DISEASE IS DUE TO UNHEALTHY CATTLE

Hon. Martin Burrell Repeats His Assertion That Bovine Tuberculosis Causes Deaths of Children, and Also Is the Direct Cause of Much Consumption Among Adults.

That not only were twenty per cent. of the deaths from tuberculosis of children under five years of age directly attributable to bovine tuberculosis, but that in a great percentage of the cases among adults the tuberculosis bacilli from milk had entered their system when children and had not taken effect until a number of years afterward and thus not attributed in the records as due to bovine tuberculosis, was the contention made by Hon. Martin Burrell, minister of agriculture, in an address to the Holstein-Friesian Association of Canada at the fifth annual banquet last night.

The minister of agriculture stated that in view of the criticism which had been made of the Dominion Government's action in making it necessary to purchase some groceries, upon entering the house again she heard the screams of her little girl. She rushed upstairs to find the child enveloped in flames.

As the water pipes in the house had been frozen, it was necessary to run down to the street for water. When the flames were finally extinguished, the little girl was so badly burned that she could not recover.

Wainwright Succeeds Fitzhugh

MONTREAL, Feb. 5.—(Can. Press.)—At a meeting of the directors of the Montreal Southern Counties Railway, held today, the resignation of E. H. Fitzhugh, president of the line, was accepted, and a new president, William Wainwright, elected.

Mr. Fitzhugh's resignation completes the severance of his relations with the Grand Trunk interests.

Mr. Wainwright has been for many years a vice-president of the G.T.R., and was one of those mentioned to succeed the late C. M. Hays. There was no other change in the executive. W. B. Powell, who has long been vice-president and general manager, retains that position.

Fair Directors in Session

MONTREAL, Feb. 5.—(Can. Press.)—The delegation of the Toronto City Council which was in Montreal today on a visit of inspection left late in the afternoon for Ottawa. The object of the visit was to inspect the filtration system of the Montreal Water and Power Company, with the idea of getting first-hand information of certain improvements which Toronto is to make in its system of filtration.

The delegation, headed by Mayor Hocken, was entertained by the City of Montreal with a luncheon at the St. Regis, at which Mayor Lavallee presided. The gist of the speeches was that, if Montreal and Toronto were rival cities, they were rivals for the building of great corporations and for the development of a common country.

Aldermen Saw Montreal System

MONTREAL, Feb. 5.—(Can. Press.)—The delegation of the Toronto City Council which was in Montreal today on a visit of inspection left late in the afternoon for Ottawa. The object of the visit was to inspect the filtration system of the Montreal Water and Power Company, with the idea of getting first-hand information of certain improvements which Toronto is to make in its system of filtration.

The delegation, headed by Mayor Hocken, was entertained by the City of Montreal with a luncheon at the St. Regis, at which Mayor Lavallee presided. The gist of the speeches was that, if Montreal and Toronto were rival cities, they were rivals for the building of great corporations and for the development of a common country.

Postmen Victims of The Women's War

DUNDEE, Scotland, Feb. 5.—(Can. Press.)—Five postmen were burned this evening several of them quite seriously, by the combustion of chemicals contained in letters. One of the postmen on returning from his evening collection of mail from the public letter boxes emptied his bag on the sorting table at the postoffice. The contents instantly burst into flames.

A large number of the envelopes contained tubes of phosphorus and other highly inflammable chemicals. They were addressed to Premier Asquith, and the sheets of paper within were inscribed: "Justice for Women."

Burglar Caught While Trying to Escape

Discovered while ransacking the premises of the Central Business College at Leg Avenue and Queen Street last night, Arthur Stickler made a desperate attempt to escape. Felled in his purpose, he attacked Fred Swann, caretaker of the building, with a carpenter's chisel and inflicted serious injuries.

Before he could leave the building Stickler was captured by Constable Reecer and locked up on a charge of shopbreaking and wounding.

The college leases a suite of rooms above the Dominion Bank premises. Swann therefore watched both the bank and the school.

When making his rounds he detected a slight noise on the second storey. Investigation showed that the lock on the stout door, leading to this floor, had been cut out.

