borrowing trouble as if they hadn't mough already.

The fact is their kidneys are weak, either naturally or because of sickness, exposure, worry or other influences.

"I was taken ill with a kidney trouble," writes Mrs. Thomas Innis, of Wallaceburg. Out., "and became so weak I could scarcely get around. I had headache, and cramps in my stomach, and my food did not digest. I took medicine without benefit, and finally decided to try Hood's Sarsaparilla. After the first bottle I felt so much better I continued its use and six bottles made me a new woman."

The attendance at the market this

morning was one of the largest of the season. The market square and adjoining streets were completely filled with vehicles of every description. Hay and Straw-Fourteen loads on

sale this morning, selling at \$8 to \$850 per ton: sales were fair. Butter and Eggs-Butter was in large supply; prices were easier, selling at 17c to 18c per lb for crocks, and 18c to 20c for

1b rolls. Eggs were higher in price, at an advance of 1c per dozen over Thursday selling mostly at 18c to 19c by the basket, and 20c per single dozen. Fruits-Apples were plentiful; prices are

as a rule a trifle firmer; some choice barrels sold as high as \$250 per barrel wind falls and inferior grades sold from 40c to 90c per bag. Grapes were in fair supply, selling at 20c to 30c per basket Pears are nearly at their end: those of fered today sold at \$1 per bu, or 30c per Chestnuts were higher in price and scarce at \$3 50 per bu; advance of 500 over former prices.

Vegetables and Roots-Potatoes form the bulk of the offering in this line, there being about 50 large loads on sale; prices are easier; some of the large loads sold at 55c per bag; 60c was paid for small lots and single bags. Other vegetables are unchanged.

Dressed Hogs-Quite a lot in today; selling mostly at \$7.75 per cwt; a few choice sold as high as \$8 per cwt. Poultry-Was offered in large quanti-

ties. There is a vast difference in some of the offerings, hence the big difference in price. Dressed chicks sold at 40c to 60c r pair; geese, 60c each; ducks, 50c to 75c per pair; turkeys, 8c to 9c per lb. Live chickens sold at 35c to 50c per pair; turkeys, 7c to 71/2c per lb; chickens, 5s 6c and 7c per lb.

Live Hogs-A shipment from here on Monday will be made; \$5 50 to \$5 60 per cwt will be paid; prices are going lower; cable advices are weak, and lower prices will prevail for some time to come.

Meats-In plentiful supply; lamb sold at Sc per lb by the carcass, and 9c to 10c for quarters; beef is dull, at \$460 to \$6

LIVE STOCK MARKETS. TORONTO, Nov. 1.—The market for cattle drags along without any perceptible improvement or from the changed situation. Deliveries are small, but this failed to stimulate trade. The scarcity of good cattle has a lot to do with the present duliness, and that cattle of this class is wanted is proved by the eagerness with which choice offerings are snapped up. The retailers appear to be well supplied, and apparently do not care to load up with the rough stock which

Lots sell anywhere from \$350 to \$4 per cwt, while picked lots fetched as high as \$440 today, R. Levack paying that figure. Exporters were dull and few were wanted. Dealers say \$440 per cwt is the top for the cettle offered today. were wanted. Dealers say \$4 40 per cwt is the top for the cattle offered today, but yesterday Mr. Gould paid \$460 for a load. There is a good market for stockers and feeders, at firm prices. Lambs are very low in price and may go even lower. The bulk of offerings today sold at 3c for butchers, but 3%c was paid for some export eyes. Sheep were steady lower. The bulk of offerings today sold at 3c for butchers, but 33c was paid for some export ewes. Sheep were steady and in good demand. Hogs are unchanged, but another decline next week is expected in some quarters. The receipts of cattle at the western market during October were over 5,000 in excess of those during October, 1900, when the total was 10,146. For last month they were 15,494. The number of sheep in October, 1901, was 17,276; hogs, 16,782; calves, 441; as compared with 16,271 sheep, 22,095 hogs and 220 calves in October, 1900. William Levack bought 5 loads of cattle, paying \$3 25 to \$4 40 per cwt for 2 loads of picked butchers, the latter weighing 1,150 lbs, and \$4 to \$4 30 for exporters. W. Murby bought 40 stockers, 500 to 900 lbs, at 2c to 3c per lb. Zeagman & Son bought 35 stock cattle at 23c, averaging 800 lbs. "At Cripple Creek."

