

# Take Dr. Ward's Blood and Nerve Pills.

## They Cure Heart, Nerve and Blood Troubles, and fill the system with Vigor and Vitality.

### FOR THE NERVES. FOR THE SYSTEM.

"My daughter has for eight years been a great sufferer with nervousness, anemia or weak blood and sleeplessness, caused by inflammatory rheumatism. She was so nervous that the least noise startled her, and her blood was so impoverished and thin that her hands were like a dead person's hands. She had no color and was very thin. When having her oft-repeated nervous attacks her heart action was terribly weak, causing difficulty in breathing. She had tried very nearly everything, and nothing did her such immediate good as Dr. Ward's Blood and Nerve Pills. They have helped her wonderfully, making her nerves stronger, enriching her blood, giving her strength, enabling her to get natural sleep, restoring healthy color and building her up. They are a sure and quick strength restoring medicine for physical and nerve weakness. (Signed),

"JAMES BENOR, Campbellford, Ont."

My system was entirely rejuvenated by the use of Dr. Ward's Blood and Nerve Pills, and I consider them a marvellous strength and nerve builder for dyspepsia. I was so sick and miserable that I seemed to have no life or energy left in me. I suffered so at times that I thought death would be better for me. I had tried doctors and different kinds of medicines, but all failed to do me any good. I am in every way now a well woman and have been for months. Before using these pills I was so sick that I could not keep anything in my stomach. I was under the opinion that dyspepsia could not be cured, but now I am satisfied it can be cured, for I am able to eat like any healthy woman and feel better in every way. They have built me up also—I now weigh several pounds more than I ever did before. In conclusion, I would advise every woman afflicted with poor digestion to give Dr. Ward's Pills a trial. MRS. L. E. WATSON, Port Colborne, Ont.

### FOR THE BLOOD.

Gentlemen,—I have for a long time needed something to make blood and build up my system. My blood was watery and thin, lacking strength and vitality, consequently I was weak and nervous. Last January a friend said: "Why not try Dr. Ward's Blood and Nerve Pills? They will supply the oxygen your blood needs and give you health and strength." I told him I was very skeptical as to any benefit that could be derived from any proprietary medicine, and had no faith in them. There the matter rested until four months ago, when, reading so much about what Dr. Ward's Blood and Nerve Pills had done for so many people with impoverished blood, I concluded to give them a trial. I have taken four boxes and my unbelief, so far as Dr. Ward's Blood and Nerve Pills are concerned, has been entirely removed. They are a splendid blood builder and strength restorer, and an invaluable medicine for weak, enervated people. This has been my experience, they having given me strength of body and strong healthy blood. Dr. Ward's Blood and Nerve Pills accomplished this great result notwithstanding the fact that I was greatly prejudiced against all proprietary medicine, including Dr. Ward's Blood and Nerve Pills. They, however, stood the test, accomplished the good they are recommended for, and I am fair enough to give them credit for the same.

(Signed), PETER LAWRENCE WHYTE, 988 Queen Street West, Toronto, Ont.

All good druggists can supply you; if they can't we will by mail. Price 50c per box, 5 boxes for \$2.00. THE DR. WARD COMPANY, Limited, Dept. W., Toronto, Ont.

Dr. Ward's Blood and Nerve Pills are sold at 50c per box, 5 boxes for \$2.00, at druggists, or mailed on receipt of price by THE DR. WARD COMPANY, Limited, 71 Victoria Street, Toronto. Book of information FREE.

### MASSEY HALL TO BE TAXED

Council Passes the "Final" Grants for the White Elephant on West Queen Street.

### SPENCE AGAIN AFTER LENNOX

Proposition to Put Up a Gas Plant on the Island—How That \$5000 Went—Civic Topics.

The City Council had a big day's business before them yesterday and they battled with it until the approach of dawn. Of the whole day's weary sitting the new City Hall estimates took up a good four hours, with no changes worthy of the time spent. After the solemn midnight hour they got at Massey Hall and refused to exempt it. There were voluminous communications and a wealth of reports.

