

**A GOOD PLACE TO BUY GOOD CLOTHES**

**THE FINISH OF Gilmour's Sale**

This month positively ends our sale of suits and overcoats. While our line has, of course, been greatly reduced the opportunities now here are proportionately increased in value to the man who is looking for unusual bargains.

Suits have now been discounted still further to close them out immediately.

The remaining Overcoats have suffered similar reductions.

To those who are looking for an opportunity to get genuinely good clothing at about half the usual price, we say, "Don't hesitate another instant. Call at Gilmour's today or tomorrow at the very latest, and get your share of the few remaining bargains."

**Opportunities for Profitable Investment**

The ideal way to save money is to invest it where it will be safe, and yield a liberal income.

If for a period of years the net earnings of a company issuing bonds are sufficient to pay the interest, charge several times over, your returns are thoroughly secured.

It therefore involves no departure from the principles of conservatism to make your money earn from 5 to 6 per cent—it simply means you place your money in a profitable business where it will earn legitimate business profits.

Write us today, in a general way, what your investment needs are—the amount you have to invest—and we will at once mail you a special list of high grade securities, and will be pleased to give you full information concerning any issue on which your interest centers.

**RAILROADS TO FIGHT; BUT HOW?**

(Canadian Press)

Washington, Feb. 24.—That the railroads of the country will continue their fight against increased freight rates is the general belief here today. Though the present contest is ended so far as the Interstate Commerce Commission is concerned, the railroads may find some way to combat the decisions just handed down.

As recent decisions of the supreme court have indicated that decisions of the commerce commission on questions of fact will be held final and not subject to review, just how the railroads can wage their battle remains to be seen.

New York, Feb. 24.—The sweeping directions of the Interstate Commerce Commission forbidding rate increases in the official classification territory and all the roads in the great middle west, were attacked by newspaper and newspaper men, who declared that the directions will undoubtedly result in curtailing present plans for improvement.

On the other hand manufacturers and merchants are jubilant over their victory before the federal board and agree with Louis D. Brandeis, who reported the ship-owners before the commission, that the directions mark a new business life era in United States railroad affairs. The railroad chiefs declare that the weight of the decisions will ultimately fall upon the wage earners causing a decrease in the earnings of hundreds of thousands of employees. But Attorney Brandeis asserts that the direction is of particular benefit to wage earners, "upon whom the burden of advance in the rates would have ultimately rested."
