Newfoundland

Motor Association

"SAFETY FIRST!"

The following By-Laws of the Association are published for the information of motorists generally. Learn them by heart and follow them:

Members of the Association must use the following hand signals:—

1. If stopping, slowing down, or turning out of the road, right hand held out horizontally. If the drive is left hand, left hand held out.

2. Any Motorist Member of the Association desiring to overtake or pass a car must blow his horn two blasts, and the driver of the car ahead shall signal that he has heard the horn by answering two blasts. If the car ahead cannot keep ahead of the overtaking car, the driver should allow the overtaking car to pass and the overtaking car must immediately get far enough ahead to prevent the occupant of the car passed from getting the dust.

3. A Member of the Association must help any other Member whose car is on the road and in trouble if requested to do so.

4. Cars meeting must keep as close to the left side of the road as possible and slow down.

5. A signal of three blasts will mean that the person blowing is under the impression that the other party has offended against some rule.

6. The horn must be blown at every blind corner and the car must be under close control. A car is under close control when it can be stopped within 10 feet. At sharp curves the horn must be blown.

These By-Laws apply to motor cycles as well as to motor cars.

Published by order

Executive Newfoundland Motor Association.
