

MRS. FREZELL IS LEAGUE OFFICER

Women's Catholic Organization Elects London Woman Secretary-Treasurer.

Re-elect All Other Officers at Diocesan Convention in Windsor.

The whole executive of the London Diocesan division of the Catholic Women's League of Canada was re-elected to office by acclamation at a second annual convention held in Windsor this week, with the exception of the secretary-treasurer, Mrs. Joseph Leech, London sub-division president, who insisted that her position should be accepted. Mrs. Leech was only after she had convincingly pointed out that she was unable to carry more responsibility, with her presidential duties, and the role of councillor in the Dominion organization, that the delegates regretfully permitted her to withdraw. Mrs. Joseph Frezell of London was elected her successor.

The executive as it stands is as follows: President, Mrs. Bernard C. McCann, London; first vice-president, Mrs. P. Dunn, Chatham; second vice-president, Mrs. Meehan, St. Thomas; third vice-president, Mrs. Trotter, Belle River; secretary-treasurer, Mrs. Joseph Frezell, Windsor; executive committee, Mrs. Joseph Frezell, Windsor; Mrs. Dawson, Sarnia; Mrs. Woodstock, Fleming, St. Mary's; Mrs. Macdonald, Brantford; Mrs. Hogan, and Miss Le Bon, Tilbury.

Delegates Return.

The London delegates have returned most enthusiastic over the warm reception accorded the convention by the city of Windsor and sister organizations there. Opening addresses of cordial welcome were delivered by Mayor Wilson of Windsor, and Judge Coughlin. The chief address was that of Bishop Fallon, who told of his trip to Rome, emphasizing the interest of His Holiness Pius XI in the Catholic Women's League, and appreciation of what they are doing. Many complimentary things were said. It is stated, of the report of the Dominion convention, given by Mrs. Joseph Leech.

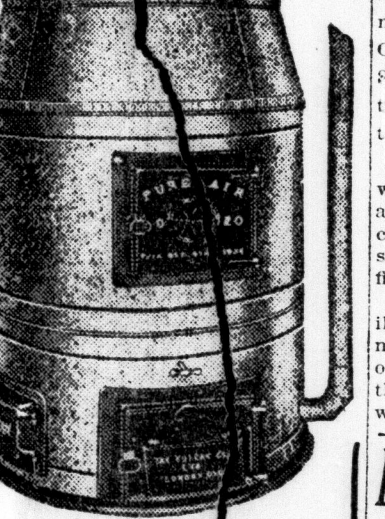

Perform Social Work.

The various sub-division reports, according to the London delegates, revealed most aggressive efforts along social service lines, with emphasis on service to newcomers to Canada from other lands. The policy of the Dominion's organization is to adopt this year, in giving promotion to the Immigration and Canadianization work. One of the most enjoyable features was a dinner tendered the guests, at which greetings were extended from the Catholic Women's League of Detroit by Miss Florence Seymour, from Windsor by W. C. A., by Mrs. Wallace Campbell, by the Municipal Chapter, I. O. D. E., from Mrs. A. D. Bowley, from the G. W. A. Ladies' Auxiliaries, by Mrs. William Brown, the Travelers' Aid, Mrs. George Mussen, the Home and School Clubs, Mrs. H. Whorlow, and others.

TO CONSIDER PARTY FUSION.

HAUL BIG GIRDER TO WESTERN SITE

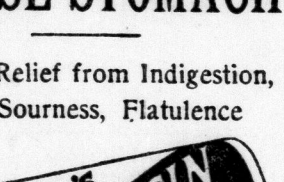

A section of steel which workmen said was half a girder was moved north on Richmond street from the C. P. R. to the new university bridge Saturday morning. A huge transport truck, with a trailer, was necessary to carry the enormous burden.

The girder was one of several which have been built in Toronto, and transported to this city on special cars. About 60 feet in length, the section was said to weigh more than fifteen tons.

There is still another section, similar to the one which arrived this morning, on the way, and the placing of these two girders will complete that part of the structural work, it was stated.

PROMISE SUCCESS OF OLD BOYS' WEEK

Reports and Letters Received Give Assurance of Big Time to Come.

Glowing reports, letters of assurance and many queries, pouring into the office of Edwin Smith, secretary of the London Old Boys' Association, indicate that the Forest City will witness "a high old time" the first week of next August, Old Home Week.