Hal Reid's new melodrama, "At Cripple Creek," was received favorplot is quite sensational, with considerable dime-novel flavor, a constant thirst for gore being displayed by the two deep-dyed, cold-hearted villains. Fred Mosley, as Joe Mayfield, the hero, filled his part acceptably. Miss W. Francis, who was seen here last season in "On the Suwanee River," was excellent as the heroine, Belle Gordon. Little Miss Beatrice sang exceptionally well for so young a child. villainous characters were well acted by Messrs. Frank Beal and Collin Varrey. The other rolls were well filled. The scenic effects were worthy of mention, particularly the canon scene in act two.

Closing Their Engagement.

The Fenberg Stock Company last night presented the powerful Russian drama, "The Crucifix," to a good-sized audience, which testified its appreciation of the excellent work done by every member of the cast. The company has given the patrons of the theater entire satisfaction during its engagement here, and it should receive a hearty patronage on any return visit that it makes. The Fenberg Stock Company is easily the best repertoire company that has ever been seen in this city. Tonight the Fenberg Company close their engagement with the big production of "The Two Orphans," the play made famous by Kate Claxton. This piece will be Kate Claxton. This piece will be mounted and staged in first-class manner, as the company carries spespecial scenery and costumes for its production. The cast will be strengthened by the addition of Mr. Edwin Mackey, who will be remembered as the leading man of the company when last here. A large house should greet the Fenbergs on this their farewell

KYRLE BELLEW TONIGHT. Under the heading of "A Remarkable Production at the Russell Theater." the Ottawa Free Press says concerning "A Gentleman of France," which is the bill at the new Grand

tonight: "Mr. Bellew in the title role, gives an interpretation which is as near perfect as one could expect to see. Bellew's delivery is perfect and without the least sign of ranting. His softness of tone is a pleasing change from that which we are often compelled to listen to in the present day productions. Possibly to many his lack of ranting is a fault, but from an artistic standpoint is a treat. His stage presence is to be admired for its lack of mannerism perhaps, as much as anything else, and in the lighter passages he shows rare ap-

preciation of humor. "Mr. Bellew was ably supported. In Miss Eleanor Robson, his leading lady, he has an actress of power and one possessing a high dramatic ability. As Mile. de la Vire she had ample opportunity for the full display of dramatic talents, love, hate, anger and jealousy being all shown at different times. The display of temper in the sixth act was a can of acting, and, in fact, throughout the production, her work was of the high-est order. She has a charming manand a graceful stage presence, which wins for her the good-will of the audience from the start. In her love passages she is tender and sweet. and in the more dramatic parts, particularly where she defies her captors,

she displays great power. "The strongest scene in the entire production is perhaps that at the close of the fifth act when the sword combat takes place on the staircase. Nicely worked out and cleverly executed it is intensely interesting, and its conclusion wins curtain call after curtain call before the audience is

"The scenery was greatly admired by all, and on several occasions the rising of the curtain was the signal for enthusiastic applause. The final act in the garden at Mendon, with the autumn tinted trees, the falling leaves and the warmth of color and beautiful sunshine effects, was perhaps the most remarkable

"Curtain calls were frequent, in most of the acts Mr. Bellew having to respond to four. At the conclusion of the sixth act, the authoress was called for and Mr. Bellew escorted Miss Harriet Ford before the footlights, where she gracefully responded to the Offerings, 89 cars, closing 5c to 10c lower than opening; heavy, \$6 to \$6 15; mixed, \$6 to \$6 10; Yorkers, \$5 90 to \$6 15; mixed, \$6 roughs, \$5 70 to \$5 80; pigs, \$5 50 to \$5 60; roughs, \$5 50 to \$5 60; stags, \$4 75 to \$5 85; pigs, \$4 75 to \$5 85; lambs, \$4 50 to \$4 75; common to fair, \$4 to \$4 35; sheep, \$3 to \$3 85; common to fair, \$4 40; Syers. "THE FAST MAIL."

A complete freight train of fourteen cars, with illuminated caboose and practical working engine; a magnifient scene of Niagara Falls by moonlight, with real mist, as seen from the Suspension bridge, the flight of the fast mail, which crosses the stage at the rate of 40 miles an hour, and a realistic steamboat race and explosion on the Mississippi are among the most wonderful scenes and mechanical efwhich appears at the new Grand next Monday night.

