

THE INTEREST BILL.

The last survivor of triplet conceptions on the limitation of interest, received its quietus in the House of Commons on Saturday. On three successive days three different Bills had been brought in with the intention of fixing the price which a man was to receive for the use of his money. That introduced by Mr. Bowell appears to have engaged most attention, although there was no essential difference between it and the others. But finally it was withdrawn from the stage, with the threat that it would re-appear next session. There was a time when a law was in force in England fixing the rate of interest, but that was long ago when the Jews were almost the only money-lenders, and their rapacity such as we, living in times when the circulating medium is somewhat more plentiful, cannot readily conceive. It is a little too bad for the good members to suggest a retrogression to the practices of the medieval ages. Why don't they go a little further, and determine the price of produce as was done in the times from which they have such a fancy for deriving their legislation? There is no doubt usury is very wicked, but then there is the question, what constitutes such a crime? What might be thought to be usury at certain times and under certain circumstances might not be so considered when times and circumstances are different, for it appears as legitimate and natural that those who want money should occasionally pay a little higher for it as that those standing in need of wheat or any other article of produce should be sometimes obliged to give a higher figure for it. There is a good deal of foreign capital in Canada, and yet cash is not plentiful. Should an act be passed limiting the rate of interest that capital will undoubtedly seek more profitable investment. To be sure it would be very nice that if a poor man—or a rich man either—wanted a loan of a trifle he was certain of having to pay only a moderate rate per cent; but then what about the willingness of the owner to lend? If he should refuse to give his money at the rate fixed by law, he could not be subjected to the penalty of having a tooth drawn every day until he complied, as one gentleman once was. The Government have let themselves down from an awkward position pretty easy; they had better not get into it again.

School Examinations.

The following are the names of the successful competitors for prizes in the different school divisions mentioned. The names are given in the order of merit, but there may not be prizes for all mentioned:

CHARITY PICNIC.—We would again remind our readers of the picnic in aid of the aged and orphans, under the care of the Sisters of Charity, at St. Joseph's Hospital, which takes place on Thursday next. This laudable effort to raise funds for the support of the institution should be patronised by all who can possibly attend, or, without attending, afford the price of a ticket, since the hospitality of its roof, the kindness and tenderness of its conductors may be shared by the homeless and afflicted, no matter what their creed or nationality. The Sisters of Charity have always, and in a recent instance more notably, proved themselves "good Samaritans," and their efforts should not, and certainly will not, be forgotten. Success has already smiled on the efforts in their behalf, as we understand that 1,500 tickets have been sold. That it may smile much longer is the wish of all who having imbibed the liberal ideas of the age, are divested of narrow prejudice.

CRICKET.—This sturdy old English game appears to be dying out, having been superseded by the less scientific, though more exciting and laborious, Lacrosse. The Club which had existence here some time ago appears to have become defunct, or nearly so. This state of affairs does not exactly suit some of the old gentlemen with whom cricket was a principal and favorite youthful pastime, and accordingly an attempt is likely to be made to revive the game in Guelph. A meeting will probably be held this week having that object in view, and if reconstitution be contingent on the subscription of a trifle of cash, there are those who will supply the needful.

Gold at noon today 187 1/2.

It is reported that Sir Geo. Etienne Cartier is to return to England soon and main there till next session.

PUBLISHER PIC-NIC.—Don't forget the picnic in connection with Duff's Church, Puslinch, on Dominion Day.

THE BLIND PRINCE.—Mr. Ferguson, the Irish Piper, will give one of his entertainments in the Town Hall on Friday next. His charity, as well as amusement, to go to hear the old man, and it is to be hoped he will have a good house.

DR. MCTAGGART.—We learn that Dr. McTaggart, of the Hamilton Infirmary, will again visit Guelph on Friday the 25th of June, and will remain until the evening of Saturday the 26th, at Coulson's Hotel, where he can be consulted by the afflicted. None should lose the opportunity of seeing him. He is highly recommended by the Press and medical men.

THE WEATHER AND CROPS.—The heavy rains during the past week have stimulated vegetation greatly. All the crops look remarkably well. Grass is a little backward, but the wet weather will bring it on fast, though having will be a fortnight later than last year. Fall wheat, in the northern townships, which had been slightly touched by the frosts, is recovering. Turnips are coming up well. We have plenty of rain now for weeks to come, and if warm weather follows, the growth will be very rapid.

NEW GROCERY STORE IN ACTON.—We would refer our readers to the advertisement of Mr. John McKee who has opened a grocery and provision store on the corner, opposite Clark's Hotel. He has a fine stock on hand, and as he has bought his goods for cash he is confident he can give his old friends and the public who call on him the worth of their money.

SALE OF DURHAM STOCK.—At the Hon. David Christie's sale of Short Horn Bulls, at the Plains Farm, near Paris, on the 10th inst., Mr. John Snell, of Edmonton, was the purchaser of 'Prince Imperial' fifteen months old, sired by imported 'Crown Prince of Athelstane,' dam 'May Queen' by Oxford Lad, the winner of the Prince of Wales prize for the best bull of any age or breed at the Provincial Fair at London, 1895.

DOMINION DAY AT PUSLINCH LAKE.—The good people about Puslinch Lake have arranged to get up games and amusements for themselves and those who may visit the Lake on Dominion Day. There will be running, jumping, leaping, putting the stone &c., and handsome prizes will be awarded to the successful competitors. Doubtless a large number will visit the Lake on that day for no more pleasant place can be found for a day's recreation and the games will help to enhance the amusements generally.

Arthur Council.

