PRETTY PRINCESS MUST GIVE UP LOVE TO BRING ROYAL HOUSES TOGETHER.

Is the heart of little Victoria Louise, the only daughter of Emperior William of Germany, to be used-not as the sacred token of love but only as bridge over a chasm between two hostile

Though half the eligible princes of ope have knelt at her feet and though the people of Germany have idolized their "little princess" all her life, Princess Victoria Louise is a real girl.

Her title of the "catch of all Europe" has been unsought, but it has not been won without merit, for she is a very quick-witted little person, with more than ordinary abilities; and she has succeeded in becoming known as the most gifted of all the younger generation of European royalty.

She paints. She speaks French and English as easily as she does German. She is a good cook and a capable nousekeeper.

But it is as an outdoor girl that the 'Little Princess' is best known in her own country. And as in less exalted families, the fact that she is the only girl in a large family of boys led to her acquiring accomplishments that used not to be regarded in high social circles as

TO DOCTOR FRIEDMAN [From the Literary Digest.]

There has been much criticism from medical sources of Dr. Friedman's "professional ethics" in his frank avowal of an intention to keep the new process to himself and to profit by it commercially. His pursuit of a million-dollar offer, it should be noted, has been emphatically denied. An article by Dr. H. J. The Worry Habit

To worry is a bad habit. It is a waste of valuable time, and nothing so quickly breaks down nerve cells and lowers the vitality of the

The business man has a thousand things to worry him, and if he gives way to worry it is not long before the business becomes his master, and makes of him a slave. It is only a question of time until business worries put him under the ground or in the insane asylum.

There is not much use in telling a person not to worry. The source of trouble is with the nerves, and until the nerves are set right the tendency is to continue the nerve-exhausting worry.

When you begin the use of Dr. Chase's Nerve Food to restore vitality to the starved and wasted nerve cells you can make up your mind that you are going to get well and cease worrying. Think how few things you worry over ever happen, and make up your mind to do your best, and let it go at that.

With the pervous system run down it is

hard to look on the bright side. Doubt and discouragement are ever present. Tired brain, headache, nervous indigestion, irritability over little things, and impatient nervousness are among the symptoms which warn you of the approach of some form of nervous breakdown or paralysis.

Dr. Chase's Nerve Food is reconstructive as well as tonic. It not only revitalizes but also rebuilds wasted nerve cells. It furnishes in condensed and easily assimilated form the vital substances needed for regenerating the entire organism when in a run-down condition.

Iron for the blood, food for the tissues and vitality for the exhausted nerves-these are what make this great food cure the most rational treatment which a business man, or anyone else, can use to get back health, vigor

Would it not be a good idea to begin this treatment to-day, and get rid of the worry habit and all the symptoms of exhausted
