The minister of justice in responding to
the toast in his honor, said:
"I am not going to ask for your party
support, but there are so many things
with regard to which we can and will
agree without distinction of party lines
that there cannot but be many instances
in co-operating with whatever party or
whatever man may have the means of
action in their hands. Let us strive to
seek out these things and increase their
number. There will always be plenty
on which we shall disagree, to afford a
wide field for party warfare, and as to
that warfare, let us strive to carry it on
so that it shall not be merely a struggle
for office, for place or for power. It
may not generate personal animosities,
but that it may be a contest be-
tween patriots, differing as to means,
agreeing as to ends and coming out of
the battle with mutual friendships."This is the organization of which

on a charge of theft, Franceses Fal-

Italian, from whom he is said to have
taken \$24 with Antonio Francisco
a Brooklyn, N. Y., policeman. Although
his description tallies somewhat with

police, the authorities here do not place
much confidence in the charge. Up to
late hour this evening no word had been
received at the police station from New
York in reply to the query sent out by
the local authorities. The Italian was
remanded, and returned to jail, being
unable to produce the \$15,000 bail de-

FOR FAR EASTSuveric and Chicago Maru Sail-
ed from the Outer Wharves
Yesterday Morning for the
Orient with Big CargoesBound to the Orient the steamers
Suveric of the Wren line and Chicago
Maru of the Osaka Shosen Kaisha
sailed from the Outer Wharf yester-
day, each carrying a full cargo of gen-
eral freight. The two steamers car-
ried over 8,000 tons of flour, of which
both vessels had heavy shipments. The
Suveric carried 6,880 tons of flour and
the Japanese steamer had 20,884 bar-
rels, valued at \$88,575. The Oriental
liners were to have sailed on Sunday,
but the low barometer and reports of
heavy wind at sea induced the masters
to remain in port until yesterday morn-
ing. Both vessels were filled with
every pound of cargo that could be put
on board and had to shut out some of
the freight offered. The Suveric, which
called here to embark a score of Chi-
nese steamer passengers who were in-
transit from Vancouver to em-
bark, took other than the big flour
shipment 1,570 tons of oats, 2,140 tons
of hay, 325 tons of canned salmon, over
a million feet of lumber and 468
tons of general freight. She had 207
steamer passengers.The Chicago Maru had a cargo val-
ued at \$850,000. The largest consign-
ments were the flour and 7,164 bales of
raw cotton, valued at \$573,120. There
was also 606,620 pounds of canned sal-
mon, valued at \$12,800; locomotives for
Japanese railroads; \$25,000; bellers,
\$15,000; mill machinery, \$8,600; beer,
\$5,776; and automobile parts, \$3,000.
The shipments enumerated aggregate
\$742,371 in value, and in addition, there
is a great bulk of other articles and
goods of less striking significance, in-
cluding bicycles, planes, cross-cut saws,
talking machines and electric machin-

LIGHTING FIREMrs. William Tyler Seriously
Injured When Coal Oil Can
Explodes, Enveloping Her in
FlamesSeriously burned about the entire
body, almost from head to foot, as the
result of the explosion of a coal-oil
can, which she was holding while light-
ing her evening fire in the Klondike
hotel, at the corner of Blanchard and
Johnson streets last evening about 5.30
o'clock, Mrs. William Tyler, wife of
the secretary of the Plasterers' Union of
this city, now lies in the St. Joseph's
hospital in a most critical condition.
Mrs. Tyler was enveloped in flames
at once after the explosion, and had
it not been for the immediate efforts
of her husband, who was in the
room at the time and the daring
work of Mr. McGeath, a young man
in the building, who rushed to the re-
cue, and pulled the burning clothes from
her, she would have probably been
fatally burned. As it is, however,
Mrs. Tyler is in a dangerous condition
and while her recovery is uncertain,
she was doing well at the hospital last
night under the care of Dr. George
Hall.Mr. and Mrs. Tyler live on the ground
floor of the Klondike hotel and had re-
turned to their home shortly before
the accident occurred. Mrs. Tyler pro-
ceeded to light the fire with the coal-
oil can in her hand and it exploded
when she struck a match. The pain
from the burns was most tortuous, but
Mrs. Tyler bravely withstood it.
The Victoria Transfer Co.'s am-
bulance was called and the victim was
hurriedly conveyed to the hospital.G. T. P. Bonds Succeed

