Rain is badly needed throughout this county. Farmers are busy with their hay, and there are many complaints regarding the number of wild daisies this year. The farmers blame this trouble on girls going out to fields and gathering the flowers, and pulling roots and all up. LONDON MAN STARTED

caused a panic in the city Mr. Thomas Treleaven, of the G. T. R. Led the Applause at Port Arthur.

> That a London man was required to start a fitting demonstration for the Duke of Connaught at North Bay on the occasion of his royal highness' visit to that place a few days ago, apafter witnessing a pleasant affair in which Superintendent Treleaven, of the Grand Trunk car shops figured.
> It appears that Mr. Treleaven, who happened to be in North Bay on business, noticed decorations being strung about the depot, and made inquiries as to the reason of the recklessness of of the populace. Upon learning that the duke was about to pass through, he waited for the arrival of the royal party, and was rather surprised that

there was no civic welcome when the train pulled in. The quietness was oppressive, despite the fact that the depot was thronged. The duke appeared on the station platform and still there was no demmon-

Finally, taking the matter into his own hands, Mr. Terleaven threw his hat in the air and gave vent to a shout for three cheers for the Duke of Connaught, that had the desired effect, for in a moment a roar went up that made the air vibrate. The duke speedily replied and voiced his thanks, particularly in the direction of the

Finishing.

[Canadian Press.] Stockholm, July 10.—The stadium began to fill at a very early hour, among the spectators being a large number of British, Canadian and American visitors who had come to watch the running of the trial heats in the 200 metres flat race. In this event, many of the finest sprinters in the world, including run-ners from Canada, the United States and Great Britain, took part, and when the representatives of the respective countries won their trial heats, their admir-ers clapped their hands, cheered or shouted college vells. J. A. Howard, of Winnipeg, gave the Canadians an opportunity to cheer when he won eighth heat from the Italian Giongo. The weight putting was comple early, and as a result the American team added to its total of roints another six, as P. J. McDonald, Ralph Rose and L. A. Whitney shared first, second and third place between them.

A Record Gone.

In the 1,500 metres flat race, A. N. S.

In the 1,500 metres race the judges were unable to decide who was second. Abel R. Kiviat, and Norman S.