Swann entered the rooms and found Stickler bending over a desk. The young man tried to rush the caretaker so as to reach the stairs. The two came together, falling to the floor. It was here that Stickler wielded the chisel.

Called for help, the officer rushed to the entrance to the building and started to ascend the stairs. Stickler had got the better of the caretaker by this time.

He started for the street and met the policeman on the stairs. The young man stepped to one side, shouting to the officer that someone was being done to death upstairs.

Not so easy, Reecer, however, was not so easily fooled. He seized Stickler and took him up to the college again. There they found the watchman badly hurt, but able to charge Stickler with shopbreaking and wounding.

The accused is about 17 years of age. It is said that he was formerly a pupil at the school. He lived at 2354 East Queen Street.

Dr. Young attended Swann, and had him conveyed to his home at 98 Kenilworth Avenue.

Turks are in Abject Misery

LONDON, Feb. 6.—(Can. Press.)—The Daily Telegraph publishes a long, unencensored despatch from its correspondent, Ellis Ashmead Bartlett, at Constantinople, in which he says that the Turkish people are in such a state of misery and destitution as a result of the war that they are completely indifferent as to the fate of Adrianople.

"The cabinet is in a quandary," says the correspondent; "it knows that it will be compelled to cede Adrianople and is only seeking some means to save its face. It is said that the coup d'état was only intended to occur after Khalil Pasha surrendered Adrianople, but was precipitated by some mistake. Hence the difficulty the ministry now is in."

"There is not a cent in the treasury and there are no means of getting money until peace is concluded, and meanwhile the country is drifting to ruin and bankruptcy."

"A great anti-war demonstration occurred Sunday in front of the war office, at which the Young Turks were publicly denounced as murderers and thieves. Mahmoud Shekiet Pasha appeared on the balcony and tried to make a speech, but was greeted with opprobrious epithets."

"Indescribable Misery. The misery in the Turkish camps is indescribable. It is bitterly cold, with a heavy snow; the soldiers are ill-fed and badly sheltered. Smallpox, dysentery and pneumonia have replaced Asiatic cholera."

"It is understood that the force at Tchatalja has been reduced to 120,000, which is considered ample to defend the lines. Large reinforcements have been sent to Gallipoli, where there are now 70,000 men. There is talk of landing a force in the neighborhood of Rodosto, to outflank the Bulgarians, but such a scheme is impracticable in the present state of the Turkish organization, the army would starve the moment it attempted to leave the coast."

"From a military and economic standpoint Turkey's position is hopeless. Nothing can prevent even worse misfortunes except immediate acceptance of the inevitable."

Gallipoli Chief Objective of Bulgars

LONDON, Feb. 6.—(Can. Press.)—The Bulgarians are devoting their chief attention to the bombardment of Adrianople and to an attempt to capture the Gallipoli Peninsula and so take the Turkish forts in the rear. An official despatch issued at Constantinople indicates that the Bulgarians have been successful in their first operations in the latter quarter, and according to a Sofia despatch, the capture of Gallipoli is the chief objective of the time being, and no attempt will be made to force the Tchatalja lines.

The same despatch says that the Bulgarian attack in Gallipoli is supported by the Greek navy in the Gulf of Saros. Fifty thousand Bulgarians were landed along this coast last November, and it may be presumed that during the armistice this force was strengthened by artillery.

Should the Bulgarians capture the Turkish forts, there is nothing to prevent them from capturing Constantinople.

Jurors Unable to Fix Blame

An open verdict was returned last night by Coroner Dr. G. G. Rowe's jury, investigating the death of James Mitchell who was fatally crushed between two freight trains at Mimico last Saturday.

The jury added a rider stating that owing to the unsatisfactory evidence and the condition of the chief witness they were unable to arrive at any conclusion as regards negligence.

H. A. Cameron, the other brakeman on the train, testified that he was standing on one of the cars which were being coupled. Mitchell offered to assist him with the brake, but he warned the latter to be careful. Mitchell disregarded this caution, according to the witness, and stepped between the couplers with the result that he was injured and died upon reaching Toronto.

10,000 Wounded in Janina

LONDON, Feb. 6.—(Can. Press.)—An Athens despatch to The Telegraph says that three prominent citizens of Janina who escaped to the Greek lines assert that there are 10,000 wounded in the town which would have surrendered but for the influence of the Austrian consul.