"Letters are coming in every day in reply to notices that we have sent out," Mr. Smith explained Saturday. "The old boys and girls are asking for further information and telling us that they are coming back home next August in greater numbers than upon any other occasion of a similar nature."

The secretary was in receipt of a communication only Saturday morning from Frank Chittick of Winnipeg, son of Squire W. H. Chittick. "He reports that he is glad to hear that we are staging another big event," said Mr. Smith, "and gives assurance that there will be a strong contingent from the west."

Committees and officers appointed to the general meeting of the local association the other night are already busy getting ready for next August.

WILL COMBAT USE OF USED STAMPS

Authorities to Send Mail to "Dead Letter Office."

An epidemic of placing previously used postage stamps on mail matter has again broken out in different sections of the country, according to the latest bulletin of the postoffice department, and postmasters throughout the Dominion are urged to see that every care is taken to refer all letters bearing previously used postage stamps to the branch dead letter office.

The regulations in regard to the treatment of these letters is as follows: "All letters which may be posted having postage stamps affixed thereto, upon which appear to have been previously used are to be postmarked and transmitted to the branch dead letter office, the words: 'Stamp previously used' being written across the face of the letter. Postmasters must be careful not to place date stamp or any other cancellation mark upon a suspected stamp, before sending the article bearing it to the dead letter office, as any new mark upon such stamps tends to deface the marks of cancellation which they bear, and thus destroy the evidence of their previous use."

PROBE BLAST THAT COST LIVES OF EIGHT MINERS

MURKIN, Okla., Oct. 20.—With eight men dead and one additional miner missing as the result of a gas explosion, which wrecked No. 1 mine of the Progressive Coal Company near here today, steps were under way tonight for a thorough investigation of the cause of the blast.

It is believed that a shot fired by one of the thirteen men in the mine to loosen the coal caused the blast.

Another explanation given by the survivors is that the gas became ignited from a lamp worn by Everett Seaton, fire boss of the mine, who was killed by the explosion.

All of the injured are suffering from severe burns, but hopes for the recovery of three are entertained.

Remember, however, that "spying" isn't dressing up some well-worn joke for the occasion. Hundreds of such entries have been discarded to the waste paper basket. It's news that is wanted; something you see, not a funny conversation or an old joke.

If "A. L. T." in Friday's "I Spy" column will call at The Advertising office today or Monday he will be given two tickets to the Grand Theatre Monday.

Hundreds of Forest Fires Menace North Alberta Spruce Timber Area

Edmonton, Oct. 21.—Forest fires have played havoc with the heavy stand of spruce timber in Northern Alberta this summer, says Col. R. H. Palmer, chief forest officer for the northern district. Due to cooler nights, steadier winds and frost the conflagrations have been checked, but hundreds of fires are still burning, and the bill which the Dominion government and the province will have to foot will be very large.

A steady soaking rain, which seems general over the Edmonton district, has checked the fires, but shows no promise of a letup. From May up to the present time 2,500 rural residents have been fighting fire under the guidance of

I STAND FOR PEOPLE —LLOYD GEORGE

Continued From Page One.

pearance perhaps will be deferred until Lloyd George speaks. Some observers anticipate that the rivalry between these champions in the Liberal field will furnish one of the most poignant phases of the political fight.

All the parties are declaring their readiness for the day, and the Liberals say that for them the election cannot come too soon. An editorial in the Labor organ, the Daily Herald, today fulminates against the "guilt of the Tories," whose representatives in Lloyd George's cabinet were, it is said, mainly responsible for the prime minister's "blunders and crimes."

Wage Controversy. In the Sutton division of Plymouth a controversy is raging as to whether Viscountess Astor, who has been a firm supporter of Lloyd George, or the rival candidate, Mr. Bally, shall be the official Conservative representative at the election.

Dr. Bally claims this as his right, as he long ago declared against the coalition and advocated the return of Mr. Bonar Law. He has also been adopted by the section of the Conservatives in Plymouth, who opposed the coalition.

Viscount Astor says it is for the Central Conservative Association to choose the candidate, adding that his wife is recognized as the candidate in the local constituency.

Mr. Lloyd George has been elected to the imperial parliament, was returned in 1919 on the coalition Unionist ticket.

