water? Remember they are found and clean.

If there is a scheme on foot to harass Mr. Estey and others who may find it necessary to the logs along the shore, come out boldly and state just what is the reason for the attack. Don't say the city is in a desperate condition, for all know that such is not a fact. Certain of these journals have helped break up manufacturing enterprises in this city before, surely they will not attempt the same with Mr. Estey. What is their record in respect to the late wolen mill? Forbid the use of water for the sudden interest taken by these journals in any threatened condition of the public health, the Herald would support them; but an article by them on Mr. Estey, from purely political motives, may affect him in the least, but will give would be visitors a very bad opinion of the city. Let us have something respecting the sewers—something practical, not a political attack.

Campaign Echoes.

A world of gentlemen was discussing fluently at a certain hotel, respecting the brilliancy and honesty of one of the late elected members of York. His harangue had reached a very interesting point when a lady teacher, who had listened patiently, interrupted by: "It is no use to tell anything about him; he robbed my father of eight hundred dollars." It is needless to say that the w. h. g. collapsed. Speaking at an out of town poll respecting some of the prominent supporters of Mr. Pitts, the name of a certain Fredericton worthy, prominent in temperance and other social organizations, was mentioned. "He said a bystander, was run out of our house by my mother with the tongs; he is one of the greatest scoundrels ever in this village." Another said: "When I asked him if such was his name, he denied it. A man that will deny his name is not going to nominate a man to represent me."

The International.

The feeling here respecting the proposed transfer of the I. C. Railway to the C. P. R. is about evenly divided. If the C. P. R. will guarantee to run the road with no increase in rates—thus taking a heavy burden of taxes off the people—the change will meet with the favor of Fredericton. If however, it will be the means of increasing the rates and crushing out the C. E. R., it will prove a disaster to the people of York and Northumberland. It must be said however, that a majority in the counties mentioned are in favor of the road remaining as it is; and they say that they have as much right to low tolls as the people of the upper provinces have to canal and large public works that they are taxed for, and from which they derive no benefit. It is believed though that the deal is made.

Scott Act War.

Inspector Menzies, of Chatham. Scott act inspector, received a very bad blow on the face from a flat iron in the hands of Annie Conway at Chatham on Thursday. It appears that he and constable Hill went to Conway's to look for liquor. He found the street door of the bar fastened and a guard on hand. He broke the door in and it was again closed, but a plank prevented its complete closing. James Conway stood at the bar with an axe threatening slaughter. Bottles and other missiles were freely exchanged. The constable was scalded by hot water thrown by one of the women. The inspector charged through the breach, club in hand, but was met by the flat iron which smashed his nose and cheek. War is now declared.

Pitts' Candidate.

Respecting the nomination of J. DeVeber Neales the Telegraph Friday says: "It is understood that the opposition party in Queens discouraged the putting up of any candidate. George F. Baird was present and worked the convention along these lines and says, to-night, that Mr. Baird's election is assured no matter what. Pitts and some of his gang were there and they practically nominated Neales. Mr. Baird says Neales' nomination, under the circumstances will make it impossible for the opposition to take him up as it is practically an Orange nomination and the opposition could not commit themselves to that. Our advice to-night from Gagetown are that the better class of oppositionists are entirely opposed to Neales' political reputation."

Representation.

A project is on foot to reduce the representation at the city council board, allowing only one alderman from each ward, and each candidate to be elected by a city instead of a ward vote. It is believed that this will expedite matters, will lessen friction, and may be more in the interests of the city. Instead of any practical work, much time is spent with trivial matters, while the burden of taxation keeps increasing without any limit. The council may make it impossible for the opposition to take him up as it is practically an Orange nomination and the opposition could not commit themselves to that. Our advice to-night from Gagetown are that the better class of oppositionists are entirely opposed to Neales' political reputation."

Douglasstown Brigade.

