CORRESPONDENCE

To the Editor of THE MONITOR

DEAR SIR: Will you kindly allow me space in your valuable paper to make a few remarks.

An article in The Montreal Daily Herald cites the need of further production to reduce the H. C. L. "No wonder the people cry out in threat and protest when even their increased salaries fail to provide their families with the bare necessities of life." "We must begin with the farm and the soil." "Canada," the article further states "depends on its farms not only to supply food but to pay the enormous War Debt. Our farms must supply most of the wealth to meet these obligations.

The farmer has got to pay it WHY? What about all those big interests who are denuding our forests, lumber companies who are making immense profits. Paup. wood for which the farmer gets six or seven dollars a cord (about a ton and a half) which when manufactured into paper brings an enormous sum per cord (will the editor tell us just what he has to pay?) There are manufacturers of textiles such as the Paton Manufacturing Company and the Dominion Textile Co who admitted at the enquiry into the H. C. L. last June that their earnings had risen from 65% in 1914 to 72% in the case of the former and a profit of 200% of the part of the latter and this after every possible deduction including income tax had been made. And with this in spite of this outrageous testimony the price of textiles are still advancing. All wool goods when you can get it, sells at the way from \$2.50 to \$9.00 a yard. Those of you who read THE WEEKLY MONITOR know that wool last year brought the farmer an average of 68 cts. Now, my kind friends, just weigh your all wool shirt, sweater, or a pair of all wool pants and decide for yourselves who gets the lion's share of the swag. Men's high heavy working boots @ \$12 to \$14 for a child of seven \$4.00. And all this with hides in the green state selling from 15 to 25 cents per pound and tanned leather \$1.10 to \$1.75 per pound. 75 cents would pay for all the green hide necessary for an average pair of boots. Who is getting the benefit of these grossly excessive prices but a dangerous and powerful combine. No wonder the world is filled with Bolsheviki talk! No wonder that the farmer is beginning to wake up and demand some adequate representation in the Legislature. This man who tills 12 and in many case 15 hours a day to provide his family with the necessities of life. Who has few of the advantages luxuries or conveniences of the city worker. This man who cannot set the price on his own goods, nor on the other hand, on the articles needed by him in doors or out. He who has no voice in the matter, and as a class, no representation in the government, has got to foot the bill so that the capitalist who has lived and fattened on the fruit of the farmers' utmost endeavour may continue to pile up his profits on a 50% basis.

At the H. C. L. inquiry last June a manufacturer was asked if he did not think it was due to the people to lower his prices! His cynical retort was, "Our mill was not built for the Glory of God or anybody else, but for the benefit of the shareholders." Profits of 72%. Some benefits! What? ONE LOOKING ON.

TWO RELIGIONS

"A woman sat by a hearthside place Reading a book with a pleasant face. Till a child came up with a childish frown

And pushed the book, saying, "Put it down."

Then the mother, snatching his curly head,

Said, "Troublesome child, go off to bed;

A great deal of God's book I must know

To train you up as a child should go." And the child went off to bed to cry.

And denounce religion—by and by.

"Another woman bent o'er a book With a smile of joy and an intent look,

Till a child came up and joggled her knee,

And said of the book, "Put it down—take me."

Then the mother sighed as she stroked his head,

Saying softly, "I never shall get it read;

But I'll try by loving to learn His will, And His love into my child instill."

That child went to bed without a sigh And will love religion—by and by."

DARTMOUTH MAN GAINS 15 POUNDS

Five Years Trouble Ended and He Works Every Day Since Taking Tanlac

"I have gained fifteen pounds in weight since I began taking Tanlac, and if I had known about this medicine three years ago I would have saved many a dollar to say nothing of the suffering I went through," said Joseph E. Clattenburg, Brenton street, Dartmouth, Canada, recently. Continuing Mr. Clattenburg said:

