Chicago, Sept. 14.—Columbus Hall over the last chart previously written for a spot shipment. Australian wool, it comes the roundabout way of London, and the Montreal or Toronto manufacturers have to pay toll to the comhousemen and other intermediaries, besides the extra cost of freight incurred in sending to add to the apple trade the export of the wool twice the necessary distance. The continental buyers, who formerly also paid this toll, do so no longer, having now established their own agents in these colonies, to attend the sales at the wool exchanges at Sydney and Melbourne. There is nothing berries are worth from 2d. to 23d. per lb., berries are worth from 2d. to 23d. per lb, sydney and Melbourne. There is nothing to prevent Canadians doing the same, and the saving of middlemen's profit effected by thus bringing producer and consumer together would more than compensate for the excess of the cost of land haulage over that by sea, involved in the three thousand miles of railway between Vancouver and the manufacturing centres.

FRESH AND CANNED MEATS.

FRESH AND CANNED MEATS. The marvellous extent to which sheep raising is carried on is due to the fact that the sheep graze in the pastures all the year ound, and these pastures being securely enced, the cost of attendance has been refenced, the cost of attendance has been reduced to only a nominal figure. The animals are valued only for the wool they bear, and consequently when by reason of the immense natural increase there has to be slaughter to keep the number down to the capacity of the pastures, the carcases, or the sheep for alaughter, are said as the stranger to be an absurdly low figure. It is a common thing to sea yourse. The torse of transportation across the Pacific of the stranger to be an absurdly low figure. It is a common thing to sea yourse. figure. It is a common thing to see prime mutton offered in the retail stalls at three or four cents, per pound, but even at these low prices there is a home demand for only a fraction of the meat. Carcases fully equal to the mutton commonly sold in other of exceptional value for many ornamental to England, where they arrive in condition as perfect as on the day of freezing, a profit-able trade of this kind has opened. This success in the English market makes it cersuccess in the English market makes it cerline with British Columbia, where now great quantities of sheep and mutton are imported from the neighboring States and sold at a price above that the state of t line with British Columbia, where now great quantities of sheep and mutton are imported from the neighboring States and sold at a price above that at which prime Australian mutton can be regularly delivered. By placing their orders judiciously, Canadian importers may make sure of getting only the choicest meat, as the best people in the trade here take every precaution to preserve the good name of their export. When a sheep is killed, the carcase is not frozen unless the meat appears to be of the very first class. If not choice in every part, the carcase is put aside, and the best pieces the carcase is put aside, and the like, it is hoped to find some sale in Canada.

The fellowing list of exports to the Unit the States, but the Unit the States, but the Unit the States, but the list is not discovery that the Carlson, Sept. 14.—Simulation one of the mencouncement that "Dan" Coughlan, one of the mencouncement that "Dan" Coughlan, are taken for canning, which also is the par pose to which the second grade of sheep are put. The third grade are, after the removal \$1,500; chocolate and cocoa. \$100; coal,