The Miramichi Advance says: The contract for the sub-structure of the proposed iron bridge at Douglasstown, tenders for which were advertised for in the Advance, has been awarded to Mr. Lawrence Doyle. The contract price is understood to be about \$2,400 for the stone abutments. The job will be a permanent one. The government treats Douglasstown pretty well, considering that its elections are so largely influenced by specious canvases to vote plumpers in the opposition interest. They ought to get tired of being so often induced to oppose their best friends.

THAT ROBBERY.—A young man from Miramichi, going to the west, was robbed here of \$50 while intoxicated, about a fortnight since, a notice of which appeared in a former issue. There has been an attempt to show that the robbery was committed in one of the hotels. Such is not the case, as the young man was found on the street sleeping, and when found by his friends the money was gone. He was taken to the hotel and the case given to the police, with no clue as yet.

APPOINTMENTS.—In the county of Northumberland the following appointments have been made: Joseph Willison, James Syme and George Leggie to be justices of the peace; Maurice O'Donnell to be alms house commissioner for the parish of Ludlow, in room of John Campbell, deceased; Roman Sney to be labor act commissioner in room of Vital Allen.

SILVER WEDDING.

A Fingerpost in Married Life Royally Celebrated.

On Tuesday evening a large gathering of the Stanley people met at Harry Turnbull's to celebrate his silver wedding. He had just got his new hotel finished and put in excellent shape, so beside the wedding the affair took also the shape of a house warming. It was an enjoyable time.

Among the guests were: Capt. Howe, Miss S. Howe, J. E. Simon and wife, Jas. Howe, Mr. and Mrs. Jos. Thoburn, John A. Humble, Miss E. Evans, Mrs. Gill Pringle, Mr. and Mrs. R. Kelley, D. Kelly, Mr. and Mrs. E. Ashford, Mr. and Mrs. McNaughton, T. Currie and wife, Harry and Miss Crotty, David Douglas and son, M. McKinnon and daughter, C. R. Merrill and wife, Geo. and Miss Annie McMinamin, Stanley Douglas, Mr. and Mrs. Robert Brewer, T. Douglas and wife.

The wedding gifts were very beautiful and included: silver pickle dish, Alex. Forbes; fruit dish, Albert Sutherland; dressing case, Miss E. M. Sanson, Mary Crotty, Annie Hurley, Meares, C. McLeod, Thos. Buchanan; photo album, Mr. and Mrs. R. Brewer, John and James White, H. Crotty, James Crotty; water pitcher, D. Douglas, D. Douglas and wife; card receiver, Miss Mary and Ethel Sanson; Mr. and Mrs. John Sanson; dozen Rogers knives, Frank Strickland, M. A. Tweedale, city; china cup and saucer, Miss Kitty Eiden, Stanley Douglas; cross stand, Mr. and Mrs. J. B. Grievie, city; patent rocker, easy chair, dinner set, dozen cups and saucers, hanging hall lamp, large hall lamp, Stanley Douglas and friends; tea set, Mr. and Mrs. A. Douglas, Dr. and Mrs. Moore, Charles Patchell, H. Malone; toilet stand, H. Douglas; half dozen cane seat chairs, Malcolm McKinnon and sons. Space forbids the naming of many others attesting the esteem of friends.

Prof. Sam. Weary and Sanford Bartlett provided excellent music while the tables were under the supervision of Mrs. Logan who all know she has ever existed Stanley in fair time is a host in herself. The hotel is large, painted white, and occupies the centre of the business portion of the village. The dining room runs into the length of the main building and part of the ell. The floors are hardwood and all the inside is finely finished. There is a large cellar and good supply of water. A veranda runs round the building with a balcony making a fine seat from which to get a view of the Nashwaak river. The hotel is to be called the River view house. The cost is in the vicinity of \$50,000. There are good out-buildings and large stables than most of the active business of the place. The Herald wishes in congratulation to Mr. and Mrs. Turnbull on this happy celebration of their silver wedding.

