AND DODD'S KIDNEY PILLS SOON HELPED HER BACKACHE.

How Mrs. Beaudoin Found Complete and Permanent Relief From Her Kidney Trouble.

Beaudoin, a well known resident of this place, and it is no exaggeration to say she voices the sentiments of a large number of the people of Manito-ba. They have had kidney trouble; they have used Dodd's Kidney Pil's;

they have found them good.
"Yes," she says, in speaking of her case, "Isuffered from kidney disease for six months before I was married in October, 1917, and two weeks after I was married I was laid up. The doctor gave me no relief. My father advised me to take Dodd's Kidney Pills. I commenced to take them at once, and a few days after I felt better. I continued to take them until I was perfectly cured. I will always keep them in the house, as they are my best friends."

Dodd's Kidney Pills have been used 100 00 to treat rheumatism, sciatica, diabetes 40 00 dropsy, sore back, gravel, and other 100 00 similar ills. That they continue to give satisfaction is evidenced by their ever-growing popularity.

If you haven't used Dodd's Kidney Pills, ask your neighbors about them

## **Thoughts Upon the Times**

(By PATRIOT.)

The great struggle now going on n Europe, in which our boys have played such a glorious part, is a conest between freedom and despotism On the one hand England, America, France and Belgium are striving fo the principle that mankind is, and ought to be, free; while on the other hand the Teutonic nations, aided by the Turks and Bulgars, are fighting for despotism, or, as the world knows it to-day, Kaiserism.

This is not by any means the firs time that the nations of the world have struggled for this principle. ters says, the front from Locre to vice.

Every person who has any real regard for his country, should do his best to make the Victory Loan, which the Government has (since the above was written) decided to float, a splendid success. If we have to heaven did success. If we have to borrow why go outside when we have the money in the country? All that is needed is a campaign of "Education" which will lead cur people on to see their duties. It should never be forgotten that every dollar borrowed outside the Dominion means the interest has to be sent out of the country. If we follow on this method of borrows. has to be sent out of the country. If we follow on this method of borrowing, it will eventually end in ruin.

It is refreshing to read that in Canada there is at least one body of men who are performing public duties for the State and charge no fee. It is the head of which is Sir Joseph Flavelle. The service of this Board is purely voluntary. When we read and hear of such patriotic actions we recall the day when Newfoundland (before its men in public life became money mad) produced men who placed patriotism before their own self interests. Those were the days, alas! now in the musty past, when we had big, breiny men, full of honour and patriotism, directing the country's destinies. Many of them gave a life of faithful duty, well done, to their country's cause and died poor. But their memory still lives. Shall we ever see their like again?