Long before ex-Premier Lloyd George's train started from St. Pancras station for London, where he was to speak today, people began to gather on the station platform, and by the time he arrived there about 300 in waiting around the entrance to his saloon car.

He posed for photographers, who were present in force. There were cries of "Speedy!" "Speedy!" It had not been arranged that there should be anything of this sort at the beginning of his journey north, but Lloyd George acceded to the request for a speech with a sentence or two.

He thanked the people for coming to cheer him on his pilgrimage. Loud cheers were given the former premier as his train moved out of the station. The train was specially chartered by the National Liberal Council.

Lloyd George has a keen desire to visit the United States, and was pleased today when he read news dispatches carrying the announcement of James J. Davis, United States

secretary of labor, that the American president, Woodrow Wilson, had invited him to cross the Atlantic for an extended tour. Owing to the political situation, which has put the Welshman on the war path, he cannot make any definite plans for such a trip at the present time.

Mr. Lloyd George has not yet received the invitation to tour the United States, but he will be glad of an opportunity to go to the United States, as he has never yet seen them. He and Secretary Davis, who is of Welsh ancestry, are old friends. Those close to the retiring premier say he would not mind the journey, but they do not think he could in any event leave Great Britain before next spring.

Tonight he expects to return to London and help Mrs. Lloyd George with the packing preparatory to vacating No. 10 Downing street, the official residence of the prime minister. In accordance with ancient custom he will leave in the house one article of his furniture. Lloyd George has decided to leave his writing desk. He will also follow the custom of leaving some of the wine and liquors in the cellar for his successor.

SCHOOLS WILL NOT SEE COAL SHORTAGE

W. A. Tanner Gets Reports of Abundant Supply for Institutions.

There will be no coal shortage, inasmuch as the city schools are concerned at least, according to W. A. Tanner, secretary of the board of education.

The secretary reports that those dealers under contract with the trustees to supply the various educational institutions are receiving coal at frequent intervals and have been placing it in the schools in substantial quantities from time to time.

One of the dealers has reported that his coal has been increased \$1 a ton and he has been compelled to assess the city that additional amount. He points out that he is not the one who is the gainer by the increased price.

In the meanwhile he is submitting his vouchers at the contract price (\$8), and has been directed by the secretary to bill the board for the increase separately.

Few Students at Western Need Yield Arm To Needle

NOT many of the students at Western University will need to be vaccinated in connection with the ruling necessitating physical examination before engaging in the physical training classes. Such was the opinion of Dr. K. R. P. Neville, registrar at Western University.

Dr. Neville stated that vaccination was no new thing, as far as the university was concerned. It had been compulsory for medical students for 20 years. As far as the course was concerned, Dr. Neville thought that practically all students had been vaccinated.

However, the order is to take care of the exceptions, who may never have been vaccinated.

TO SEND RELIEF TO ANIMALS IN NORTH

Humane Society Plans to Raise Fund to Succor the Dumb Victims of Fire.

Out of 28 cases reported to the London Humane Society Friday, Inspector Tustin handled 23, a feat which kept him busy from early morning till after 11 at night.

A diversity of cases, greater than the average, arose, and the inspector made emergency calls to all parts of the city. Eight cats, all of which were found in a starving condition, were destroyed. On Adelaide street, a dog, run down by an automobile, had to be shot, and a horse was destroyed in South London.

The inspector is also supporting a stray dog which was found under a deserted house with a litter of six pups.

The inspector reports that the society is planning a campaign to send relief to dumb animals in the Northern Ontario fire area, where between 4,000 and 5,000 animals are suffering from want of food and burns and other injuries.

The following appeal was received yesterday by the local organization from the Toronto Humane Society:

On behalf of the suffering dumb animals in Northern Ontario, where fire has destroyed stables and killed the food supplies, I am taking the liberty to ask your society to assist in forwarding funds for the purpose of forwarding hay, medicine and supplies that are so urgently needed.

"This organization has forwarded \$100 in supplies and four carloads of hay to Inspector Ballenger, who is in charge at Haileybury, and Dr. Thompson, veterinary surgeon. Both these men are distributing the supplies and working night and day to save the 4,000 or 5,000 dumb animals which are suffering from burns and starvation."
