MILLION POUNDS TO BUILD SHIP

Admiralty Figures Based
On Naval Programme
of Germany.

BIG CUT IN THE NATIONAL DEBT.

A Large Sum Goes For the
Cotton Industry in
Uganda.

London, June 24.—In the House of Commons this afternoon, Right Hon. David Lloyd George, chancellor of the exchequer, speaking upon the budget resolutions, reminded the House that there were two contingencies regarding the disposal of the surplus of six and one-half million pounds. He said that when he made his budget statement the first contingency was whether the coal strike would cause a loss of revenue in consequence of the decreased consumption. He was now able to say that such was the buoyancy of trade that the estimates of revenue given at the beginning of the fiscal year would be well within the mark, and that probably there would be a margin which consequently would render it unnecessary to draw upon revenue at all to meet the ravages of the strike.

Germany's Plans.
The other contingency was a possible increase in the demands of the admiralty upon the exchequer. Right Hon. Winston Churchill, first lord of the admiralty, had stated quite clearly, said Mr. Lloyd George, that he based his estimates upon the assumption that the German navy law would remain unaltered. There was a bill before the Reichstag at the time providing for a very considerable addition to the provision made by the old German navy law. Since then the bill had become an act of the German Parliament. It was now no longer a contingency, but a fact, with which Great Britain was confronted. This new law provided additions to spread over a period of six years of naval programme, amounting in the aggregate to ten millions of pounds sterling.

Mr. Lloyd George proceeded to say that in due course, Mr. Churchill, as first lord of the admiralty, would submit supplementary naval estimates. It was not for him to anticipate Mr. Churchill's statement in that regard, and he only referred to it in so far as was necessary to explain the financial statement which he was now making to the House. This year the additional sum which Mr. Churchill would ask for, he continued, did not exceed £1,000,000, but further heavy payments would fall due in subsequent years as the result of the British naval programme Mr. Churchill had found it necessary to outline.

Would Develop Uganda.
That left a balance of £5,500,000 which was not disposed of. There was, however, a new item of expenditure which he (Lloyd George) proposed to recommend to the House, and which would be for the development of the resources of East Africa and Uganda. The colonial office were pressing the exchequer for an advance for the further development of that exceedingly rich country. He had recommended a year or two ago that a portion of the surplus should be expended in the extension of the railways of the Uganda and the protectorate, and for the construction of a deep water pier and jetty. There was no doubt at all, he said, about the enormous possibilities of that great country; there was an increase from year to year of products coming from that quarter, especially cotton and wheat. It was undoubtedly to the interests of Great Britain to assist every new cotton-producing country. This was a lesson which Britain had had in the shortage from the United States of America last year, of the injurious effect upon our cotton industry. It showed that it was a dangerous thing to rely exclusively upon one particular source of supply for one of our most important industries.

Having given figures of the exports of Uganda cotton in recent years, Mr. Lloyd George proceeded to say that this year it was expected that there would be 1,050,000 hundredweight exported from Uganda alone. Last year, for the first time, there were exports from the protectorate. Railroads, steamboats and piers were quite inadequate to the development of that new source of supply. According to reports to the colonial office the products were rotting on the wharves and platforms for lack of carrying capacity and storing rooms. What was wanted was a large number of engines, carriages and stores, also development of the roads, especially in the district of Lake Kioga, which was one of the most promising districts of the whole empire for cotton growing. In this connection the chancellor said he was told that owing to the lack of road accommodation the natives could not bring their product to the lake. The natives were very much discouraged at this situation, because, having produced the cotton under the stimulus of great promises, they found it very disappointing that they could not get their cotton away.

The remaining five million pounds of the surplus, he said, he devoted to the redemption of debt. The total reduction of debt effected by the present Government, including the five millions, would be £7,184,000, and he asked as a matter of fact play that when comments were made upon the price of consols, adverse to the Government, the figures of the debt reduction should be given as well.

EXPLODED IN HIS HAND.
Danville, Que., June 24.—While examining a stick of dynamite in the pit of the Asbestos and Asbestos Company here this morning, a man who had not gone off, Napoleon Therien was killed by the charge, which exploded in his hands. His mangled body was thrown 30 feet.

INGERSOLL PASTOR CALLED TO TORONTO

St. Enoch's Deputation Wants
Rev. Alfred Bright After
Hearing Him Speak.

