Mike McTigue Hurls Defi at Gene Tunney  
Light Heavyweight Champion Will Give Loughran Another Bout Then Hopes to Meet the American Titleholder.

New York, June 30.—Mike McTigue has tossed the gauntlet and a verbal shot at Gene Tunney, the American light heavyweight champion. The conqueror of "Batling" Sid is back in town, his Irish anger highly aroused, and, like a good Irishman, he is talking fight. According to the light heavyweight champion of the world, he is planning through his manager, Joe Jacobs, to take on Tommy Loughran within the next two or three weeks, and he is ready to do business with Gene Tunney just as quickly as the match can be arranged.

"I see," says the bold Mike, "where Billy Gibson is sending out press matter and accusing me of being afraid to fight his man, Gene Tunney. They know I am not afraid of Tunney, but I am afraid of these New York decisions. However, having seen Tunney in action recently I am ready to take a chance with Tunney right here in New York. All they have to do is to show me satisfactory terms and they can have action just as soon as they want it. Let Gibson get busy. I have already called on Tex Rickard and requested him to get busy on the match."

Jacobs, in explaining McTigue's poor showing last Monday night at Philadelphia, said it was the first time in four months that Mike had fought and it took him several rounds to get warmed up. He declares Mike was going strong in the last two rounds and had Loughran in distress. Jacobs stated that a return match with Tommy Loughran had been practically clinched for the middle of July at the New York Velodrome and that Tex Rickard had been instructed to get Tunney as soon as possible.

Both sides having had their say it is hoped they will say the rest with boxing gloves.  
Tex Rickard stated yesterday that according to the ruling of the State Athletic Commission in relation to the Penny Leonard-Charley White argument the lightweight champion must carry out his contract with him (Rickard) after the fight on Monday night. Rickard said he would hold Leonard to this ruling and expected to put on the Leonard-White match at Boyle's Thirty Acres some time in August.

SAINTS AT HOME; VETS IN MONCTON  
Baseball on St. Peter's Park Today With Promise of Lively Contests.

Teams of the Two-I League will be busy today and on Monday as double headers are scheduled for all with the exception of Fredericton. This afternoon St. Peter's and Quincey are booked to appear on St. Peter's Park at 8 o'clock and again this evening at 10 o'clock. The probable choice of pitchers for these contests were announced by the managers as follows: Nolan and Hansen in the afternoon contest; "Lefty" Strecker and King in the evening. King is a new twirler secured by Ford and he is reputed to be a classy boy artist. This morning the G. W. V. A. team left for Moncton where they are booked to play two games today. On Monday they will oppose the Quincey team in two games on St. Peter's Park, while the St. Peter's boys are booked to go to Moncton to play two games one in the morning at 10:30 and the second in the evening at 6:30. Owing to the revision made in the standing as a result of the action of the executive at their meeting last evening there should be a great fight for position among the teams over the week end.

Prohibition in Danger.  
(Toronto Globe)  
Judging by campaign speeches and editorials, prohibition did not appear to be an issue in the Ontario campaign. Mr. Ferguson's earlier utterances gave hope to the "wet," but he drew back and succeeded in subordinating the question. Yet, judging by the after-election talk in Toronto, there is a general expectation that Mr. Ferguson will do his best to make it easier to obtain intoxicants, and that the result of the campaign will be a check, if not a defeat, for prohibition. Mr. Ferguson succeeded in satisfying prohibition Conservatives by assurances which did not drive away his "wet" supporters. Probably the attitude of the latter was of this kind: "Ferguson was obliged to say these things to satisfy the fanatics. That is all. We don't blame him for it. But we know that at heart he is our friend and will do something for us."

The result was that the prohibitionists did not regard the question as an issue, while the anti-prohibitionists did. Mr. Ferguson obtained a solid conservative support and also a solid "wet" support, and this in part accounts for his large majority in the House. The result, of course, cannot be taken as expressing the opinion of the people on prohibition, for the advantage was all on one side. But it is an indication that a stern fight is ahead. The enemies of prohibition are encouraged by Monday's election, by the Manitoba referendum, and by the repeal of the State enforcement law in New York. They expect help from Mr. Ferguson and his party in the

Legislature and will press for amendments to the law. If Mr. Ferguson resists they will point to the fate of Sir William Hearst as a warning. The lesson, as we have already pointed out, is the need for preparation and organization by the friends of the Ontario Temperance Act. The evidence on their side is overwhelming. Against the disreputable incidents, which are inseparable from the enforcement of the law they can show enormous material and moral benefits; in money spent in comforts for the family instead of in the demoralization of the breadwinner, decrease in crime, street car passengers free from the nuisance of drunks, the substitution for saloons of bank branches and stores supplying necessities and comforts, a general increase in the productive capacity and intellectual power of the community. But it will not do to take anything for granted. The case must be presented clearly and strongly, and brought home to the community, not by generalities, but by specific facts and arguments which can be easily understood. Monday's election is a whole some warning showing how the issue may be befogged. That must not happen if prohibition goes to the electors for their decision.