"CAUGHT IN THE WEB." The interior of a police station is ividly depicted in "Caught in the Web," the great detective play to be presented at the new Grand next Tuesday evening. The huge steel cages for vicious criminals and the tiers of cells are effectively shown The climax of this act, when the villain leaps through a huge window, taking the glass and sash with him is one of the most exciting ever placed upon the stage.

FOOTBALL.

A HOT GAME. An interesting and exciting game of football was played on St. John's athletic grounds on Friday evening between the Normal school and 'Varsity teams. The Normal school and 'Varsity teams. The Normalites were laboring under great disadvantages, three of their best men being absent. It was a foregone conclusion among the 'Varsity men that they were to have a "walkover." but they were doomed to disappointment, for in seven minutes after the game started J. Beatty, of the Normal team, shot the sphere through like an arrow, making the only score during the game, the result being 1 to 0 in favor of the Normalites. The game was keenly contested from start to finish, and much rough play was indulged in, McMillan, of the 'Varsity team, being ruled off for rough play. Mr. Govenlock, of the Collegiate, gave Mr. Govenlock, of the Collegiate, gave entire satisfaction as referee. The teams lined up as follows: Normal-Goal, W. MUSIC AND DRAMA STILL FAVORABLE!

State of Trade in Canada and the United States as Reported by Bradstreet's and Dun & Co.---Bank Clearings.

trade review, weekly summary: The trade situation at Montreal is good and active for this season. Large quantities of freight from the interior are being received for shipment by ocean vessels, and the movement of freight from the jobbing trade to inland water points so as to reach their destination before the close of navigation gives added activity to the general movement in trade. The outlook

for general trade is very favorable. Trade at London has been active this week. Jobbers report a good demand for late fall and winter goods from country points, and retail trade in the country is very fair. Values of stantes are firm. Business at Ottawa has been stead-

lly expanding the past ten days. Job-bers are busy filling orders for various retail centers to meet the late fall and winter demand for seasonable goods, and the movement in this respect is likely to continue for some time. Values are firm for most lines of staple goods.

At Quebec trade reports are gener-

ally encouraging. A considerable quantity of goods are being shipped before the close of navigation. Remittances are coming in better.
The sorting demand for general lines n wholesale circles at Toronto keeps

up very well considering the weather conditions, which are decidedly adverse to any expansion in the movement of heavy cold weather goods. The conditions of trade are sound and the outlook for a smart improvement with the first touch of cold weather is very encouraging. Values of staple goods are generally held firm. Counry remittances are improving.

Hamilton wholesale trade is quite active. There has been many sorting orders received this week from travelers and by mail, and the prospects are very promising for the business of the next two months. Payments are improving with the increasing deliveries of grain and other produce in the Northwest, as well as in Ontario, Business at Winnipeg has been improving with the fine weather and the increasing deliveries of wheat. The reports on the quality of the grain are better, and it is now conceded that

the damage from the moisture a few

weeks ago was exaggerated. There is a big demand for staple goods for the winter trade, and the outlook is bright. Business at British Columbia trade centers, according to reports, are rather more encouraging. At Vancouver and Victoria there is a fair movement in fall and winter goods for retailers. It is thought that the establishment of an assay office at Vancouver will favorably affect trade there by bringing in gold which formerly went to American points. Payments are rath-

IN THE UNITED STATES. -New York, Nov. 1 .- Bradstreet's re-The complaints of car shortage noted in Bradstreet's trade reports for weeks past are repeated this week in an even greater degree. In keeping with raw cotton several other farm products have weakened this week. Wheat has felt the influence of the heavy movement of grain at the Northwest, heavy increase in visible supplies in Manitoba reached Bradstreet's and rather less critical advises from Argentine. In addition the stories of dullness and depression in the export business have affected trade, though it is to be noted that wheat and corn shipments together since July 1 are heavier than a year

Toronto, Ont., Nov. 1.-Bradstreet's the depression in ocean freights pre-

valent for months past.

Hog products are lower, it is claimthe hog market, but the recent high prices appear to have checked consumption

Among the staples advancing corn is prominent, though held down slightly by wheat. A large short interest is said to exist in that grain, and wet weather and good prices have stimulated prices of that product and of oats. Throughout the weather is generally complained of, but business is much more satisfactory than a year ago, owing to better crop conditions. On the Pacific coast trade s more active than last year, and collections are fair to good.

