

Caribou Hunting

THE season for big game hunting is almost over, though you have not been able to profit by it owing to the numerous demands upon your time; nevertheless, you are reluctant to let the year go by without firing a shot at game out of the new rifle. Well, there is time yet, for in most of the Canadian provinces caribou are lawful game until the middle or end of December, and the best time to hunt them is while the snow is yet so shoal that snowshoes are not required.

Take with you a good modern rifle—for the shots on the barrens are sometimes long ones,—plenty of heavy, warm clothing, and a sufficiency of currency to pay your way, and if you are a dyed-in-the-wool sportsman there is a good time ahead.
