AN OUTSIDE WINDOW AWNING TO PROTECT THE SLEEPER
LYING IN BED WITH HEAD PROJECTING FROM WINDOW.

For Economy and Health

get out into the fresh air with a stylish, up-to-date, tailor-made suit, made to your measure for you and you only. It will outwear two of the other kind, and keep its appearance to the end—
THAT MEANS ECONOMY.

Have your clothes made by the Custom Tailor in your own locality, where you can satisfy yourself that the workrooms and employees are clean and healthy—

**THAT MEANS SMALL
RISK FROM INFECTION.**

McKINNON & CAMERON,
Merchant Tailors,
SYDNEY, N.S.

P.O. Box 212.

(344 Esplanade.)

"It is estimated that one public drinking cup may do damage that will keep a dozen White Crusaders on the move for months. The tuberculosis bacillus has been known to live a half year where there was shade and moisture. Thirsty patrons of the public cup, when it comes their turn to drink, may be reasonably sure that a tuberculosis patron has lipped the rim not many minutes or hours before."—*State Board of Health, California.*
