Appeals to Power - Britain Stands by While Russia Pours in Troops,

NEW YORK, Jan. 10 .- Out of the angled web of diplomacy, plot and counter plot that has wrapped it about for centuries, the Persian government has raised its voice in appeal WITH FIRST-HAND NEWS

to the whole world, an appeal for what it styles justice against England and Russia. The first cry reached this country to-day with a document of stxeen thousand words, bearing the seal of the empire and the full signature of Mostofe-El-Manalik, president of the council. It is addressed to the American people, thru H. H. Topakyan, 'Persian consul-general at New York.

Obstacles Thrown in Her Way. In brief, the Persian government states that, thru a loan made to it by Russia some years ago, and which it has found itself unable to repay, because England and Russia have thrown every obstacle in the way of repayment, it is almost helpless and unable to maintain order in certain provinces where Russian troops and unable to maintain order in certain provinces, where Russian troops have been quartered to enforce collectection. England, it is charged, expressly agreed that no other than civil means would be used for collection, yet now stands idly by while Russia pours regiments over the borders.

The presence of these foreign troops has aroused Persians to fury. Three provinces have been thrown into revolt. Russia and England have demanded that the disorders be represented.

pay the cost, and Russia, it was addcontemplated similar measures. The declaration follows months of unrest in Teheran, and repeated outbreaks also threatened invasion, apparently jealous of the Russian and British movements, and Persia was threatened, and for that matter is still threatened, on three sides.

Several Unaccounted For and May Have Perished -Cincinnati's Second Great Fire,

CINCINNATI, Jan. 10.-Entailing & oss of more than one million dollars, this city suffered it's second great fire within three weeks, when the Chamber of Commerce Building at Fourth and Vine-streets was destroyed tonight, adjacent property damaged, a dozen firemen injured, and possibly lives lost.

While several firemen still are unac counted for up to a late hour, reports of fatalities among firemen and spectators who were caught in the wreckage of the collapsed roof have not been confirmed. It is known that there were a large number of employes at work when the fire started.

The Cincinnati Stock Exchange and

The Cincinnati Stock Exchange and the Louisville & Nashville Railway offices, both of which contained records almost invaluable, were consumed in the conflagration.

Only the bare walls of what was Cincinnati's most magnificent architectural building remain. The building had a valuation of \$1,000,000, while the fixtures in the various offices were valued at \$50,000.

at \$50,000.

The stocks of several business houses in the block were damaged, but the fire was confined to the Chamber of Commerce Building.

Commerce Building.

Fully five thousand persons were crowded directly outside the fire lines when the roof collapsed. Smoke and flying sparks ffiled the streets for two squars, and a panic followed. Men and women fought to escape, and many were trampled in the rush. Many sustained bruises and cuts, but no one was reported seriously injured.

Owing to the density of the smoke, the police were powerless to cope with the situation for fully ten minutes, and nearby office buildings were turned into hospitals for the injured and shelter places for the panic stricken.

FOUR FIREMEN HURT.

SYRACUSE, Jan. 10.—Fire at an early hour this morning destroyed a large four-storey brick building and damaged an adjoining building, causing a boss estimated at \$60,000. Four firemen, caught in a back draught, were rushed to hospitals in serious condition.
