

IT IS A BEAUTY!

The Diamond Point Fountain Pen is the finest pen in the market. It is also the cheapest. No one would part with it or use any other after giving it a trial. It is always ready and never leaks. With care it will last for years.

Who would not have a perfect pen, ready for use at a moment's notice, one that has been fully tested, writes beautifully, making penmanship a genuine pleasure?

It is a perfect equipment of pen and holder, (the above cut represents its actual size). A marvel of beauty, never allows the fingers to be soiled, may be carried about with you at all times.

Those who have used a good fountain pen know its value and would not be without one for many times its cost. This is a good one. Those who have never used one should not hesitate a moment. It is a chance you may never get again. The manager of the REVIEW has been looking for months for a premium that would be

useful, valuable and beautiful. He has found it. He has tested this pen and found it entirely satisfactory. It is guaranteed for one year.

Remember it is a 14 karat Solid Gold Diamond Point Fountain Pen, manufactured by a superior process, with box, filler and directions with every pen.

This Pen is **GIVEN AWAY** to those who assist in circulating the REVIEW, and this is the easy way you can obtain one:

Every Subscriber who pays a subscription one year in advance from date (including arrearages, if any,) and at the same time sends us the names of two new subscribers, paid in advance, will receive this beautiful pen, **FREE**. A new subscriber sending us a year's subscription in advance with two other subscriptions, paid in advance,—in all three dollars—will receive the pen **FREE**.

Trustees, Parents or friends in your neighborhood will help you to secure this useful article, and you will get their co-operation in your work by getting them to subscribe for and read the REVIEW. Address

\$500 IN SCHOLARSHIPS!

Many bright students in these Provinces have not the opportunity to take a college course. To meet their case the following scholarships to be known as the

Educational Review Scholarships

are offered:

1. \$150 to the one securing 500 paid subscriptions to the REVIEW.
2. \$125 for 425 paid subscriptions.
3. \$100 " 350 " "
4. \$75 " 275 " "
5. \$50 " 200 " "

None but those who are able to bring undoubted testimonials as to honesty, ability and industry will be allowed to compete.

Students may have territory allotted to them in the important centres throughout Canada. Only one will have the right to canvass in each centre. Those who apply **FIRST**, if their testimonials are satisfactory, will be given a choice.

AND THEN READ THIS

These Scholarships are tenable for one year, but any candidate who secures one will have the right to secure renewals of said subscriptions every year for four years.

Thus the one obtaining the \$150 scholarship may by a few weeks canvassing during vacation season in the following years secure renewals, or make up in those failing to renew by new subscriptions. An income of \$600 will be thus secured for the four years, and the same advantage is attached to each scholarship.

Is not this a great offer?

It only requires a vigorous effort at first.

No offer like this has ever been made by a Canadian Journal.

Examine the REVIEW and you will see that it is just the paper to help you secure a scholarship. Address