[Special to The Advertiser.]
Ingersoll, June 25.—Rev. Alfred Bright has received a call from the congregation of St. Enoch's Church, Toronto. A week ago Sunday a deputation from the church attended the services in St. Paul's Church and were so pleased with Mr. Bright's sermon that shortly after their return to Toronto it was decided to invite him to go to that city. Mr. Bright came to Ingersoll nearly a year ago as pastor of St. Paul's Church. He is a young man, deeply interested in the young people's work and in the pulpit is a strong and impressive speaker. Just whether he will accept or not is a matter for further consideration.

A Typical Hobo.
When taken into custody shortly before two o'clock yesterday afternoon James McHolland, certainly an Ingersoll part of a hobo, James claims to hail from the State of Wisconsin, but it is doubtful if the state would have been proud of him at the particular time the officer took him in tow. While his wearing apparel was not of the kind that bespoke prosperity his hair was of the western style and was likely to prove an asset to the barbers at any time. McHolland was first noticed in Ingersoll Sunday morning. He had been loitering about the depot for some time, and his movements were viewed with suspicion. In fact it was alleged that James had attempted to open a bonded car. A vagrancy charge was opposite James' name on the police court blotter and the magistrate, in view of the fact that the vacation season had opened, sent him to the county jail for a month.

A Close Call.
While in the vicinity of Clarke's Corner one night recently an Ingersoll automobile driver and two companions had a narrow escape. Through the breaking of the steering apparatus the driver lost control of the machine, which plunged into a fence. The impact was so great that the occupants were hurled over the fence and the car, which was seriously damaged, was left at the scene of the accident over night. Fortunately none of the occupants were seriously hurt, but they are still suffering from the shaking up and the bruises.

Ingersoll will in the near future lose one of her enterprising citizens in the person of Mr. W. L. Talbot, who for four years has been the manager of a local store. After a pleasure trip West he will go to London to visit his family. The Sunday school children of the town are eagerly awaiting the annual union excursion. It has been decided to run the excursion to Port Stanley, as was the case last year, and two special trains will carry the excursionists, who will likely number several hundred.

MOON--SPRAGGE

Pretty Warton Girl Becomes Wife of
Woodstock Man.

[Special to The Advertiser.]
Warton, June 24.—The marriage of Mr. James Spragge, of Woodstock, and Miss Laura Moon, took place at the home of the bride's parents, Mr. and Mrs. William Moon, Gould street, at seven o'clock, on Saturday evening in the presence of the immediate relatives only. Rev. Mr. Flagg, of the Methodist Church, performed the ceremony, which had been postponed from the Wednesday preceding, owing to the sudden illness of the groom.

Mr. Gilpin, of Gilpin & Sons' factory, has been very ill for the past week, but is now much better. Mr. George Holland, of the Bank of Commerce, has returned from attending the funeral of his sister, Mrs. Britton, of Gananoque.

Miss Graves, of the high school staff, has gone to her home in London, and Miss Allan to Hamilton. Mr. Bell will remain for this week, examining papers.

The Masonic Lodge went to Trinity Church last night, where Rev. Mr. May preached the annual sermon. Mr. A. Logan, editor of The Canadian Echo, has been ill at home for the last few days.

Arithmetic was very hard for about fifty per cent. of the entrance candidates. Judging from The Advertiser, London candidates will sympathize. Mr. Melvin Mowers is seriously ill.

BRUSSELS.

Brussels, June 24.—Rev. A. C. Wishart, B.A., will take his vacation and visit the West. For the next three Sabbaths Rev. Dr. Murray of Toronto, will occupy Melville Church pulpit.

Last Sunday, in the absence of Rev. Dr. Oaten, at Muskoka, Rev. Mr. Pe-

DOCTOR'S SHIFT

NOW GETS ALONG WITHOUT IT.

A physician says: "Until last fall I used to eat meat for my breakfast and suffered with indigestion until the meat had passed from the stomach. Last fall I began the use of Grape-Nuts for breakfast and very soon found I could do without meat, for my body got all the nourishment necessary from the Grape-Nuts and since then I have not had any indigestion and am feeling better and have increased in weight."

"Since finding the benefit I derived from Grape-Nuts I have prescribed the food for all my patients suffering from indigestion or over-feeding and also for those recovering from disease where I want a food easy to take and certain to digest and which will not overtax the stomach."