"My trouble started five years ago with occasional attacks of indigestion, which kept getting worse until I could hardly eat anything at all. For the past three years now I had no appetite and the little I did manage to eat would bloat me up and keep me feeling miserable for hours. I had sharp cramping pains all through my stomach, which would nearly draw me double and I was constantly all the time, my liver was sluggish and I had no energy. My tongue was badly coated and my skin had a yellow, sallow appearance. I could get but little sleep and always felt so bad in the mornings it was all I could do to get up. I was so badly run down that some days I had to quit work and go home and I have often had to lay off from work seven or eight days at a time. Added to my other troubles I had an attack of jaundice and was unable to work for two weeks. I lost considerable weight and my strength was just about all gone. I tried many different treatments and medicines without being benefited but when I heard so many people praising Tanlac I decided to try it. At the time I started taking it I had been off from work for over a week, but before I had finished the first bottle I was back on the job and haven't lost a day since. I have taken six bottles in all and my appetite has improved until I eat as much at one meal now as I did all day before and am never troubled with pains, gas, sour or upset stomach or any other bad feeling. I am not constipated and my liver is in fine shape again. My tongue is never coated and my skin has cleared up to a good healthy color. I sleep well at night, tired sluggish feeling is all gone. In fact, I haven't felt better in years than I do now, but I don't believe I would be able to work to day if it hadn't been for Tanlac and it is a pleasure for me to make this statement."

Tanlac is sold in Bridgetown by S. N. Wear in Middleton by Clifford Mumford and in Bear River by L. V. Harris.

Among the successful competitors in the recent "Egg Competition" conducted in the interests of the "Wesleyan" and "Truro News" and which included participants from B. C. to Halifax, we are pleased to note Wm. L. Foster and Mr. Geo. W. Foster, of Upper Granville.

Smith's Cove and Deep Brook Divisions visited Bear River Division Monday, Feb 23rd. They were treated to a splendid programme and abundance of eats. They went away with a good opinion of the Bear River folks.

THE RESPONSIBILITY OF THE CHURCH

J. Campbell White, LL. D.

I heard one of the most prominent of the missionary secretaries in this country make a speech a few weeks ago in one of our national conventions, a very fine speech, and I heard one of the most prominent laymen of this country say after it was over that speeches of that kind would not lay any burden of Missions upon the Church in a thousand years. We must feel this burden before we communicate it; and if we give the impression, the idea, that the Church is doing very well by giving seventy cents a year for the redemption of the world, it will go on sleeping until we all sleep in death. We are not doing the thing, and that is the first thing we ought to realize; and when church boards give any impression by any appropriation they ask, or any quota they ask, or any assessment they ask, that the churches by giving that are doing their duty, I am very much afraid that it is educating them in falsity unless we ask them for many times what we have asked them yet.

I believe we are confronting today the biggest responsibility that has ever rested upon mortals and the greatest opportunity, if we can only see it in the large, and if alongside of the responsibility we can see our Lord with His resources and take the whole task in His name. However big it is, we ought not to be afraid to ask for 25,000 missionaries instead of 10,000. In the presence of standing armies of 25,000,000 of men to-day, we ought not to be afraid to ask for 100,000 missionaries if we really believe they are necessary in order to carry on Christ's world campaign.

OVER-ACIDITY of the stomach has upset many a night's rest. If your stomach is acid-disturbed, dissolve two or three KI-MOIDS on the tongue before retiring and enjoy refreshing sleep. The purity and goodness of KI-MOIDS guaranteed by SCOTT & BOWNE MAKERS OF SCOTT'S EMULSION 19-2A

BEAR RIVER

(From the Church Chronicle)

All three churches participating in the Interchurch Forward Movement, namely the Episcopalian, Methodist and Baptist went over the top of their objectives. A spirit of mutual friendship prevailed throughout.

The artists responsible for keeping the pictorial phase of the movement before the public deserve praise.

Our hustling Bank manager, Mr. Romans, did much to keep up the enthusiasm by an ingenious arrangement of three cars representing the three churches on a large placard in the Bank window. These cars kept pace with the movement and were a centre of interest during the days of the campaign.

Probably one of the happiest weeks in the history of Bear River was the week ending February 15th. Smiles and good cheer was the order of the week. Let us keep it up.

Bear River suffered in common with other communities from the violence of Thursday's storm. The top was blown off one chimney, the end blown out of a barn, big branches were wrenched from the trees and one or more telephone posts put out of commission. To add to the din and danger at least half a dozen chimneys burnt out. Fortunately there was neither loss of life or other serious damage done.

The steamer Bear River has been ice bound for a number of weeks and by the appearance of the river at present a few weeks more must elapse e'er she proceeds on her way. In the meantime the crew are having a good time. It's an ill wind that blows nobody good.

With the exception of a broken collar bone and a few untimely collisions with terra firma by some members of our community the boys and girls coasting season has passed without any serious consequences. The young people have had a rattling good time.

For the last two months sleigh parties have been the order of the day or night. The B. Y. P. U. went to Digby for their drive Monday evening Feb 9th. The Methodist League went to the same place Wednesday, 18th.

THE RESPONSIBILITY OF THE CHURCH

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.
