LABOR FAIR OPENS ST. ANDREW'S RINK

The fair in the St. Andrew's rink, under the auspices of the Trades and Labor Council, got away to a good start on Saturday night when more than 700 people attended the opening ceremonies. The fair was officially opened by Commissioner Wigney, who acted in place of Mayor McLellan, who was absent from the city. The games were all well patronized and the officials in charge of the affair are looking for a successful week. The rink was decorated for the occasion and the booths presented an attractive appearance. The St. Mary's Band was in attendance and furnished music during the evening. There is the usual grocery store, where visitors may secure useful household goods for a dime. The chocolate wheels, doll wheels,

percentage wheels, the house-house wheel, the bagatelle board and the flash and star game all attracted the usual patronage. The ice cream and soft drink booths also were well patronized. The door prize, a half ton of coal, was won by ticket No. 8839. The committee in charge of the fair includes F. A. Campbell, chairman; F. S. A. McMullin, C. H. Stevens, M. P. Donovan, William Ely, Frank Smith, Peter Leclair and George R. Melvin.

HARD COAL FOR ST. JOHN FROM ENGLAND

Local Firm Importing Welsh Anthracite Expected to Retail Better Than American Anthracite Prices.

The Furness Withy Company have just recently chartered the steamer "Withington" to load a cargo of hard coal at a Welsh port for the Consumers Coal Company, this city. The Consumers Coal Company inform the "Times" that they have been considering this move for some time, not only on account of the American strike and the short supply of American anthracite, but as a regular source of supply. Welsh coals are the highest grade coals mined anywhere in the world and this local coal firm anticipates being able to supply both furnace and small sizes to the St. John household, at a price lower than that now charged locally for the regular grades of American hard coal. Apparently England not only has the quality, but she has the ability to send coal and other goods long distances to compete with the world in prices.

The Consumers Coal Company say they will be able to set a definite price on, or about, Thursday of next week and will make formal announcement as to prices, etc., at that time. 6-18

PRUSSIAN MAY IMPOSE A TAX ON FOREIGNERS

Berlin, June 10.—(Associated Press by mail).—The question has been raised in the Prussian Diet whether it would not be advisable to tax foreigners, since their presence in such large numbers here is causing an advance in the prices of food. It is probable that the minister of interior will reply to the question. The possibility of further taxation in this direction, in conformity with the Treaty of Versailles and the tax now levied on hotel rooms, already has been considered. Individual communities may be authorized to levy an indirect tax on foreigners.

Let the Butter-Nut Boys Do Your Baking

They'll make you happy in the hot weather by taking all oven drudgery off your shoulders.

The Butter-Nut Loaf is the big treat in wheat. Finest flour, pure milk, cane sugar, delicious shortening, table salt and Fleischmann's Yeast account for its wholesomeness.

And experience in making millions of loaves accounts for the matchless baking that makes Butter-Nut the favorite.

BAN ON ROOSTERS

Halifax, June 11.—Roosters will be obliged to evacuate the hen coops within the limits of this city, because their salutations in the morning disturb the slumbers of all good citizens who do not have to arise at dawn, according to a ruling made by the board of health officials. Poultry fanciers who wish to keep hens within the city for exhibition purposes or to provide breakfast eggs will not in future be given a permit until they promise to bar chickens from their coops.

OIL-FIRE EXTINGUISHER

New Apparatus Intended for Use on Liners.

London, May 26.—(Associated Press by mail).—A demonstration was given on Wednesday, at Wandsworth, of the Fire foam system of extinguishing fires, which has been adopted for the protection of several of the largest oil-burning liners and also of some 20,000 tanks on land.

It depends on the use of two liquids, one acid and the other basic, the mixing of which, preferably close to the fire which has to be dealt with, gives rise to a large volume of persistent foam, charged with carbonic acid gas, which smothers the flames. In one of the experiments petrol contained in a metal tray measuring two feet by three feet six inches was ignited and was extinguished in about half a minute with the aid of a two-gallon extinguisher. In another experiment four gallons of petrol were poured upon the surface of a tank containing 250 gallons of fuel.

Optical Service

This means more than the mere supplying and fitting of glasses. Of greatest importance is the examination which determines the success or failure of an attempt to make your eyes more useful and comfortable.

Our increasing clientele is sufficient evidence of the ability with which our examinations are made.