"I always find the results I look for when I prescribe Grape-Nuts. For ethical reasons please omit my name." Name given by Canadian Postum Co., Windsor, Ont.

The reason for the wonderful amount of nutriment, and the easy digestion of Grape-Nuts is not hard to find.

In the first place, the starchy part of the wheat and barley goes through various processes of cooking, to perfectly change the starch into dextrose or grape-sugar, in which state it is ready to be easily absorbed by the blood.

The parts in the wheat and barley which Nature can make use of for rebuilding brain and nerve centres are retained in this remarkable food, and thus the human body is supplied with the powerful strength-producing elements noticed after one has eaten Grape-Nuts each day for a week or ten days.

"There's a reason," and it is explained in the little book, "The Road to Wellville," in pkgs. Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

ters, of Milverton, conducted the services in the Methodist Church. Friday evening of this week Brussels Intermediate Football Team will play the closing match in the district at Seaford. Brussels boys defeated Seaford 6 to 0 here last Friday, but do not expect a very such walk-over at the return game, although they hope to win, and thereby be victors of the district.

A number from this locality go West this week, combining business and pleasure.

Rev. D. B. McRae preached the annual sermon to the Orangemen last Sunday afternoon in the Presbyterian Church at Elbel.

A patriotic service will be held in the Methodist Sabbath school next Sunday, at which addresses, readings and vocal selections will be rendered.

Junior League picnic will be held on Friday afternoon at the farm of Rev. Mr. Croly, of Wingham, took the services in St. John's Church here last Sunday.

CIRCUS ELEPHANT REMEMBERED KEEPER.

Greeted Charles Knight, of
Fingal, With Loud Trump-
eting When He Arrived.

St. Thomas, Ont., June 24.—A unique incident occurred at the Ringling Bros. circus when in St. Thomas recently, which demonstrates that elephants have good memories and lasting affections.

When Charles Knight, of Fingal, was passing through the animal tent one of the oldest of the herd of elephants began trumpeting, and the keepers noticed that the animal was trying to flirt with Mr. Knight. The keeper invited Mr. Knight to come in the enclosure, when a mutual recognition took place. The elephant wound his trunk around Mr. Knight's arm, and gave other affectionate caresses peculiar to elephants, for it turned out that Mr. Knight, who is 72 years of age, was for many years in his earlier days attached to P. T. Barnum's circus, and had for years the same elephant in his charge.

It was with difficulty that Mr. Knight could break away from his old friend to see the rest of the show.

DESTROYED BY FIRE

Plant of the Vulcan Foundry Went Up
in Smoke.

[Special to The Advertiser.]
Warton June 24.—Sunday morning at 2:30 the Vulcan foundry, owned by G. Sinclair & Sons, was discovered to be in flames. The alarm was rung and the fire brigade responded promptly, and within half an hour had the fire under complete control. It started in the molding shop, but the cause is unknown. The building, which was a frame one, is practically a ruin. There is, however, some insurance, and the machinery is not thought to be seriously damaged.

WED AT BLUEVALE

Miss Mattie McLaughlin Becomes the
Bride of Young London Man.

[Special to The Advertiser.]
Bluevale, June 24.—A pretty wedding took place at the Farm home of Mr. and Mrs. John McNaughton, on Saturday, when Nettie, their eldest daughter, became the bride of Malcolm S. Aikenhead, London. The bride wore a beautiful gown of cream marquisette, the tulle veil being arranged with orange blossoms and she carried a shower bouquet of bridal roses and ferns.

At high noon the bride entered the parlor to the strains of the wedding music played by the bride's cousin Miss French, of Toronto. The ceremony was conducted by the bride's pastor, Rev. W. J. West, of Knox Church. After a dainty wedding luncheon the bridal couple motored to Brucefield and later will take up their residence in London.

Miss Margaret Himent, of Toronto, is visiting her uncle, Mr. Harry Himent.

A garden party under the auspices of the Methodist Church will be held on the church lawn Wednesday evening, June 28.

Miss Alice Hewett, of Brussels, spent Sunday at the home of Mr. Samway S. Paul.

WALKERTON.

Walkerton, June 24.—Roy Kane, divinity student, son of John Kane, has been appointed to take the services in the English Church, Chesley, for the summer.

