LEATHER BELTING

You all use more or less Leather Belting, and are naturally interested in knowing where to get the very best article—that which will give you the least trouble either in stretching crooked or tearing at the lace holes.

F. E. Dixon & Co.'s Union Tanned Belting runs straight and easy on the pulleys, is thoroughly well stretched and cannot be surpassed for strength and durability. Send for discounts. Our hand-book on leather belting mailed free on application.

THE CANADA JUTE COMPANY LIMITED

15, 17, 19 AND 21 ST. MARTIN STREET, MONTREAL

Toronto Agent : FRANK T. BARR, 48 Wellington Street East, Toronto

THERE is no chance to sell any Canadian flour to Newfoundland till the Canadian millers bring enough pressure to bear on the Government to settle the difficulty between the two countries.

Duty on Canadian flour, \$1.05 per barrel.

Duty on American flour, .30 per barrel.

There is no reason why this quarrel should be kept up.

IMPROVED SINGLE PILLAR DORMANT

Warehouse  
or Hopper

SCALE

With Cut-off Lever

With . or . without  
Drop . Lever

DOUBLE PILLAR SCALE is much cheaper than the Double Pillar Dormant, but is equal to it both in strength and accuracy. All the strain and leverage is centred directly on the pillar instead of leaning on the cap piece as in the two pillar scale, thus effecting a saving of two iron pillars and heavy cap piece required in the double pillar pattern. It has an advantage over double pillar in that a Drop Lever may be used to let down the platform when not in use.

It is more accurate than the ordinary Single Pillar Dormant Scale as the cut-off lever removes half the pressure which in the ordinary scale causes straining and deformation of the beam, and thus the beam of new scale works more freely and indicates more correctly. Each weight at beam joint weighs twice the weight on platform that it does on the ordinary scale.

The removal of so much strain and pressure prevents the parts from breaking or wearing so quickly, and the improved scale will be found to be much more durable than the ordinary scale.