Some four letters, chiefly of protest, were the result of Aid. Woods' solicitude respecting specified wages for work on the contract for the supply of firemen's summer clothing. The controller had placed the lowest possible price at which it could be done without loss at \$15.00. In defence of their price, \$14.00, McCarthy & Co. confessed they wanted the contract for the "ad" that was in it. One James O'Hara praised Aid. Woods. Crawford Bros. claimed that their price, \$16.00, was the lowest possible consistent with union wages. Malcolm McEln, who was down in price to \$12.45, would not go further than observe the 15-cent bylaw. If other specifications were called for respecting wages, he would withdraw. He said that many tailors preferred to be non-union, and that keeping them out of the pale was taking a living from those who were not enjoying the fattened calf.

**Sewage Disposal.** Aid. Hanlan's solicitude about an early solution of the sewage disposal problem was admired but Aid. Burns told him how reports had been obtained on the matter last year. The Mayor advised the author not to injure Ontario's chances of a harbor grant by contracting the statements made at Ottawa by the denunciation that sewage disposal was being considered. Aid. Crane dissented from certain nasty names that Aid. Hanlan called his native element, the bay, and the matter dropped, to rise, when?

**Who Gets the Position?** Upon the acceptance of W. T. R. Peck's resignation from the Board of Health, Chairman Crane of that Board had it cut and tried to dry it by replacing him by Aid. R. H. Graham. But Aid. Gowankow moved Aid. Spence, and to avoid a protracted battle the matter was left over.

**Aid. Spence's Irony.** Just here the Mayor took occasion to express pleasure at seeing Aid. Spence backed and he gave Aid. Spence a chance to vent his spleen. He thought of the thought of the freeze-out in respect to appointments they had given to a sick man in his absence. With irony as poignant as any liquor the alderman abhors, he thanked them for putting him on the Harbor Trust. But he was plain spoken.

about Aid. Hanlan, who had denied for his own advancement, a request that Aid. Spence be allowed to take ex-Aid. Byrne's place on the Works and Property Committee. "I will not work on committees left over after others got what they wanted," he said, "but he would do his best on the outside."

**The C. L. A. Convention.** The Reception Committee will decide whether to grant \$250 for a C.L.A. convention reception here on Good Friday, as requested by W. T. Jennings. Perhaps chief in importance was his statement, as secretary of the accounts of the Toronto and Hudson Bay Railway Commission in reply to Aid. Sheppard's enquiry. Summarized it reads as follows:

General expenses	388.30
Cash in bank	215.80
Cash on hand	1,352.63
Expenses re charter	1,300.00
Expenses re explorations	1,300.00
Expenses, Mayor, chairman and party	200.00
Total	\$5,000.00

Mr. Jennings' fees are divided thus: General fee as secretary, \$400.00; Exploration fees, \$1,300.00. Total, \$1,700.00.

But in addition to this is about \$100 in expenses. The only incidents of note outside of this were small bills paid for the day and a Blackie newspaper. To Aid. Lynd it appeared like too much for the money. He questioned what the findings had given in return. Said the Mayor: "An absolutely reliable report."

Mr. Jennings, in a further letter, showed some disquietude respecting an article in yesterday morning's World, referring to the C. L. A. and the Metropolitan Railway Co. The substance of what he said was that he whitewashed himself of any connection with the C.L.A.

"If I hold the position of Consulting Engineer to the C.L.A.," he argues, "it is manifest that I should not have been secretary of the James Bay Commission."

"I give the whole matter so far as any Canadian Pacific Railway connection, any railway or any other matter, is an equal, equal deal. But even this the consulting engineer I am doing the engineering business of the Metropolitan Railway Co. so far as looking to the correctness of the mode of construction and certifying to the accounts on behalf of those who are interested, and who, so far as I know, are not connected in any manner with the C. L. A. Co."

**Gas on the Island.** The Consumers' Gas Co. wrote in response to numerous and late applications for a gas supply on the Island. They claim that the building of a separate plant on the Island would be to their preference to extending the city main across the West-end channel as had been proposed. With the latter plan "the supply would be liable to interruption. But even this the consulting engineer I am doing the engineering business of the Metropolitan Railway Co. so far as looking to the correctness of the mode of construction and certifying to the accounts on behalf of those who are interested, and who, so far as I know, are not connected in any manner with the C. L. A. Co."

