LONDON. To-day. In the Commons' debate on the Home Rule Bill, an amendment was introduced, providing the Irish parliament should not have a Senate. This was supported by Joseph Martin, who declared, all Ireland wanted was what Canadians had in their provincial legislatures. While some of the provinces had a second chamber, there was no volume of Canadian opinion favorable to provincial second chamber. The amendment was lost by a majority of 89.

ROME. To-day. The Pope's health is again causing anxiety. He shows increasing fatigue and lassitude which is both physical and mental. Audiences of late have been much rarer and more restricted. Indeed the Pope has ceased what may be called informal conversations and now confines his interviews to ritual benedictions and giving his hand to be kissed. His regular receptions of precepts of principal congregations are now reduced to fortnightly interviews. It is reported the Pope is suffering from almost profound melancholy which is probably due to his now being more a prisoner than ever. The effect of the Pope's growing weakness has been the failure of a number of reforms, emanating from the Vatican.

CHICAGO. To-day. If Roosevelt eventually heads an independent ticket, it seems certain that the Convention which will name him, will be held at a time considerably after the adjournment of the Republican National Convention now in session in this city. As a result of the decisive votes in the proceedings of the Convention, particularly that of the fourth California district contests, and after a day of sober reflection on the part of his friends, the plan for continuation of the present Convention as outlined has practically been abandoned. To-day's convention enters on the fifth day and still it is proceeding under temporary organization. This condition is unprecedented in its history. The party leaders are going at their task earnestly to-day. Although many doubt their ability to do so, they are going to get through with the nomination and everything else before the adjournment on Sunday morning.

OUTDOOR LIFE.

Will Not Offset the Ill Effects of Coffee and Tea When One Cannot Digest Them.

A farmer says:
"For ten years or more I suffered from dyspepsia and stomach trouble, caused by the use of coffee. (Tea contains caffeine, the same drug found in coffee) until I got so bad I had to give up coffee entirely and almost give up eating. There were times when I could eat only boiled milk and bread; and when I went to the field to work I had to take some bread and butter along to give me strength.

"I doctored steady and took almost everything I could get for my stomach in the way of medicine but if I got any better it only lasted a little while. I was almost a walking skeleton.

"One day I read an ad for Postum and told my wife I would try it, and as to the following facts I will make affidavit before any judge:

"I quit coffee entirely and use Postum in its place. I have regained my health entirely and can eat anything that is cooked to eat. I have increased in weight until now I weigh more than I ever did. I have not taken any medicine for my stomach since I began using Postum.

"My family would stick to coffee at first, but they say the effects it had on me and when they were feeling bad they began to use Postum." Name given by Canadian Postum Co., Windsor, Ont.

Ten days' trial of Postum in place of tea or coffee proves the truth, an easy and pleasant way.

Burnstein, Appellant, vs. Sharpe, Respondent.

This was a motion for a day to hear the appeal. On motion of Clift, K. C., this appeal was dismissed on the ground that notice of the appeal was not given within the statutory period. **Edwin J. Mr. Higgins, for plaintiff, moves for a day to be set for the hearing of the argument. By consent of Mr. Squires, for defendant, Thursday next was set for the hearing of the motion.

Sulphate of Ammonia.

The St. John's Gas Light Company has recently installed an up-to-date plant for the manufacture of Sulphate of Ammonia, the increasing cost of materials and labor making it necessary to use to the best advantage all the by-products of gas manufacture possible in a small works.

The plant was successfully worked during the past week, under the management of Mr. F. M. Ruggles, and a quantity of Sulphate of excellent quality was made.

Sulphate of Ammonia is a valuable fertilizer, and contains 20 per cent. of Nitrogen as against 15 per cent. in Nitrate of Soda. Three quarters of a ton of Sulphate has in it as much food for a crop as a ton of Nitrate. Fourteen pounds of Sulphate per acre on hay land is the best dressing.

Elaborate experiments with Sulphate were made at the Dublin Exhibition held in 1905, and many tests were carried out with various fertilizers. It was found that the use of Sulphate of Ammonia increased the yield of potatoes per acre by 4½ tons. Swedish turnips, 8 to 9 per acre, and other crops in proportion.

The Cry for Help

To-day we publish the first list of subscriptions to the fund started for the relief of those lost in the S. S. ERNA, Aureola, Grace, Dorothy Louise, Arkansas, Beatrice and Reliance. A generous response was given to the appeal which was made yesterday by Mayor Ellis to start the subscription list at once and \$3,865 was reported last night. It is roughly estimated that there will be a need of a fund at least fifty per cent. greater than the \$18,000 which was found necessary in the Greenland disaster. This is reckoned on the basis of allowances on the same scale as was given in the Greenland case to fifty per cent. more women and children than were aided after that disaster. It should, however, be remembered that a dollar will not go as far to-day towards bringing up a family as in 1898, and the scale arranged should not be less than was arranged at that time. The Committee were fortunate in securing the services of Mr. Joseph Outerbridge for the Executive Committee as he has some fourteen years' experience as Treasurer of the Greenland Fund. Hon. J. A. Robinson also was associated with the administration of that fund, and his experience will be of value to the Executive elected yesterday.

As some 75 persons lost their lives in the ships already mentioned, as against the 48 in the Greenland, it will be realized that the Executive has a big task before them. But their labours will be lightened by the certain hope of a prompt and liberal response to the appeal from all parts of the island. The example of England in the case of the Titanic appeal will help to stimulate the well known liberality of the seafaring people who dwell around these coasts.

Attempted Suicide.

Const. Quinlan arrived here to-day with a man named Joseph Young of Main River for the Lunatic Asylum. The man whose wife died a few weeks ago became demented and made a desperate attempt to cut his throat with a knife, but was frustrated by friends. He was very violent for a while and Const. Goodland who brought him to Bay of Islands, had to handcuff him and watch him closely.

Score One Goal Each.

A large number of enthusiasts dressed last evening's contest of George's Field between the St. Feildians and which resulted in a draw.

The game was the fastest of season and much interest and excitement was manifested throughout. Game did not commence until the Feildians having won the toss chose the western territory. The opened at a brisk pace but their ponies were equally ready to affray and kept the ball clear of danger zone. During the first five minutes of play Brien and Jack controlled the leather at midfield going up field combined nicely, former passed to Duggan who kicked the ball between the posts, scored the first and only goal for the St.

On resuming the Feildians put a hard fight to equalize. Piusent Winter passed the Star back twice but the latter each time ergatic.

The teams crossed at half time. Star 1; Feildians, 0.
