British Premier Hastens To Paris; Will Try To Calm Storm

TWO ARE DROWNED AT 100 STOCK

MAGDONALD WILL CONFER TOMORROW WITH M. HERRIOT

French Officials Confident Misunderstanding Will be Cleared Up.

ARE OPTIMISTIC

Paris and London Plan a United Front for Inter-Allied Meeting.

(By United Press.)

Paris, July 7.—Premier Ramsay MacDonald is hurrying to Paris to straighten out a misunderstanding that has arisen over a proposed inter-allied conference on the experts' plan.

The British Premier notified Herriot he would arrive here at 4 p. m. tomorrow for a conference.

The French were bitter because MacDonald invited the powers and outlined a tentative agenda without first submitting the text of the invitation and programme for France's approval.

London, July 7.—(By H. N. Moore, United Press.)—The unfortunate misunderstanding which swept through Paris on Saturday and caused such grave alarm through the sudden application of the British memorandum which accompanied the British invitation to the powers to attend a conference in London to take the first steps to put the Dawes report into force is gradually disappearing today.

Consultation with the Dominion High Commissioners are being arranged in order to discuss the form which representation should take. It is believed that in most cases the Dominion's commissioners will agree to the British proposal.

Paris, July 7.—The French foreign office declined to comment on the sudden decision of the British Premier to come to Paris. Officials refused to say whether it was on his own initiative or in response to an invitation from his French colleague.

Government circles have been much exercised as to what might happen in the Senate tomorrow. The Government organs are particularly severe today on the opposition press which gave publicity to the British memorandum and emphasized the contradiction which French policy thus far and with French public opinion which the memorandum embodied.

Paris, July 7.—(Canadian Press.)—The Paris and London governments are working assiduously to build a united front before the convening of the inter-allied conference of the powers which tomorrow the French diplomatist representatives will receive a memorandum in which the Premier will define clearly the views of his Government for communication to the powers which are to attend the London conference.

Official circles maintain optimism, confident that the divergencies between the French and British viewpoints are

Two New Moons to Be Seen This Month

Peterboro, Ont., July 7.—Two moons appearing in the sky in one month is an augury of ill, according to a dispatch from Oromesa, and July is the month. COOLIDGE, JR., IS FIGHTING FOR LIFE

Is Hovering at Death's Door—Hope For Recovery Slightly Increased.

(By United Press.)

Washington, July 7.—A blood transfusion given Calvin Coolidge, Jr., late last night failed to aid him and this morning the boy was near death.

Physicians prepared as a last resort to give him an infusion of saline solution in a desperate effort to strengthen his own blood to fight the creeping poison in it.

Following the transfusion Calvin rallied slightly but during the early hours today he suffered three sinking spells, when the spark of life almost flickered out.

At dawn he was extremely low, recognizing no one.

Washington, July 7.—(By Canadian Press.)—After a night during which the patient was said to have been near death in three separate sinking spells, Calvin Coolidge, Jr., son of the President, suffering from septic poisoning, was still fighting bravely for his life early today with his safe passage through the early morning hours, giving slightly increased hope of his recovery.

TROOPS IN ONE OF BRAZILIAN STATES STAGE REBELLION

MILITARY LAW

Casualties Believed Inflicted in Street Fighting on Saturday.

(United Press Staff Correspondent.)

Rio de Janeiro, July 6.—(Sunday, Delayed)—A section of the army of the State of Sao Paulo rebelled against its officers early on Saturday, seized public buildings and caused considerable excitement before order was restored by Federal troops over Saturday and today.

The movement apparently started because of dissatisfaction in the ranks at the decision of the Sao Paulo State Government to renew its contract for a French military mission which has been instructing and reorganizing the State's military forces for the last three years.

Troops in several barracks gathered quietly in the early hours and started a parley with the State Government.

The officers backed by Governor Carlos de Campos and the Federal garrison, refused to yield to the rebels' demands and there was some street fighting Saturday.

A dispatch to the Government organ, Jornal de Commercio, here today says the insurrection has been subdued.

Martial Law Declared.

The Federal Government, however, has declared the State of Rio de Janeiro and the State of Sao Paulo.

Rail communication between Rio de Janeiro and Sao Paulo, the second city of the republic and the centre of Brazil's great coffee industry, has been taken over by the military and public telegraph prohibited.

The military has assumed control of telephone and telegraph communications. All dispatches in Rio de Janeiro up to early today indicate that the Federal and State Governments have the situation well in hand.

The army and navy both remain loyal.

Journal de Commercio, which is owned by Foreign Minister Felix Pacheco, says that the senate and chamber of deputies have called on President Arthur Bernardes, pledging their loyalty and cooperation.

Casualties Feared.

While there is no mention of casualties in the British official despatches outlining the situation, it is feared there may have been some losses of life, as a despatch to the Gazette de France, from the time of their landing in France in the spring of 1918 until after the armistice.

WILL SIGN CONTRACT FOR TWENTY YEARS

National Hockey League Clubs in Session, Agree to Stick Together.

Montreal, July 7.—Following a meeting of the National Hockey League here over the week-end, it is announced that the clubs comprising the league, the Canadiens of Montreal and the Ottawa, Hamilton and Toronto clubs, agreed to sign a contract binding them together for 20 years.

