Richibucto, Aug. 25.-The picnic held at Kingston on Thursday in aid of the new hall proved a big success. Kingston is well situated for an affair of this kind, being surrounded by good country districts, which, coupled with so fine a day as Thursday and a well advertised and attractive programme brought together over a thousand people. The new hall is now framed and boarded in and when completed will be the finest one on the north shore. The basement was used on Thursday for serving dinner and tea. In Wm. Brait's large field, right opposite, was erected a platform for dancing and the

Kingston band discoursed sweet music far into the night. Booths were scattered in all directions, each with some special feature to gather in the "coppers." At nights the grounds were illuminated in grand style and made a pretty sight. The steamer Calluna

made five round trips from here during the day. The net proceeds were over four hundred dollars. The sports in connection with the picnic opened in the forenoon with a sailing race in which eight boats started, over a course comencing at

Erait's wharf and extending past here to Marsh Point buoy and back to the starting place. The breeze had just

the right velocity and from a direction that gave the boats sufficient opportunity to test both their running and windward sailing qualities. George Amireaux's Sagwa finished first, Angus Durant's Gleaner second and Frazer's third. The two former are owned here and the latter in Kingston. The double-scull race took place in the afternoon above the bridge. There were five boats in this race, which re-

Mrs. Walsh's Dwelling on the Cumberland Road Destroyed by Fire.

Sussex, Aug. 27.-A large farm dwelling house, owned and occupied by Mrs. Walsh (widow), situated on the old Cumberland road and about three miles from Sussex station, caught fire between 10 and 11 o'clock yesterday morning and was burnt to the ground. The fire was, fortunately seen from the Catholic chapel on Ward's Creek road while mass was being conducted by Rev. Father Gaynor, about a quarter of a mile distant. A number of young men hastened to the burning building and but for their timely assistance in destroying one or two small buildings a large barn well filled with hay and grain and farm implements would also have been destroyed. It is supposed

the fire caught from a defective chimney. The building was insured for \$1,100 in a company represented by T. Edwin Arnold here. Some of the furniture was saved.