The Council met at Clark's Hotel, Arthur Village, June 15th. All the members present. The Clerk read the minutes of previous meeting, which were approved. On motion of Mr. Buschlen, Joseph Draper was added to the list of pathmasters for Arthur Village, and John Scanlon appointed in the room of Michael Foley upon the 1st con. Moved by Mr. Irwin, seconded by Mr. Quinlivan, that the Reeve issue his order in favour of Robt. Corrie for \$5.75, payable by the Township, being amount of commutation statute labour paid by him the County Treasurer upon the north half of lot 19, 1st con, for the years 1867-8, said labour having been performed, and not returned in time by the pathmaster. Carried. The Reeve read a communication from the Reeve of the Township of Maryboro, informing the Council that commissioners had been appointed to act in concert with any person representing the Township of Arthur in replacing the bridge carried away by the flood upon the town-line between said townships. On motion of Mr. Gordon, the Reeve was appointed commissioner on the half of Arthur, to act with the commissioners appointed at the Maryboro Council to rebuild said bridge. Messrs. Irwin and Buschlen, commissioners for the southern division of the township, brought in their report, as also did Messrs. Gordon and Quinlivan, commissioners for the northern division. Said reports stated that a number of bridges upon ice concessions, side-roads, and town-lines, have been carried away by the freshet, that quite a number of places were in a very dangerous state and required immediate attention, and that said improvements would, of necessity, require a heavy expenditure. A resolution was resolved that the Reeve should correspond with the Reeves of Peel and Minto in reference to certain crossways and bridges between those townships and Arthur, also that the commissioners, both for the north and south divisions, should at once proceed to let contracts for building and repairing bridges, and fixing dangerous places, and report at next meeting of Council. The Provisional Committee, appointed by a public meeting held for the purpose of fixing the preliminaries in connection with the Drill Shed movement, reported to the Council that offers had been made to the property holders in Arthur Village of lots from which to choose a site for said building, and taking all things into consideration, it was the opinion of the committee that the site offered gratuitously by Mr. Green, was the most convenient and acceptable to a large majority of the inhabitants. Moved by Mr. Buschlen, seconded by Mr. Irwin, that the Council accept the offer made by Mr. C. C. Green of a site whereon to build a Drill Shed and an Agricultural Hall, and that the following gentlemen be appointed a Building Committee:—Robt. Stevenson, Reeve, Robt. Gordon, Deputy Reeve, Wm. Whyte, Capt. Hollinger, and Anthony Buschlen. Carried. Several of the ratepayers living upon the 5th and 6th con. appeared before the Council and requested that the resolution passed at the last meeting of Council requiring the living upon the 5th con. to give 20 feet of land to the public highway between the 5th and 6th con., or to perform statute labour upon the regular concession lines be rescinded, as it was not probable that all the parties would give the land, and to remove the statute labour would be equivalent to shutting up the road. On motion of Mr. Irwin, seconded by Mr. Buschlen, said resolution was rescinded, and they were allowed to perform their statute labour upon the blind line. On motion of Mr. Irwin, Mrs. Cameron was exempted from statute labour for the current year. Council adjourned to meet at 8 1/2 o'clock, on Tuesday, August 10th.

A special meeting of Council was held on the morning of June 16th, at the same place in which the regular meeting was held, the object being to guard against any difficulty which might arise by the pathmaster upon the blind line between the 5th and 6th con., in case he should, in performing the statute labour, go beyond the boundary of said line, as laid down in a certain by-law passed A. D. 1851. Present, the Reeve, Deputy Reeve and Mr. Buschlen. Moved by Mr. Buschlen, seconded by Mr. Gordon, and resolved, that the Reeve be, and is hereby authorized to write to the pathmaster upon the blind line, between the 5th and 6th con. of this township, notifying him that this Council will not be held responsible for any damage that may be sustained by parties owning land upon either side of said blind-line if the pathmaster trespass or take possession of more than 20 feet on either said blind line. The Council then adjourned.

Wm. Cushing, Tp. Clerk.

The cropping of dog ears is now prohibited in London, and a magistrate has just punished two men for the offence at the instance of the Society for the Prevention of Cruelty to Animals. A London paper says it is a barbarous relic of a barbarous age; but so is the practise of docking horses' tails, ringing pigs' noses, and boring ladies' ears before they come of age.

To the Editor of the Mercury.

SIR: With regard to the Nassagaweya Competitive Examination I have, since my last correspondence with you, been informed: 1st, That Mr. Campbell, teacher in S. S. No. 9, is not your correspondent. 2nd, That the Reeve, in conducting the examination, was only carrying into effect the regulations previously agreed to, in preventing teachers going near to classes that were being examined. 3rd, That there were two divisions in the Fifth Book. 4th, That in the judgment of the Superintendent and Council the examination of the third division was quite just. 5th, That the examiner of the third division is a young man of superior education and abilities—a student at the Rockwood Academy, and in the opinion of the Superintendent under whom he formerly prosecuted his studies, as also in that of the Reeve and Council, every way qualified to discharge the duties which he so reluctantly undertook on the morning of the examination. By giving the above corrections as wide a circulation as you formerly gave my letter in your last week's issue, you will greatly oblige your humble servant, Wm. BEATTIE, Nassagaweya, June 21, '99.

SHAW & MURTON'S WINDOW.—Messrs Shaw & Murton are getting in a handsome new front to their store. The windows are very large and will afford a wide entrance to the store. The front panes are each five feet by eight, of the finest plate glass, and these with the side lights will give them a fine opportunity to show their goods to advantage. The store will be greatly improved by the alteration.