WHY HE SHOULD GO.

He does well to Move to the Commercial Metropolis.

The Miramichi Advance, one of the lively journals of the east side contains the following: "Hon. A. G. Blair, who has sold his residence in Fredericton, is to remove with his family to St. John. This is a loss to the city, its most prominent citizen and St. John will be honored in securing as a resident the leading and most able public man of the maritime provinces. Blair has acted bravely in deciding to leave York county, but we think he has done just what he should do. No man could do more for both York county and the city of Fredericton. Blair has done in the last ten years, during which he has been leader of the government of the province. York, however, has at the instigation of a class of selfish persons, said it prefers such people rather than men of Mr. Blair's calibre and efficiency to represent it. Why, then, should Mr. Blair waste his life in the interests of such a community? The province, as a whole, appreciates and honors him, and he does well to remove to its commercial metropolis, where there is a large field for work in his profession and a social and business environment much more congenial to his tastes than that which he leaves. A constituency as treacherous, fanatical and ungrateful as York has proved itself to be in the case of Mr. Blair, deserves to be left to the charge of its own misdeeds, and its declared its preference for."

Marysville News.

The residents of the upper ward, west side, are having an aqueduct laid from Mr. McConaghy's to Sandford Pond's, just above the F. C. B. church. The foundation of the Episcopal church is laid, just below Geo. Hanson's, on the eastern side of main road. Much pleasure is expressed here at the gratifying reports respecting the recovery of Miss Sadie Thibault. The "new mill," so called, is being thoroughly rebuilt, especially the under works, under the supervision of Richard Staples. On Sunday evening thirteen candidates were joined to the Methodist church under the labors of the rev. Mr. Lodge. Rev. Mr. Parsons is carrying on a series of very interesting special services in the F. C. Baptist church. A deal is in contemplation whereby Thomas Wheeler, the old time bus driver, will sell out his stock and wagons to a company composed of Morrison, Waterman, Pugh and McConaghy. John McConnell's horse took a trot from the barn to Fredericton on Monday without waiting for a driver. He made the road in about the quickest time ever known, and the exception of a collision with a hack did no damage.

Passed Away.

In this city on the 6th inst. Mr. Cornelius Tippet, relic of the late rev. H. W. Tippet, passed away from life at the age of seventy-three. The deceased was well known in Queensbury where she spent twenty-five years of her life. Then she with her husband removed to this city on account of the failing health of Mr. Tippet, who died within two years of his coming here. She leaves six sons and three daughters. The remains of Mrs. Elizabeth Berry, widow of the late James Berry who was for years garlener at government house, were interred here on Saturday last. Her death occurred at the residence of her son, James Berry, St. John, on the Thursday previous. John McGowan, a well known resident of Allfelds, has passed away to his rest. His hotel by the river side was well known to all passengers of the steamer. He was buried at Pine grove, on the western side of the river, the rev. A. C. Dennis and Rev. Mr. Austin officiating. He leaves a wife and three sons to mourn his loss. His age was eighty years. John Sampson, a well-known resident of Stanley, fell dead at the residence of Thos. Griffiths on Sunday last, at 10 o'clock, Friday. He was in his usual good health and apparently was sweeping the snow from a wagon when he expired. He was sixty years of age. James Yerxa, a brother of Barclay Yerxa of this city, died at Boston, his remains being brought here and buried at Keswick on Friday. He was forty-five years of age. ARABIDON.—All search for the missing Smith child at Doud settlement has been given up. No tidings of the fate of the child has been gleaned and no reasonable theory has been advanced. Everything has been done that the city can do but it is a very peculiar state of affairs that the child could disappear without leaving the smallest trace.

Boom Business.

The boom business.—The boom company are putting away their boats and boats for the winter. The season's work, which has been very successful, is closed. To St. John.—Hon. Mr. Blair has leased the house on Wellington row, St. John, belonging to the estate of the late T. W. Daniel.

