\$1 a Cake Could Buy No Better Soap

If you were to offer us \$1 for a single cake of soap, we could make no better than our Infants' Delight.

For we have put our very best into this cake. We go to the gardens of France for pure vegetable oil. There we pay often double what we might pay. We bring cocoanut oil more than 12,000 miles from the isle of Ceylon. Then we mix these oils and boil them doubly long.

After this we send them through our own special milling process — one that we have perfected only in our 43 years of experience. From here they fall like flakes of snow into huge

bins and are then crushed under a weight of 30 tons to press out the moisture. Then they pass through granite rollers and come out in miles or silky ribbons, after which they are dried eight times. The result is the most

perfect and delightful soap. It is so pure and clean that it leaves the skin fair as an infant's. So we call this soap Infants'

Order one cake today and see for yourself how different it is. Note the rich, creamy lather and see how it leaves the skin as soft as velvet and as smooth as silk.

Note the dainty perfume - it comes from Bulgaria and costs us \$100 a pound. But it requires 3,000 pounds of rose leaves to make a single ounce of this Otto of Roses. The fragrance is simply exquisite. Please try it and see.
