STATIONERY, MARINE, PORTABLE, AND LOCOMOTIVE BOILERS.

Simple, Reliable and Durable. Every Injector
Guaranteed for Two Years.

Range, 25 to 150 lbs., and is the only Automatic Injector
in the world that can be operated by opening one valve, and
that the overflow. Can have a pipe connected to conduct
the overflow to tank or sewer. The only Injector having a
Signal Valve to show when the Injector is working; all
other boiler feeders not having this cannot be connected to
return the overflow to tank or sewer.

OUR PROPOSITION:

As every Injector is tested before it leaves the factory,
we know that if properly connected (as in diagram) and
instructions are carried out, they cannot fail to work. We
therefore offer to pay the expenses of any man to come
to the factory, and \$25.00 per day while there if the
Injector does not work, provided it has not been misused.

As the body will last for years, it is only necessary to
order working parts to make injector good as new. Every
purchaser can repair his own Injector without sending it to
the factory.