Miss Leah Smith, only daughter of Mr. and Mrs. Clarence Smith, was married on Wednesday to Mr. Ed. McConnell, son of Mr. and Mrs. Oliver, of Brant Township.

Mathias Egger, late proprietor of the American House, who was buried recently, left all his property to the Roman Catholic Church.

Death has claimed an unusual number connected with the liquor trade this month, a license inspector, two hotelkeepers, one ex-hotel keeper, and two brewers. The last death occurred last night, being that of John Grainger, brewer. Mr. Grainger died at the age of 71 years. He had lived here more than 40 years. He was an enthusiastic member of the English Church, and a Mason. Mr. Grainger leaves a grown-up family of four sons and three daughters.

Mr. and Mrs. R. Roether are the guests of Mrs. C. H. Rogers.

Mrs. A. Shaw and Miss Shaw left for Winnipeg on Tuesday to spend the summer.

Keep Well This Spring

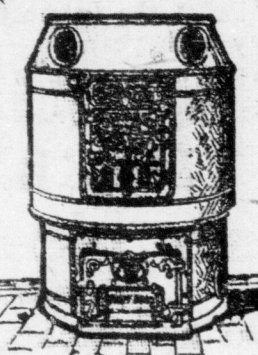

Many people seem to regard sickness as something that must be endured at one time or another. They have got accustomed to drag themselves through misery for weeks every spring, with no idea that all this can as well be avoided by using a true tonic, such as Dr. Chase's Nerve Food.

Why not change all this and be strong and well and happy this spring? Dr. Chase's Nerve Food will help you wonderfully.

This long, cold winter has left your system badly run down. You are sure to suffer these bad effects in the spring unless you afford nature the assistance which is found in Dr. Chase's Nerve Food.

This food cure supplies the elements from which pure, rich blood is formed. The nervous system is nourished back to health and vigor and new energy and vitality is felt in every part of the body.

Jack Frost's Master McCLARY'S "Sunshine" Furnace

Jack Frost had the time of his life last winter. He warred against all elements and froze them stiff. Lakes and rivers he turned into solids; he also put a razor-like edge on the wind. He even bit into steel rails making them as brittle as burned glass. Outside, Jack reigned supreme, but his chilly majesty was licked to a frazzle inside by "The Understudy of the Sun"—McClary's "Sunshine" Furnace.

Think of the past winter when the mercury swung timidly below the freezing point—not for a day or a week, but for months at a time. How you shovelled coal, and how you talked about the appetite of that poor old furnace in the cellar. It simply ate up coal and then fell down when it came to heating the house evenly and comfortably.

McClary's "Sunshine" Furnace makes the most of very little fuel, and distributes a much greater percentage of heat throughout house than the ordinary furnace.

Ashes cannot bank up between the active fire and the walls of the Fire-pot in the "Sunshine" Furnace. It is an absolute guarantee of balmy June weather in the home, when Jack Frost's icy garments are jingling in the Arctic

cold without. That's why the "Sunshine" is called "The Ice King's Master." The "Sunshine" Furnace is an excellent investment—it will last a life-time with ordinary care—and return you a handsome interest on the investment every year by the actual saving it effects. Now, we want you to do us a favor—we want you to call on the McClary agent and ask him to prove every claim we make for the "Sunshine" Furnace—ask him to prove every claim true.

Ask him to show you—The fuel-saving features of the "Sunshine"—The mechanical reasons which make balmy healthy June weather possible in the home when Jack Frost is in his element without—Why the "Sunshine" saves money which other furnaces burn up, and—Why the largest makers of furnaces in the British Empire so amply and so fearlessly guarantee the "Sunshine"—The Understudy of the Sun. Your decision will please us and pay you. If you don't know the McClary agent, write us at our nearest address.

ATTACKED PASTOR

Windsor Man Was Given Six Months
For Brutal Assault.

[Special to The Advertiser.]

Windsor, June 24.—Joe Boulton, a colored race track follower, got very drunk yesterday and picked out Rev. E. E. Thompson, a colored preacher residing on McDougall street, as the subject of an attack, and today was sentenced to six months in jail for his misdirected energy. Rev. Mr. Thompson was knocked down by a savage blow in the face from Boulton, and quite badly disfigured.
