WEEKLY REVIEW.

Trade was conducted in a lively fashion at the markets held here the past week, as the buyers seemed anxious to make purchases without any bartering about prices. The feature of the week's business was the increased prices paid for hay and oats. Many reasons are assigned for the big increase in the price of hay. The principal reason is the short crop of this season. Just now the light supply is attributed to abundance of work on the farm, as the harvest was later.

Toronto, Oct. 23.—The run at the city cattle market today was 105 loads, with 1,800 head of cattle, 2,446 sheep and lambs 900 hogs and 150 calves.

With a very heavy run of over 100 cars today at the city cattle market, on top of a large run at the Junction yards yesterday, trade was slow for a large proportion of the light rough cattle that offered too plentifully this week. For good quality cattle the market holds steady to fair. It was said, in fact, that the choicest butcher cattle were higher today than the same quality of cattle last week. For the commoner stuff, however, there was a decidedly draggy tone to the market. The bulk of the trading today was for the best feeders, for which there is still a very active demand. A large Shares bought and sold Private wire system of Bartlett, Frazier & Carrington, members New York Stock Exchange, Chicago Board of Trade, etc.
H. C. BECHER. is still a very active demand. A large proportion of the feeding cattle offering, proportion of the feeding cattle offering, however, in very poor condition, do not fetch the prices quoted as the top prices for cattle of fair to good quality. The market for choice butcher cattle is steady at \$4 to \$425, and for anything extra choice as high as \$440 to \$450. Choice export cattle are quoted at \$475, the top, but there were no \$475 cattle in the market today, though as high as \$5 was paid for a small lot of choice exporters yesterday.