We shall be pleased to make an appointment to examine your eyes at your convenience.

oil. A length of one inch from piping, perforated with half-inch holes, was placed across the tank and was connected to a thirty-four gallon Firefoam engine. When the fire had burnt for about twenty seconds the engine was put into operation, and the flames were extinguished in about twenty-five seconds.

Endowment Insurance at Ordinary Life Rates

The Imperial Accelerative Endowment Policy is a combination of all that is best in life insurance.

PREMIUMS payable under this contract are only slightly higher than the Ordinary Whole Life rates, and one does not have to "Die to Win," because, under any circumstances, the face value of the policy is payable to the assured himself not later than at age 75.

All the usual options of dealing with the profits at the end of each five-year period are provided. In addition, two special op-

tions are granted under which the profits may be used, to reduce the number of premiums payable, or to hasten the maturity of the policy as an Endowment.

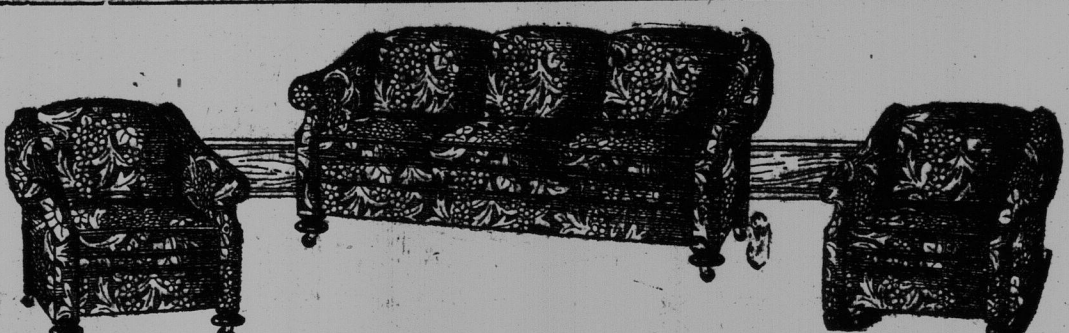

An Accelerative Endowment will ensure your own independence in old age, if you live; the independence of your family, if you die.

Write now for our booklet which explains in detail the distinctive features of this most desirable policy.

A New Idea In Chesterfields

Picture first a symphony of forest-hued foliage and blues on enduring Cretone. Cushioned wing backs and springy arm rests also on both fireside chairs. Full web inside framing with coil springs and hair and moss filling to give greater comfort still. Then think of three frontal tiers of tuft upholstery curved into a Cupid's Bow. Think of all this in a \$925 suite.

Of course we have them as low as half this, but we feel you would really like to come to see

DE VALERA ON THE AGREEMENT

Speech at Mallow—He is to Visit Scotland—Guarding Cabinet Members.

Belfast, June 11.—Eamonn De Valera in a speech at Mallow Saturday in support of the panel candidates for parliament emphasized the impossibility of acting as though conditions were normal. He said that while the opposing programme differed fundamentally, they had many things in common, and that the factions in coming together meant that they were determined to lay stress on things they had in common.

Under the abnormal conditions of the past five years, said Mr. De Valera, individuals and groups of individuals, under the necessity to assume immediate responsibility, had taken powers upon themselves, very often for the good of the nation, which would only be tolerated in time of war. Those powers now must be relinquished to a central authority established by the nation, and it was to achieve such a result that the two sides to the controversy had come together.

May Go to Scotland.

Dublin, June 10.—Eamonn De Valera, the Irish Republican leader, accompanied by Austin Stack, will visit Scotland next week to address a number of meetings. It was announced today. Since Mr. De Valera has been barred from speaking publicly in Glasgow, he will speak at Dalmeir, just outside the city limits.

British Cabinet Guarded.

London, June 11.—Several members of

the British cabinet are being closely guarded by special detectives from Scotland Yard, as a presumed result of renewed activity on the part of Irish extremists, said the Illustrated Sunday Herald today. Winston Spencer Churchill, secretary of state for the colonies, was declared to be one placed on the protection list.

Some ministers, the newspaper asserted, have received anonymous letters, making serious threats against them, if the Irish negotiations do not result favorably.

Pettigoe Prisoners.

Belfast, June 10.—A score of civilians, understood to be prisoners taken in the occupation of Pettigoe, were marched this morning under heavy escort to the Enniskillen station for conveyance to this city. They included a uniformed man, said to be one of the leaders of the irregular Irish Republican army force.
