

# Solarchem Enterprises Inc.

## Export Contact:

Mr. Peter Smith  
Vice-President, Marketing

130 Royal Crest Crt.  
Markham, ON  
L3R 0A1

Tel: 416-477-9242  
Fax: 416-477-4511

## Products

AIR POLLUTION CONTROL  
WATER AND WASTEWATER

Air Pollution Control  
Groundwater Treatment  
Leachate Treatment  
Ultraviolet Light Oxidation Systems  
Water Pollution Control

## Company/Product

Solarchem Environmental Systems is one of Canada's pre-eminent companies in UV-based oxidation and advanced photochemical technology for environmental applications. Its highly qualified staff is dedicated to the development, manufacture, and marketing of advanced environmental protection and remediation processes. Patented and proprietary processes are incorporated in the Rayox system, which is best suited to wastewaters in which the influent concentration of organics is 10,000 ppm or less. This technology offers practical and economical solutions to enable a wide range of users and waste generators to meet increasingly stringent environmental, safety, and quality requirements.

## Current Geographic Marketing Activities

Over 80% of sales are exported, mostly to the United States, to the chemical, oil and gas, explosive, aerospace, and other industries which discharge wastewaters. While the majority of the systems are in the USA and Canada, Rayox systems are also installed in Europe, Southeast Asia, and Australia.

## Contact Sought

Solarchem would like to identify potential representatives/licensees in Northern Europe and Pacific Rim countries, and investors/partners who are currently well-established in the organic air emissions control business with a view towards cooperative marketing of Solarchem's technology.
