

"If the charge of chemical is not maintained this system will be a nuisance."

It appears to be the best system we have seen described for localities in which there is not a water supply for flushing. The Education Office is anxious to have reports from schools which may test the system ; for the problem is one of the most difficult to solve satisfactorily in rural schools. Trials so far made appear to give satisfaction.

Further information, with prices, can be obtained from Eagar, Coombs & Co., Ltd., Halifax.

The Kaustine Waterless Toilet Installed.