**Want a Higher Price.** The letter goes on: "The only alternative would be for them (the company) to charge a higher price for gas—say, \$1.75 per 1000 feet—but this, they think, would not be desirable, as \$1.50 has always been the figure named, and at the higher price it is not likely that the company could secure a sufficient number of consumers to make the investment even a moderately profitable one. In any case, it is expected that a loss will be sustained during the first few years of operation."

**The New City Hall.** The reply of the City Treasurer to his enquiries respecting the new City Hall finances, and the report had from Lennox and the committees, estimating the requirements to finish the building, afforded fodder to Aid. Spence to ramble upon and wind up the concluding half-hour before 6 o'clock in a decidedly characteristic and reminiscent return to the attack on the architect.

The enquiries and replies from the City Treasurer, mentioned above, were as follows: Total expenditure to Jan. 1, 1919? Ans.—\$1,973,880.55.

Appropriations not expended at same date? Ans.—On awarded contracts, \$81,320.33; on unawarded contracts, \$45,550; total, \$127,870.33.

Total amount at credit to architect on account of fees or commission at said date? Ans.—\$46,000.

Total amount of interest accrued on debentures to Jan. 1, 1919? Ans.—\$234,809.80.

Total amount of interest now annually accruing on debentures? Ans.—\$78,874.72.

Amount annually required for interest and sinking fund for debentures? Ans.—\$90,715.13.

**It Was Like a Former Speech.** The circumstances were parallel and the Mayor not unlike that of the alderman's arraignment of a year and a half ago. In amendment to Aid. Sheppard's amendment to take up the report in detail, he moved to have the whole report referred back. He stated that he had been asked to have the furniture included in the estimate. The framework of his argument was that the furniture of the old hall was good enough for the new, and that it was not an architect's business to buy desks, tables and chairs.

**Lennox Led Them Astray.** "The Council," said he, "had been led on by practices that any honorable man ought to be ashamed of. Estimates were given to him by the architect, and he was asked to have the furniture included in the estimate. The framework of his argument was that the furniture of the old hall was good enough for the new, and that it was not an architect's business to buy desks, tables and chairs."

**Inspection of Beef.** The Board of Health will consider, by motion of Aid. Denison, the advisability of having a closer and more careful inspection of our beef cattle delivered or fed within the city limits, as well as of beef delivered in working city and killed outside.

**"12th" and Civic Holiday.** On motion of Aid. Woods and Frame, the free use of the Exhibition Grounds was granted for the 12th of July.

**To Kill a Protection Scheme.** At this point Aid. Saunders moved for a resolution and abandonment of any agreement between the city and the Steamship Company people, or, practically, for the abandonment of the High Park entrance scheme. But it required suspension of the rules, and by demand of certain Ward 6 aldermen a vote was taken. Council declined to suspend the rules, and the necessary two-thirds majority. The vote on suspension stood: Yeas—Aid. Burns, Lynd, Woods, Saunders, Duff and Frankton; Nays—Aid. Denison, the Mayor, Crane and R. H. Graham—32.

**The Mayor, in pursuance of an announcement, was away conferring with Hon. Mr. Tarte respecting the harbor grant.**

**Committee they then took up the estimates for the City Hall completed in detail. The most-objectionable to luxury, were those down for the Mayor's office. They came down the Mayor's office from \$850 to \$300.**

**Economists v. Expansionists.** They struck off the \$1000 added to the

5000 for clock, and, in addition, stipulated that the clock should have an illuminated dial.

The next morning was over the Board of Control's \$5000 item for electric light plant. The architect was desisted by Aid. Spence, who, giving as his excuse a desire to get matters in order to branch out on broader lines of street lighting, supported the civic plant.

The architect and expansionists struggled over every item, but the latter always won. It was slightly after 11 o'clock when they had finished, and Aid. Denison moved to get authority for the issue of debentures to finish the Hall. Aid. Spence, however, got your authority from the Legislature, and then, if you wish, an expression from the people. The motion was ruled out.

**Aid. Sheppard moved to place an additional \$20,000 on for architect's additional fees.** (He has already received \$46,000.) The motion was ruled out.

