Religious News.

The Basel Missionary Society has published some figures which throw light upon the frequently touched question, how much the native Christians contribute toward the support of the preaching of the Gospel among them.

On the Gold Coast, Africa, the Society has been at work now eighty years and the native Christians numbered 21,663 in 1907. These contributed about \$13,000 for church purposes during the year, or more than \$1.50 per member, while the contributions in 1902 were just a little over \$1.08 per member. Thus there is a pleasing increase of contributions, although the Basel Society expends yet almost five times more in the country than the native Christians contribute.

In Kamerun, where the Basel Society commenced work twenty-one years ago, 7,068 native Christians gave about \$2,250 in 1907, while the Society expended thirty-eight times more money for the whole work in Kamerun. However, in comparing the contributions of native Christians in the two places the reader should remember that the cultivation of coco brings much money to the people on the Gold Coast, but none to those in Kamerun, and that the work in Kamerun is almost sixty years younger than the other. In general, we believe the figures mentioned above prove a remarkable liberality in native Christians, who receive very little actual money after all.

Robert Hart has recently said that of his fifty years spent in China, during the first forty-five he felt as though he was in a close

room with every door and window tightly shut, but the last five made him feel as one occupying a room with every window and door open and the breezes sweeping through from every quarter of heaven. Comparing what Mr. Mott found a few months ago in China with the state of things when he visited it twelve years ago; then there were 200 miles of railway, now there are 4,000, and 4,000 miles more projected; then the telegraph-wires had gone to a few provinces, now

there is a network of them all over China; then there were no modern post-offices outside the foreign legations, now there are 2,500, and they are being opened at the rate of one a day. Six years ago, when in Japan, Mr. Mott noticed a few Chinese students in his audiences, but there were then less than 20 in that country; now there are several thousand Chinese students in Japan, the future leaders of the proudest nation under heaven coming from their seclusion to sit at the feet of their conquerors to learn the secret of their greatness! And they are in America also and in Great Britain; he himself has met 25 at Yale, 30 at Cornell and 40 at the University of California.—C. M. S. Review.