The feeling of the meeting was that those who carried professional hockey through its dark days should stick together. Under the agreement none of the individuals or clubs will be allowed to take part in any other professional hockey venture without the unanimous consent of the other clubs.

New York clubs were not represented but it is anticipated that at least one New York team will be admitted and that there will be a second team in Montreal, thus making a six-club league. Two applications for membership were received and deferred to the next meeting.

SENDS CABLE FOR NEWS OF BELVEA

A. W. Covey Asks Mulqueen About St. John Oarsman.

Friends of Hilton Belyea, Canada's Olympic sculling representative, who was forced out of the Diamond Sculls competition last week by an attack of acute neuritis, are becoming worried as no word has been received from him direct since the arrival of a cablegram last Wednesday.

A. W. Covey, president of the M. P. A. A. U. of Canada and Maritime member of the Canadian Olympic committee, announced this morning that he had cabled P. J. Mulqueen, manager of the Olympic team, at Paris, France, asking for information about the West St. John oarsman.

Mr. Covey, who acted promptly in this matter, said he expected to have a reply late this afternoon or this evening. "The Canadian Olympic committee," he said, "now has charge of Belyea as the arrangement was that the committee would foot his expenses from July 1. Mr. Mulqueen, therefore, should know where Hilton is and if he will be in shape for the Olympic sculling races which commence next Sunday."

In a letter dated June 25, Hilton, writing to Mrs. Belyea, expressed the utmost confidence in the outcome of the Diamond Sculls event, as he then had no thought of being out of the race. He reported that both his sprained wrist and a slight cold he had were coming along fine. He wrote that he was well down to rowing weight and was cutting down his diet. Of his competitors, he had very little to say, mentioning that Berezford appeared to be the most dangerous. As events turned out, Berezford would have proved the biggest hurdle as the Englishman won the event easily and now goes to France to represent England in the Olympics.

Hilton wrote that he left France on June 24, arriving at Henley the next day. He said he was compelled to borrow money to pay his passage. His shell, which had been damaged by French customs officials, was delivered to him that morning by Sims and he planned on giving it a thorough testing. "The river," he said, "was very much swollen and there was talk of calling off the dogs, but arrangements to draw off some of the water were completed. It would mean, however, he wrote, that the oarsmen would be compelled to row on a heavy stream."

"It's the kind that just sits me," wrote Hilton.

ABRAHAMS EQUALS OLYMPIC RECORD, BEATING PADDOCK

Americans Score First Victory When Taylor Wins 400 Metre Hurdles.

TODAY'S RACES

Hester, Canadian Sprinter, Fails to Qualify for the 100 Metre Final.

(By HENRY L. FARRELL, United Press Staff Correspondent.)

Paris, July 7.—The first American victory in a final Olympic event was registered this afternoon when G. Taylor, Grinnell College, won the 400 metre hurdles, scoring ten points for the United States.

Olympic Stadium, Colombes, France, July 7.—(Canadian Press.)—The nations got together their athletic forces here this afternoon to start a fight to overhaul Finland, which held a commanding lead for the Olympic track and field championships as the second day of the competition began.

Ideal weather conditions prevailed. Despite the promise of a day of competition riddled yesterday for thrills the huge stands were sparsely occupied. Less than 2,000 persons were present shortly before the opening event, the 100 metre semi-final.

A. Porritt, New Zealand, qualified in the first semi-final heat of this event. Others who qualified were: Jackson Scholz, United States, and Loren Murchison, United States.

The time of the first semi-final heat, was 10 4-5 seconds.

Hester, of Canada, Nicol of Great Britain, and de Grele, of France, failed to qualify.

The second semi-final in the 100 metres was won by Harold Abrahams, the British star, who uncorked a brilliant burst of speed in the last 50 yards, beating Charles Paddock, and Chester Bowman, the United States entrants. The two Yankees finished second and third, however, thus putting all four United States sprinters in the semi-finals. Time 10 3-5 seconds.

The United States Olympic fencing team this morning went into the semi-final round by defeating the Swiss team. Great Britain, Holland, Cuba and Switzerland, with two defeats each in the second round, were eliminated so that only the United States, France, Spain, Belgium, Portugal and Italy remained in the team competition.

Breaks Jump Record.

Robert Legendre, of Newark, N. J., in the Pentathlon, broke the world's record for the broad jump with 7.76 metres, equivalent to 25 feet, 6 inches. This performance insured him first place in this event. His jump bettered by three inches the former world's mark of 25 feet 3 inches held by E. O. Gourdin, of Dorchester, Mass.

F. Morgan Taylor, United States, won the finals in the 400 metre hurdles. Although the Scandinavians carried away the honors at the opening of the games yesterday, the athletes of the Anglo-Saxon countries expect to harvest most of the points this afternoon.

The finals for the 100 metre dash are almost certain to constitute a battle between the British and United States athletes, who, with three and six points respectively, have a great margin to go. The British, however, are favored to win by a narrow margin.

By tonight Great Britain hopes to replace Sweden in second position. This hope of the supporters of the British is almost certain to be realized.