Wheat, flour and barley exports are very large from San Francisco and Seattle. At the coast trade is duller in the Atlantic coast cotton-growing district by the backward movement of

At the east the stringency in the leather and hide situation continues, although the rush of fall and winter shoe shipments is about over. Shipments are smaller than last week, but still much larger than a year ago, Leather is strong, and margins of profit in shoe manufacturing are small. Nothing in particular in iron and steel is noted. In finished products, bar iron, sheets, plates and structural material are in unprecedented demand at Chicago. A phenomenal demand for structural material is noted at Pittsburg. Hardware is active the country over. Copper maintains its

former strength. Failures for the week number 172, as against 223 last week, 165 in this week vear ago, 174 in 1899 and 183 in 1898. Wheat, including flour, exports for the week aggregate 6,672,888 bushels, as against 4,952,134 bushels last week and 3,612,421 bushels in this week last year. Wheat exports July 1 to date (seventeen weeks), aggregate 106,729,-273 bushels, as against 62,200,290 bushels'last season. Corn exports aggregated 606,159 bushels, as against 1,118,-288 bushels last week and 3,920,110 bushels last year. July 1 to date, corn exports are 16,739,560 bushels, against 56,175,687 bushels last season.

DUN'S REVIEW.

Although the latest railway returns indicate that transporting facilities have greatly improved, the volume of business has expanded more rapidly Car shortage has in fact become the chief retarding influence. From all sections of the country and many lines of industry complaints are heard regarding the inability to move goods. Structural material is urgently sought and mild weather prolongs the season for buying pipe. Steel rail orders increase, and the fancy prices billets have brought ports from Germany where industrial depression makes it possible to sell at very low figures. Domestic quotations do not altar. Copper is artifically sus-

tained by closing mines. Footwear manufacturers have made a general advance in prices, restoring the figures of early spring. Textile markets are well sustained. Woolen milis have ample orders, and take large quantities of raw material, holding wool prices firm. Cotton goods are in brisk request with no evidence of excessive stocks. Irregularity prevails in the markets for staples. Speculators secured a distinct decline from the unusually high position recently attained by pork products, while at the same time corn made a further advance. Poor husking reports were held responsible for the rise in the cereal, To smaller exports shipments of cot- and there was a natural falling off in

failures in October were \$10,680,627. against \$9,072,791 last year, the return is by no means as unfavorable as the simple aggregate would seem to indicate. A few large failures, many due to speculation, account for over half the total liabilities, but had little influence on legitimate trade. Deducting these exceptional disasters, the average indebtedness to each insolvency was but \$5,984, a lower proportion than in the corresponding month of any year since this instructive comparison was commenced.

FOR THROAT AND LUNGS A SUPERIOR REMEDY

In Angier's Petroleum Emulsion is combined two most valuable remedies, Petroleum and Hypophosphites. The Petroleum, as prepared by us, is a pure, bland hydro-carbon oil, almost tasteless, and agreeable to the most delicate stomach. This oil has a peculiar soothing, healing and cleansing effect upon the mucous membrane of the throat, lungs, stomach and bowels. Combined with Hypophosphites of Lime and Soda in a perfect Emulsion, it makes a preparation which physicians say is superior to any other for the treatment of throat and lung affections, nervous diseases, disorders of the digestive organs, and all forms of wasting diseases.

Is better than cod liver oil in every way, and has great medicinal value not possessed by animal oils. By its soothing, healing and cleansing action upon the stomach and bowels the digestive organs are kept in a healthy condition so as to perform their functions naturally. It cures the most stubborn coughs, and soothes and heals any inflamed or catarrhal condition of the throat, lungs or bronchial tubes, and at the same time tones up the nervous system and builds up the health and strength generally.

WEAK LUNGS AND CONGESTION: - I have been afflicted with weak lungs and congestion for many years, and have tried many remedies without receiving any benefit whatever. This winter, my health was in a more precarious condition than ever before. I was induced to try Angier's Petroleum Emulsion. It immediately relieved me and has since cured me. I cannot but think that your Emulsion is the greatest remedy in the world for all R. W. HEPPSON, Toronto, Ontario. diseases of the lungs and throat.

CAUTION:-The phenomenal success of ANGIER'S PETROLEUM EMULSION has been the means of producing many untried and worthless imitations. Always be sure you get the genuine ANGIER'S Petroleum Emulsion, as imitations made with the ordinary Petroleum do not have the same effect. Angier's Petroleum Emulsion is made from oil obtained from particular wells and refined by a peculiar process, which is known only to the manufacturers of Angier's Petroleum Emulsion. All druggists sell it. Two sizes, 50 cents and \$1.00 a bottle.