**Aid. Spence followed his old tack, moving to refer back the report to eliminate all the architect's expenses, and also to denounce the architect of the fees entailed by the duty of supervising the installation of the clock.**

**Lennox Led Them Astray.** "The Council," said he, "had been led on by practices that any honorable man ought to be ashamed of. Estimates were given to him by the architect, and he was asked to have the furniture included in the estimate. The framework of his argument was that the furniture of the old hall was good enough for the new, and that it was not an architect's business to buy desks, tables and chairs."

### STORMY SCENES AT MADRID

When Senor Silveira, New Premier, Made His Initial Appearance in the Senate.

### AND THE DECREE OF DISSOLUTION

Could Not Be Heard for Shouting—Similar Scenes in the Chamber of Deputies.

Madrid, March 6.—The new Cabinet has been well received by the Conservatives and business world, but the Democrats and Republicans denounce it as representing the most ultramontane section of the Conservatives. The Weylerites are violently opposed to the Cabinet, and stormy times are predicted. The elections to the Cortes will take place in April next.

A number of repatriated soldiers made a demonstration at Valencia yesterday evening. They marched through the streets, headed by a banner inscribed, "Long Live the Army" and "We are Hungry!"

The Young Conservatives met last night in their club rooms, Yonge-street Arcade. A resolution was passed censuring the Local Legislature's action in introducing a resolution regarding Senate reform, claiming that the action, if not beyond the power of the Government, was at least uncalled for and was done for the purpose of assisting the developing mining resources of the Province. The resolution was proposed by E. M. Dumas and seconded by John Kane. The debate was discussed by Col. Belcher of Southamilton, Messrs. A. F. Campbell, C. A. S. Boddy, A. H. McConnell, C. A. Brown, J. Rogers, Joseph Bloom and R. S. Burrows.

The Demon Dyspepsia—In olden times it was a popular belief that demons moved invisibly through the ambient air seeking to enter into men and trouble them. At the present day a demon, dyspepsia, is at large in the same way, sending his minions in those who by careless or unwise living invite him. And once he enters a man it is difficult to dislodge him. It is that finds himself so possessed should know that he should do battle for him with the unseen foe is Parmalee's Vegetable Pills, which are ever ready for the trial.

**Wants \$2000 Damages.** Louis Armstrong was last week acquitted in the Police Court of stealing \$18. He is now suing Henry Richards, Thomas Motive and Mary Metcalf for \$2000 for alleged false arrest and malicious prosecution.

**When the children are hungry, what do you give them? Food.**

**When thirsty? Water.**

**Now use the same good common sense, and what would you give them when they are too thin? The best fat-forming food, of course.**

**Somehow you think of Scott's Emulsion at once.**

**For a quarter of a century it has been making thin children, plump; weak children, strong; sick children, healthy.**

50c and \$1.00, all druggists. SCOTT & BOWNE, Chemists, Toronto.

### Wise People Take Ward's.

"Down With the Jesuits" and cheers for the Republic and for Liberty. The session was closed in a general uproar, the members having to drive the public from the floor and the platform of the Chamber.

### AMUSEMENTS.

## STRENGTH TO THE WEAK MEN!

Say the word. Let me show you what I have been showing men for over a quarter of a century, the true road to health. The remedy I offer will serve you faithfully without danger.

**DON'T USE DRUGS** During my early years of practice I gave prescriptions to weak men. I know better now. For thirty years I have been treating those peculiar nervous symptoms which result from youthful errors or later excesses, such as drains, impotency, lame back, varicocele, etc. From so vast an experience I can usually offer men, single or married, valuable advice. Reader, I wish it was within my power to show every weak man what wonderful results I am getting from my famous appliance, the

**DR. SANDEN ELECTRIC BELT** and suspensory attachment. It is a never-failing restorer of strength if used properly.

**Free Book** Write for little book, "Three classes of men," which explains all, and is sent in plain sealed envelope, free, or if you desire this city drop in and consult me free of charge. I give all correspondence personal attention. Do as I say.

**DR. C. T. SANDEN, 140 Yonge Street, Toronto.**

Write or call to-day. Office Hours—9 to 6. Sundays—11 to 1.