A Constantinople despatch to The Telegraph says that the Bulgarians have retired from Tchatalja and have made their headquarters at Tcherkeskeul.

Drive Turks Beyond Seas

SOFIA, Feb. 5.—(Can. Press.)—Gen. Savoff, commander of the Bulgarian forces, has addressed an order to the army declaring that the Turks object throughout the negotiations, was merely to gain time but that the Bulgarians utilized that time to far greater advantage.

"We are now entirely ready, in a better state of preparedness than before the declaration of war," says the general. "and in order to break the enemy's resistance finally we shall have to overthrow him once more and scatter his hastily-mustered and untrained hordes. We must hurt him to the ground and on the battlefield indicate terms of peace. The Turkish must be driven beyond the seas."

An Opera that Made a Million Dollars

"The Chocolate Soldier," that will be presented by the F. C. Whitney Opera Company at the Princess Theatre next week, is said to have netted Mr. Whitney over a million dollars. The sale of seats begins this morning.

Dr. Young attended Swann, and had him conveyed to his home at 98 Kenilworth Avenue.

Girl is Found After Two Days

After the authorities had practically searched the whole city for her, Pearl Raymer, aged 16, was located by Detective Alex. Murray last night. The girl escaped from the Children's Aid Society on Simcoe St. two days ago.

Since then the city detectives have received word from Buffalo of the theft of \$3000 worth of jewelry. The police there suspect the girl of being the thief.

When caught shoplifting in Eaton's the girl stated that a fashionably-dressed woman had brought her from Detroit, promising to take care of her. She was sent to the Shelter on remand.

Pretending that she desired to take a bath, Pearl fooled the attendants and dropped from a window in the institution, making good her escape.

Detective Murray was assigned to the case and last night found the girl in rooms over a barber shop on West Queen Street, in the company of a young man.

The Buffalo police will be notified.

City Will Grant Bonus of One Hundred Thousand Dollars—Double Track Viaduct

ST. CATHARINES, Feb. 5.—(Special.)—That the Canadian Northern Railway has definitely abandoned its intention of following the mountain from Beamsville east to the Niagara River for its route from Toronto and Hamilton was definitely shown here today, when Vice-President Hanna agreed in a conference with the city council to build into the central section, and there erect a large modern station, the city to grant a bonus of \$100,000.

In consideration of this the company agrees also to build a double-track railway viaduct, with two vehicular driveways across the old canal, and bear the expense of the approaches, etc. This proposition received the unanimous approval of the council, and it is expected that the ratemakers will vote upon it at an early date. Mr. Hanna was accompanied by George C. Shaw, general traffic manager, and W. P. Chapman, resident engineer, Toronto.

Fight to Keep Railway Shops

BROCKVILLE, Feb. 5.—(Special.)—The Brockville town council and board of trade have united in signing a strong memorial to the minister of railways and canals, the board of railway commissioners for Canada, the Ontario legislature and the Ontario railway board, protesting against the proposed removal of the G.T.R. shops from Brockville.

The memorial goes into considerable detail showing the claims of Brockville for the retention of the shops, the injustice of the removal and the specific objections to the change. The memorial makes out a strong case for Brockville as a corporation and for the individual employes affected by the removal.

Trotting and Pacing Should Be Controlled by a Canadian Commission

The Canadian Standard-bred Horse Association at their annual meeting held here yesterday, went on record as favoring that the trotting and pacing racing in Canada be controlled by a Canadian national association. The statement was made that the amount of money given in the Dominion for trotting and pacing purposes during 1912 was about \$500,000, considerably more than for any other line of sport.

Dineen's Prices for Furs

The weather invites a purchaser to furs irrespective of the price. But Dineen's have the prices at a figure that is alone sufficiently inviting. Dineen's prices make furs an out-of-season investment. Early in January, when the weather was mild, the prices of Dineen's furs were reduced, and these reductions are still in force. If you are at all interested in furs visit the Dineen display rooms, W. and D. Dineen Company, Limited, corner Yonge and Temperance streets.

THE OLD LADY: Do I get the new pail from you, James, or do I ask Brother Rowell for it?