MAY ASK RECOUNT.  
Brantford, Ont., June 30.—The official count of the North Brant elections by Returning Officer Eddy of Brantford, showed the Hon. H. C. Nixon had been re-elected by a majority of 56 votes over Mayor J. M. Patterson, of Paris. It is understood that Mr. Patterson will ask for a recount.

\$5,000,000 RICKARD ARENA PLANNED

"Greatest Amusement Centre" to Occupy Car Barn Site—Will Seat 26,215—Call for 26-Story Office Building.

New York, June 30.—G. L. (Tex) Rickard, boxing promoter, John Ringling, circus owner and associates expect to settle the matter of title to nearly a whole block at Fifth Street and Seventh Avenue within a stone's throw of Times Square, where they plan to erect what they describe as "the largest indoor arena in the world." The land which is now occupied by the car barns of the New York Railway company, is bounded by Fifth and Fifty-first Streets, Seventh and Sixth Avenues.

The arena, together with a 26-story office building which will form a part of the proposed structure, and the land will sit in the neighborhood of \$5,000,000, according to information given by one of those interested in the project. Four of the largest banking groups in New York are ready to underwrite the enterprise, it was said.

Negotiations for the car barns site have been under way for several months. Difficulties in closing the deal have been due to complications of reversionary. Any change in title to the property is subject to the approval of various groups of bond holders, especially the 4 per cent. group.

The arrangements have been discussed by the representatives of bondholders' committees and the Rickard-Ringling group have not been disclosed in detail to Job E. Hedges, Receiver, who explained last night that the sale of the property would have to be approved by Judge Julius M. Mayer and that there were several other steps to be taken before the present owners to the New Madison Square Garden Corporation.

Not to Quit Garden.  
The purchase of the site and operation of the arena and office building will be handled by the recently formed New Madison Square Garden Corporation. The papers of incorporation of the new organization were filed with the Secretary of State at Albany on May 31, when there was much speculation regarding the future plans of Rickard, Ringling and their associates.

There were rumors that Rickard and Ringling, holding a lease on Madison Square Garden with still eight years to run, would scrap the old Garden and build a bigger and finer amusement palace. Both Rickard and Darwin P. Kingsley, President of the New York Life Insurance Company, lesser of Madison Square Garden, were questioned, but shed no light on the plans of the new corporation. It is now definitely announced that Madison Square Garden will not be abandoned by the New Madison Square Garden Corporation.

The disclosure of the plans of the Rickard-Ringling group was made to a limited number of the friends of the promoters who were invited to share in the undertaking.

So sure are Mr. Rickard and Mr. Ringling and those backing their project that they will gain possession of the site today that Mr. Rickard and Mr. Ringling have prepared a formal announcement which was to have been released for Monday. The plan of the four bank groups, of the associates of Mr. Rickard and Mr. Ringling, a detailed description of the projected arena and office building and the uses to which the new arena is to be adapted will be embodied in the forthcoming announcement.

The recently organized New Madison Square Garden Corporation will take over all the enterprises of "Tex" Rickard in the United States. From his activities in America and in foreign companies will go to the new corporation, which he is under agreement to serve for a period of twenty years from May 1923. The place of Chairman of the Board of Directors of the new corporation will be filled by Mr. Ringling. Men who are known in the financial and athletic worlds will have places on the board.

But You Can't Ride on the Paint!

Imitation diamonds can be made to look so real and sparkle so brightly that it is difficult to tell them from the genuine.

But try to sell one and you will find out its real worth in a flash.

Same with automobiles. Weaknesses of construction in a closed car can be hidden, for a time, with paint and varnish and fancy fittings. But all is not quality that glitters.

You can't ride on the paint. And when you place such a car in the second hand market, you suffer a heavy depreciation, because it lacks real intrinsic value at the outset. Use will never improve a mediocre product.

Motor car owners tell us that the trade-in value of any Studebaker car at the end of three or four or five years of useful life is greater than on any other car built today—the percentage of depreciation is the lowest.

No wonder the Studebaker Light-Six Sedan is the fastest selling quality Sedan in the world! The same Studebaker stands for quality, durability, comfort and integrity.
