**WHAT IS IT NOW IN
MILL STREET—LEAK
IN MAIN, OR A SPRING?**

Great Outpouring at the Refractory
Sewer and Talk of Danger of
Undermining

The efforts on the part of the city water works department to overcome the trouble which has been caused in Mill street and the adjoining district by the leakage of the sewer which empties through the new C. P. R. property have not been crowned with entire success so far. In fact the trouble seems to be assuming greater proportions than ever and the difficulty is increased by a certain amount of mystery regarding the actual cause of the trouble. What have we struck now? is the question today.

In order to keep the cellar of the neighborhood from being filled with water it was found necessary last week to put a steam pump in operation at the outlet of the sewer. The opinion was expressed that there was a blockage in the sewer and it was hoped that this would help to clear it away. The attempt did not succeed and today it was found necessary to put another steam pump in operation.

From the amount and the appearance of the water which is being pumped out it has been suggested that they must be drawing on a spring in the vicinity or else that there is a big leak in the water main. If either of these theories is correct it may be a serious matter as the land in that vicinity is made ground and such condition might lead to undermining the streets and the buildings.

At the water office this morning it was stated that as far as they knew nothing was being pumped except sewage and they accounted for the quantity by the fact that the sewer is the outlet for all that part of the valley. If there is a leak in the water main it must be an old one, they said, as no change of any importance has been noticed in the pressure recently as would be the case if a new leak of serious proportions had broken out.

**SIR EDWARD GREY

**CANADA DEFENCELESS,
HE SAYS, IN CASE OF
WAR WITH THE STATES**

Montreal, Que., Nov. 27.—That Canada would be almost defenceless in the event of a war with the United States, that the Atlantic ports should be defended, was the theme of C. H. Cahane, K.C., before the Canadian Club today.

The possibility of war is omnipresent despite the 100 years of peace," he declared. "The authorities who are responsible for the defence of Canada cannot longer ignore the military and naval preparedness of our neighbors to the south. They must sooner or later take adequate measures for the protection of our naval internal waterways, and great transcontinental lines of railway. Despite the 100 years of peace, there are obvious questions between Great Britain and the United States that would make war inevitable."

ROBE AND THE VATICAN

The lecture given last evening in the basement of St. John the Baptist church, by Rev. Dr. O'Reilly on "Robe, Pope Leo XIII, and the Vatican," proved very interesting and entertaining, as well as instructive to a large audience.

The lecture was given under the auspices of the Sunday school teachers. The speaker clearly sustained the reputation he has won as a lecturer. The close attention accorded him as he described the objects of interest about the Eternal City, the Vatican, and related incidents in the life of Leo XIII, was sufficient evidence that the audience thoroughly enjoyed the address.

A hearty vote of thanks was tendered by Thomas Gorman, and seconded by William Payne, was tendered Dr. O'Reilly by Thomas Kilian on behalf of the Sunday school teachers.