Their Royal Highnesses Show Con-
sideration for Waiting Crowd—Shoe
Machinery InquiryOTTAWA, Nov. 13.—Unusual interest
is being shown in the first drawing room
which the Duke and Duchess of Con-
naught will hold. Altogether it is
expected that some 2,000 persons will
be presented, making it a very long
ceremony. Their Royal Highnesses
will be expected to arrive at the draw-
ing room at 7.30. The waiting crowd
has shown much concern over the
arrangement which hitherto has obtained
whereby those awaiting presentation
stood two or three hours in a corridor
so cramped that severe crowding was
added to the fatigue of long standing.
As a result of the pressure brought to
bear by them, more rooms on the Sen-
ate side have been secured, and pains
have been taken to lessen crowding and
to provide chairs.The report sent out from Montreal,
and quoted in some Canadian
and United States newspapers to the
effect that the Borden government
have held up the investigation of the
alleged monopoly of the United States
Shoe Machinery company, is officially
denied tonight by the department.
The falsity of the statement
is abundantly proven by correspondence
on the files of the department. The
fact is that Hon. T. W. Crothers, after
a personal investigation into the
ground and progress of the inquiry, in-
structed Judge Laurendeau to proceed
at once with the investigation. The
department is represented by counsel,
and intends to prosecute the enquiry
to a finish, and the report that any in-
tervention from the department of jus-
tice has taken place is untrue.SEATTLE, Nov. 13.—A wireless mes-
sage from Capt. J. E. Baughman of the
steamship Humboldt, en route from Se-
attle to Skagway, Alaska, tells of the
rescue today of two Japanese fish-
ermen from a power fishing schooner
which became disabled in yesterday's
gale in the Gulf of Georgia. The Hum-
boldt observed the schooner flying a
distress signal and picked up the two
men, who said the rest of the crew had
taken to the boats. The wireless dis-
patch did not give the name of the
schooner or the number of men who
had put off in the small boats.Missing Rembrandt Found.
COPENHAGEN, Nov. 12.—Among the
art treasures of the Castle of Frederiksborg
which have been missing since the fire that
destroyed the building in 1589 was a Rem-
brandt known as "The Holy Knight" or
"The Knight of the Cross," which hung
in the banqueting room. What is believed to
be the missing picture has been found in
one of the lumber rooms of the Royal Castle
of Frederiksborg. Part of it has been cut
away from the wall and is now in an old
frame, but in the opinion of M. Carl Mod-
sen, the newly appointed director of the
National Museum of Fine Arts, the work
is clearly the missing Rembrandt, and it
has been added to the national collection.
The picture represents a knight dressed in
a fur-trimmed cloak of deep red, with a
cross on his right shoulder, and on his
head is a red cap with a white feather. It
is one of the later works of Rembrandt.Famine in Russia.
ODESSA, Nov. 13.—The Imperial govern-
ment has assigned \$100,000 for the relief of
the famine-stricken peasantry in the gov-
ernment of Samara, but it is believed that
a second similar amount will later be neces-
sary to tide the people over the winter.
The neighboring government of Samara and
part of the Orenburg region, where the
famine conditions are nearly as acute
as in Saratoff, are also to receive
considerable relief grants. The local Zem-
stvo have already exhausted their resources
of relief, and government aid on a large
scale is absolutely vital for the safety of
the peasants from starvation. The
famine is due to almost complete failure of
the crops in those regions.IT HAPPENED THIS WAY
