

Now Is the Time to Paint and "HIGH STANDARD"

is the paint to use because it is more economical than ordinary paint---lasting years longer. There is a Paint, Varnish, Enamel, and Stain for every need.

Mellotone

"Soft as the Rainbow Tints"

For Interior Walls

Washable—Mellotone is made to stand a good soap and water washing, and each time comes out fresh and beautiful.

Fadeless—Mellotone colors do not fade. This quality adds to its long life and gives it a special advantage as a background for pictures.

Sanitary—Mellotoned surfaces provide no clinging places for bacteria-breeding dust nor crevices for concealment of vermin. The fact that Mellotoned walls may be frequently washed adds still more to the sanitary qualities of this splendid wall finish.

Artistic—The "soft as the rainbow tints" and velvety flat finish give beautiful decorative effects. Mellotone is admirably adapted to either stenciling or free-hand decoration.

Economical—The splendid covering and wearing qualities of Mellotone make its use an economy.

"HIGH STANDARD" FOR THE EXTERIOR.

Paint economy does not lie in the cost per gallon, but in what the gallon will accomplish. There are many distinct differences between Lowe Brothers' "High Standard" Liquid Paint and ordinary paints but the most noticeable is in the pocketbook.

Five gallons "High Standard" will usually do as much work as seven gallons of cheap paint - and do it much better.

"High Standard" is the highest priced paint on the market, because it is the highest quality, but you require so many less gallons to do your work that the total cost of your paint is really less than if you were buying cheaper goods. It works easier too and your painter can apply it in less time. "High Standard" is thoroughly tested to meet your requirements.

"High Standard" Paint securely seals the pores and sets in a tight, durable coat that gives years of satisfactory protection.
