MINERAL EXHIBITS.

We are placing mineral exhibits in the offices of the B. C. MINING RECORD at Vancouver and Victoria, and invite visitors and othersto inspect the same. Parties having mines or claims are asked to send in samples of their ores, with full particulars attached, in order to make these exhibits as representative of the whole Province as possible. The samples will be viewed by many passing through Vancouver during the coming season, and the co-operation of parties interested in mining in making a fine exhibit of our mineral wealth will well repay the trouble. All samples sent in to be addressed:—

MINERAL EXHIBIT,

B. C. MINING RECORD,

618 Hastings Street, Vancouver B. C.

Or, 26 Store Street, Victoria, B. C.

MINING PAPERS ON FILE.

The following papers are kept on file at the office of the B. C. MINING RECORD, for the use of visitors who may wish to consult their columns:—

EDITORIAL NOTES.

The British Columbia MINING RECORD has nothing whatsoever to do with party politics. Its sole object to aid in bringing about the rapid development of the mining industry in this Province and anything, whether political or otherwise, affecting this object will be deal with in these columns.

We have more than once referred to the neglect of British Columbia mining interests by the Dominion Government, but our protests, as well as those of contemporaries in different sections of the country, have so far received no attention.

So little has been done for the mining community of this Province that one would almost imagine we had had no member representing our interests, or if we not that he utterly neglected his duty or was unable command the respect and attention to which his position entitled him.

Whatever may have been the cause the fact remains that the mining districts of British Columbia and espectially the Kootenays have been utterly neglected by Federal Government. Take for instance the mail service. The wretched manner in which it is handled by the post office department is a crying the grace, and although nearly every newspaper in country has reminded the authorities over and again of their shortcomings, yet to-day there are few if any, signs of improvement.

Petitions for improvements in our river channels and for the erection of better public buildings in our towns as well as other much needed reforms, have almost it variably remained unanswered, and while half a million dollars or more were being squandered in a useless soin of Parliament not a cent could be spared necessary public works in Kootenay.

Yet the expenditure of money in assisting the develor ment of our mines would have been a good investment on the part of Canada, far better than the thousands are dollars spent on works in the East which to-day which actually lying idle. The amount of treasure which would flow from our mines into the coffers of the minion as a result of development and the increased in culation of money amongst all classes through the petus it would give to trade and manufacturers hardly be estimated. Yet in spite of this—in spite of fact which must be apparent to every thinking man the Dominion Government have practically given us rego-by, and as a result the wealth which should be tained in the country is flowing into the coffers of Unck Sam.