All of which will be sold at ROCK BOTTOM PRICES.

JAMES S. NEILL.

WIPED OUT.

Cleveland Swept Into Power by a Great Majority.

HAS 269 VOTES IN THE ELECTORAL COLLEGE OUT OF 442.

McKinley Tariff Has to Go.

The result of the presidential contest on Tuesday will be gratifying to most of our readers, as it is a very apparent fact that a majority of the residents of central New Brunswick preferred the four years of Cleveland rule to the four of Harrison's. Mr. Cleveland carried the solid south and the doubtful states, Connecticut, New York, New Jersey, Delaware, Indiana, Illinois and Wisconsin by majorities up to 44,000.

This gives Cleveland 269 votes in the electoral college to 151 for Harrison and 22 for general Weaver.

It is apparent from this result that protection has received a sad blow in the United States. It is a victory of the people over combines, protectors, monopolists and all the influence of office and money. The republican party is not only defeated but demoralized. Driven to the verge of a few years ago, they thrust on the people the McKinley bill, and it has proved to be the last straw, the back of the peoples camel has given way under it.

Mr. Cleveland's nomination address showed plainly that he was in favor of the fullest possible freedom of trade on broad general principles. Some time may elapse before he can make a change and before the senate becomes democratic, but when that transpires Canada may expect, if she wishes it, a fair trade policy. There cannot be the least doubt as to the feeling of New Brunswick in the matter. Cleveland's election is taken as a token that better times are dawning, and there is no doubt that the people desire a change of policy. They were told and believed that they could not get it, now they think the time has come to make a bid for New Brunswick's natural market.

In Connecticut the state was swept clean. Cleveland's majority is over 5,000 where before he had 326. The Democratic state ticket is elected for the first time by a large majority. In Idaho the senate will be 12 to 12. The house of representatives is republican, but the democrats elect three out of four members of congress.

Governor Russell has again been elected in Massachusetts. Aside from this the democrats look heavily in the scale.

New Hampshire gave a fair majority for Harrison. In Vermont the republicans had a majority but a very reduced one over former years.

Rhode Island went strongly for Harrison, while Maine gave him a small majority. Arkansas gave Cleveland 29,000 of a surplus and Alabama went still better with a surplus of 30,000. Cleveland's majority in Indiana, Harrison's state, is placed at 8,500. Delaware went democratic by 274 votes. In Idaho the fight was close but it is believed that Harrison is the choice.

The result shows that there will be a democratic majority of 100 in the house.

At the rink.—The Maryville brass band after lying idle all summer met one evening lately at the rink and found that there was some music still left in the instruments. The rink is not being put in shape for the winter's amusements and will be carried on at a greater scale than usual, there being some features engaged that have not before been put before patrons in New Brunswick.

DARKEST AFRICA.—E. J. Glave's lecture and views on Africa at the city hall on Monday night was well attended, the proceeds were introduced by Dr. Inch, chief superintendent of education, in a fitting speech.

REHEARSAL.—The cotton mill for some time past to keep up with orders. Everything is rushing and the big mill is pushed to its utmost capacity.

CLONE CALL.—A tumor has been removed from the chest of S. McIntyre, a colored man, who is able to be about again. He had a close call but is coming out all right.

SIXTY DOLLARS.—The Thanksgiving social at the Baptist church, Gibson, on Thursday night was well attended, the proceeds of the supper and sale being sixty dollars.

J. W. Hart, of the Kingsclere creamery, and Miss Blanche Dyeman, of Queensbury, were married on Thursday evening at the residence of G. W. Dykeman, the bride's father, in the midst of a large circle of friends.

BOOM BUSINESS.—The boom company are putting away their boats and boats for the winter. The season's work, which has been very successful, is closed.

To St. John.—Hon. Mr. Blair has leased the house on Wellington row, St. John, belonging to the estate of the late T. W. Daniel.
